## INTRODUCTION

---

### **I-1. AUTHORIZATION**

a. Authority for acquisition of reference book sets appears in the following types of authorization documents:

- (1) Table of Organization and Equipment (TOE)
- (2) Modified Table of Organization and Equipment (MTOE)
- (3) Bills of materials for special purpose medical units when authorized by the Surgeon General

b. The Commander, U.S. Army Medical Department Center and School (USAMEDD C&S) will be responsible for determining the components of each book set. The book sets should be reviewed annually and updated listings published in a revised DA SB 8-75-S9 edition.

c. This publication contains the basis of issue for all medical book sets authorized for medical TOE Units.

### **I-2. BOOK LISTINGS**

a. The Defense Supply Center Philadelphia (DSCP) assign National Stock Numbers (NSNs) for each book set. The NSNs are then published in of the Universal Data Repository (UDR) on CD-ROM format.

b. Appendix A lists each book set by the Line Item Number (LIN), the NSN/Nomenclature, and the TOE number.

c. Appendix B identifies each book set by title, price, and the number of copies required. For reference purposes the listing of the component volumes has been segregated by specific medical categories.

d. Edition numbers and publication dates are based on the latest available information. The price of each book is subject to change without prior warning.

### **I-3. ACQUISITION OF BOOK SETS**

a. Activities shall requisition book sets listed in Appendix B from DSCP, located in Philadelphia, PA. Book sets are authorized by a separate LIN on the TOE/MTOE and are not listed as components of current unit assemblages.

b. Activities will submit requisitions to meet the following conditions:

(1) Initial Issue for Units. Station or Unit Supply Officers will requisition book sets as authorized by TOE/MTOE.

(2) Security Assistance Program (SAP). The U.S. Army Medical Materiel Agency (USAMMA) will coordinate with DSCP for inclusion of appropriate book sets with major medical assemblages destined for an SAP country.

#### **I-4. MAINTENANCE OF BOOK SETS**

Units will update book sets as needed on an annual basis as reflected in the current DA SB 8-75-S9.

**NOTE: An entire book set may not need to be purchased if individual books need replacing.**

#### **I-5. REPLACEMENT BOOKS**

a. All active Army, Army Reserve, and National Guard Units requiring individual reference books to replace outdated or lost volumes (or as additions to book sets in TOE Units), may obtain such volumes by submitting requests to their supporting medical supply activity. Requests should always specify that the "Latest Edition" is required. For specific local procedures, the supporting medical supply activity should be consulted.

b. When purchasing replacement books, order the most current edition for those books that are published on a yearly basis.

c. When ordering Field Manuals (FM), Technical Manuals (TM), or any other Army publication, request the most current edition from the Army Publishing Directorate (APD), Alexandria, VA, at their WEB site (<http://www.apd.army.mil>). Requests may also be routed through the unit's Battalion Administration Office (S-1).

d. CONUS and OCONUS medical supply activities may obtain individual medical reference books under one of the following procedures:

(1) Government Purchase Card purchase from:

- Matthews Medical Books: 314-432-1400 or 800-633-2665
- Website [www.matthewsbooks.com](http://www.matthewsbooks.com)

(2) Local procurement (AR 40-61 [*Medical Logistics Policies*], Chapter 3). OCONUS Units/Activities have the option to submit a non-standard requisition, DIC A05, with exception data to DSCP, RIC S9M.
