	Distribution Restriction Statement Approved for public release; distribution is unlimited.	

CECW-EG

Pamphlet
No. 1110-1-15

31 March 1994

Engineering and Design
COOPERATION WITH STATE GEOLOGICAL SURVEYS

1. Purpose. The purpose of this pamphlet is to encourage U.S. Army Corps of Engineers (USACE) cooperation and coordination with State Geological Surveys.
2. Applicability. This pamphlet applies to HQUSACE/OCE elements, major subordinate commands, districts, laboratories, and field operating activities.
3. Reference. EM 1110-1-1804, Geotechnical Investigations
4. Background. The Liaison Committee of the Association of American State Geologists (AASG) met with USACE officials at HQUSACE on 15 September 1993. Members of the AASG met with HQUSACE personnel again on 29 November 1993. The purpose of the meetings was to review and update the potential for cooperation and coordination between USACE and State Geological Surveys. Of special interest were opportunities for cooperatively-funded projects where state surveys could provide basic geologic and topographic information to USACE project offices.
5. Discussion. All USACE offices should be cognizant of the location, points of contact, and resources of State Geological Surveys in USACE project areas. In accordance with the guidance contained in EM 1110-1-1804, Geotechnical Investigations, every effort should be made to utilize the resources of these State Geological Surveys.
6. Points of Contact for State Geological Survey Offices. Appendix A provides a list of State Geological Surveys (or equivalent offices) for the 50 states and Puerto Rico. Appendix B provides a list of AASG Liaison Committee members.

FOR THE COMMANDER:

2 Appendices
APP A - State Geological
Surveys
APP B - AASG Liaison
Committee

WILLIAM D. BROWN
Colonel, Corps of Engineers
Chief of Staff

APPENDIX A
STATE GEOLOGICAL SURVEYS
December 1993

ALABAMA

Ernest A. Mancini
Alabama Geological Survey
