EP 1130-2-500

27 December 1996

In EP 1130-2-500, paragraph 7-6e, the dollar amount for the disposal of floating plant is stated at \$50,000. This is inconsistent with ER 1130-2-500, paragraph 15-2i(1), which states the same criteria in the amount of \$200,000. The EP should be consistent with the ER and reflect the \$200,000 limit. This was an administrative oversight during the regulation consolidation effort in 1995-1996. This change also corrects a misspelling.

Therefore, paragraph 7-6e should read as follows:

"e. Disposal of Floating Plant. No item of floating plant, having an original cost of **\$200,000** or more, shall be sold, transferred, **declared** excess, or otherwise disposed of, without obtaining authority from HQUSACE, CECW-OD."
