

APPENDIX G

REPORTING DISTRICT AND MSC COMMANDER APPROVED REPROGRAMMINGS

1. General Investigations, Construction, General, and Flood Control Mississippi River and Tributaries. District and MSC Commanders will immediately report all field reprogrammings made under their authority in the General Investigations; Construction, General; and Flood Control, Mississippi River and Tributaries appropriation titles via the Civil Works Automated Work Allowance System (CWAS). Timely reporting will insure prompt issuance of an allotment advice by HQUSACE (CERM-BE) in the case of inter-District reprogrammings, facilitate preparation of quarterly report to Congress on Construction, General reprogrammings in excess of \$500,000, and keep allotment by study and project records up to date.
2. Operation and Maintenance, General, except National Emergency Preparedness Program. Specific criteria have been established for all reprogramming actions by CECW-OM Memorandum dated 29 August 1991. Each reprogramming will be documented to show that the criteria have been met, and that documentation will be transmitted to CECW-OM for each action.
3. National Emergency Preparedness Program. Copies of approval correspondence will be provided to HQUSACE (CECW-OE) within five working days.
4. Flood Control and Coastal Emergencies. Copies of approval correspondence will be provided to HQUSACE (CECW-OE) within five working days.
5. Regulatory Program. Copies of any within district reprogramming action approved below headquarters level will be provided to HQUSACE (CECW-OR) within five working days.
