

CHAPTER 12 - NATURAL RESOURCE MANAGEMENT SYSTEM

12-1. Purpose. This chapter establishes the policy for the Natural Resource Management System (NRMS), which is a system designed for collecting and analyzing annual USACE recreation facility and natural resource management information.

12-2. Policy. It is the policy of the Corps of Engineers that:

a. An electronic database of project-based natural resource and recreation management data shall be operated and maintained by CECW-ON. This database shall be referred to as the Natural Resource Management System.

b. Each project having an annual visitation of 20,000 visitor hours of use or more shall submit the NRMS data to CECW-ON annually. Specific data descriptions and requirements, as well as guidance on the content, format, and reporting schedules for NRMS data, is provided in Chapter 12 of EP 1130-2-550.

c. The updated NRMS database shall annually be made available to FOAs, and to other official users upon request.

d. Adding new recreation areas, splitting exiting recreation areas into multiple areas, combining multiple recreation areas into one area, deleting a recreation area or changing the name of a recreation area requires MSC-approval with justification prior to incorporating the change into the NRMS. A copy of the MSC approved request and justification will be forwarded to HQUSACE and a second copy forwarded to the national database manager (NDBM) as notification. The district office will assign all new NRMS area numbers.
