PREFACE

Unit training is the most important peacetime training. It prepares a unit to accomplish its critical wartime missions. The most difficult job for a unit leader is preparing and conducting unit training. This job must be attacked aggressively and consistently by unit leaders in order to instill a “can do” attitude within their unit and provide challenging training. The ARTEP MTP is the unit leader’s basic training document. It will guide him in preparing for the conducting and evaluating of his training. The ARTEP MTP may be used by higher HQ for external evaluation of a unit’s training proficiency.

Since modern warfare depends on complex weapon systems which must be supported through extensive logistical channels, effective and timely support is imperative. The unit must be able to anticipate, analyze, and tailor available resources and mission priorities to the changing combat situation. The unit must also be flexible enough to give support from any base cluster and it must be able to survive in order to support the fighting on the battlefield.

The purpose of this MTP is to provide a descriptive, mission-oriented program to be used to train the unit to perform its critical wartime mission. The missions described in the unit MTP will be the principal ones to be executed with a high degree of proficiency. Unless stated in writing by the next higher commander, the unit is expected to train to the missions and standards outlined in this MTP. Task standards can only be changed if they are made more difficult. This MTP is in full alignment with and is part of the USA training doctrine and USA tactical doctrine.

This MTP is designed for the following ARTEPs:

- Transportation Light Truck Company (TOE 55718L).
- Transportation Light-Medium Truck Company (TOE 55719L).
- Transportation Medium Truck Company (TOE 55727L).
- Transportation Medium Truck Company (TOE 55728L).

The proponent of this publication is HQ, TRADOC. Submit changes for improving this publication on DA Form 2028 (Recommended Changes to Publications and Blank Forms) and forward it to: Commander, USACASCOM, Training Directorate, ATTN: ATCL-AT, Fort Lee, VA 23801-5000.

Unless otherwise stated, whenever the masculine gender is used, both men and women are included.

ENVIRONMENTAL TRAINING AND INTEGRATION

The US Army environmental strategy into the 21st century defines the Army's leadership commitment and philosophy for meeting present and future environmental challenges. It provides a framework to ensure that environmental stewardship ethic governs all Army activities. As an integral part of all Army missions, the Army's environmental vision is to be a national leader in environmental and natural resource stewardship for present and future generations. The Army's environmental vision statement communicates the Army's commitment to the environment.

Soldiers and leaders are expected to serve as the Army's basic environmental stewards and have a professional and personal responsibility to understand the Army's environmental program.

Soldiers and leaders must understand their specific duties and responsibilities concerning protection of the environment, and comply with environmental laws and regulations. These are delineated in TC 5-400. Commanders must stay current of federal, state, local, and HN laws and must apply whichever are the most stringent.

Stewardship of our environment is part of our mission to maintain a trained and ready Army. Leadership is the key to success. Each leader in the chain of command, including the NCO support channels, is responsible for ensuring that the Army environmental strategy is implemented and that environmental stewardship is an integral part of everything we do. Each soldier, civilian, and family member is a steward of the environment. America's Army shares with all Americans their values of democracy, equal opportunity, and wise use of environmental assets. The American people expect the Army to manage the resources intrusted to it.

ENVIRONMENTAL PROTECTION AND HAZARD AWARENESS NOTICE

DEATH or serious injury may result if personnel fail to observe safety precautions.

WARNINGS

FUEL FLAMMABLE/NO SMOKING

Fuel is flammable and toxic to eyes, skin, and respiratory tract. Skin/eye protection is required. Avoid repeated/prolonged contact. Use only in well ventilated areas. Keep away from open flames or other sources of ignition. Post **FUEL FLAMMABLE/NO SMOKING** signs around the area. Suitable fire extinguisher must be present.

Fuel on clothing can be fatal if ignited by a static discharge. If fuel gets on your clothes, leave the refueling area as soon as possible and wet clothes with water before taking them off. In extreme cold conditions, clothes should not be wet; instead, ground yourself to a piece of grounded equipment by taking hold of it before taking off your clothes. Wash skin with warm soapy water.

Spilled fuel creates a flammable, vapor-air mixture and fire can take place. Stop refueling immediately if fuel spill occurs.

FROSTBITE

Touching cold metal with exposed skin will cause skin to bond with metal. Gloves are required when touching cold metal objects. Do not touch cold metal parts with bare hands.

SOLVENT HAZARD

Dry cleaning solvent, P-D 680, Type III, used to clean parts is potentially dangerous to personnel and property. Eye protection is required. Avoid repeated and prolonged skin contact by wearing rubber or nonporous gloves when handling solvents or material wet with dry cleaning solvent. Wash hands with soap and water immediately after exposure and use a lanolin based skin cream to prevent skin drying. Do not use near open flame or excessive heat. Flash point of solvent is 138 degrees F. Do not work with solvent in a closed area. Be sure there is good ventilation or the solvent vapors will build up in the air and become a poisonous mixture which can cause physical injury or even death.

ELECTRICAL HIGH VOLTAGE CAN KILL YOU

Electrical high voltage cannot be seen, but it can kill you. Electricity is unlike most other dangerous things you can come in contact with because it gives no warning and no symptoms; and its effects are immediate. It can kill you, render you unconscious, or severely burn you. To ensure your safety and that of other maintenance personnel, always observe the following precautions:

- **DO NOT** perform any maintenance on electrical equipment unless all power is removed.
- **BE CERTAIN** that there is someone assisting you who can remove power immediately.
- **ALWAYS** place **POWER OFF** warning tags on power supply switches so that no one will apply power while you are performing maintenance.
- **FOR ARTIFICIAL RESPIRATION**, refer to **FM 21-11**.

COMPRESSED AIR HAZARD

Compressed air can blow dust into the eyes. Wear eye protection. Do not exceed 30 psi at the nozzle. *FIRST AID* instructions are given in *FM 21-11*.

CARBON MONOXIDE (EXHAUST GAS) CAN KILL YOU

Carbon monoxide is without color or smell, but can kill you. Breathing carbon monoxide produces symptoms of headache, dizziness, loss of muscular control, a sleepy feeling, and coma. Brain damage or death can result from heavy exposure. Carbon monoxide occurs in the exhaust fumes of burning heaters and internal combustion engines. Carbon monoxide can become dangerously concentrated under conditions of no ventilation. Precautions must be followed to ensure operator's safety when combustion engines are in operation.

- **OPERATE** with the exhaust pipes unobstructed.
- **DO NOT** operate the powered module with a known exhaust (combustion air) leak.
- **BE ALERT** at all times during operating procedures for carbon monoxide poisoning. If exposure is present, *IMMEDIATELY* evacuate personnel to fresh air.
- **BE AWARE** the field protection mask used for NBC attack **WILL NOT** protect you from carbon monoxide poisoning.

THE BEST DEFENSE AGAINST CARBON MONOXIDE POISONING IS GOOD VENTILATION.

JEWELRY

Jewelry can catch on equipment and cause injury, or may short across an electrical circuit and cause severe burns or electrical shock. Remove rings, bracelets, wristwatches, and neck chains before working around or on the unit.

HOT COMPONENTS

Contact with hot components can cause burns. Allow unit to cool down before attempting service, inspection, or maintenance activity.

STEEL BANDING

Steel banding, cut under tension, can snap free and cause injury. Leather gloves and faceshield are required.

FUEL SPILL

Fuel is toxic and can cause injury to personnel and damage equipment. Improper positioning of external fuel source can cause the internal fuel tank to overflow. Properly position external fuel source.

NOTE

Report all hazards. If at any time you detect a hazard, it is your responsibility to report the hazard to ensure that it is corrected. If you detect a “new” or “suspected new” hazard, particularly due to equipment installation, modification, or repair, it is your responsibility to report through your chain-of-command to ensure that a **SAFETYGRAM** is submitted to the US Army Aviation and Troop Command, Safety Office. This will ensure that this hazard will be investigated, publicized, or corrected, as required.

ENVIRONMENTAL PROTECTION

Environmental damage has many wide-ranging consequences. The complete success of the tactical mission depends on your environmental awareness. Leaders and soldiers must be aware of the ramifications of their actions on the environment, which, in turn, reflects upon the overall mission. Prevention of spills and improper disposal of hazardous materials and hazardous waste is everyone’s responsibility. Know the proper procedures for preventing and reporting oil or fuel spills IAW your local unit SOP.

CHAPTER 1

UNIT TRAINING

1-1. GENERAL. This MTP provides the commander guidance with a tactical and technical training and evaluation document for the unit. It also provides guidance concerning how to train personnel for the key missions of the unit. The specific details of the unit training program will depend on the following factors:

- a. Chain of command training directives and guidance.
- b. Unit training priorities.
- c. Training resources and areas available.

1-2. SUPPORTING MATERIAL. This MTP describes a critical wartime mission-oriented unit training program, which is part of the transportation battalion training program. The unit's training program consists of a unit MTP and includes the following:

- a. STPs for common task training for the appropriate MOS and SLs.
- b. STP 21-II-MQS and manuals for company grade officers.

Figure 1-1 illustrates the relationship of these supporting materials.

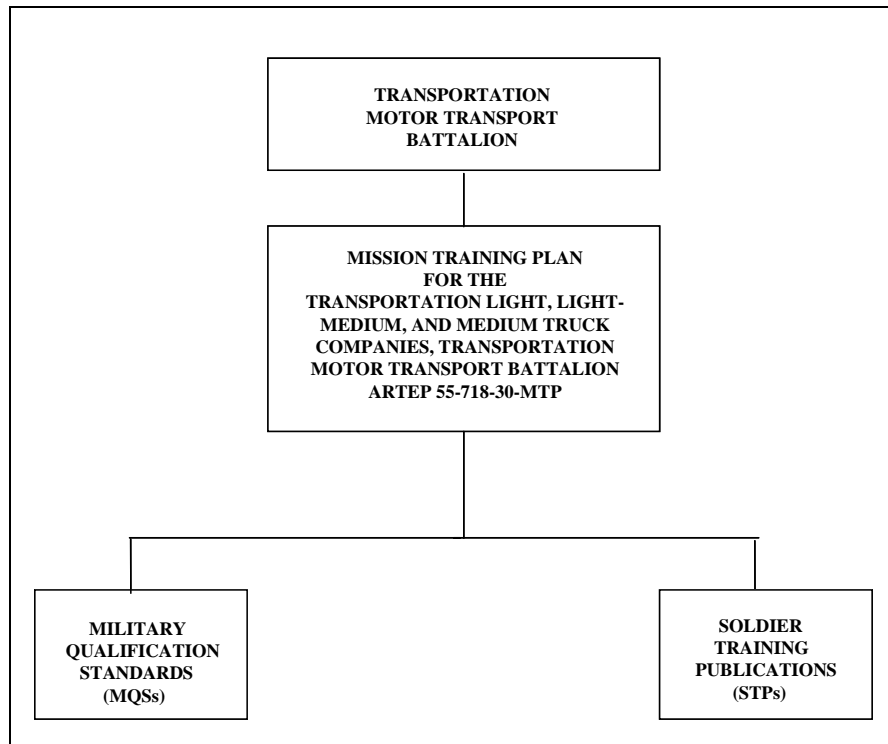

Figure 1-1. MTP echelon relationship diagram

1-3. CONTENTS. To provide a complete unit training and evaluation document, this MTP contains six chapters.

a. **Chapter 1, Unit Training.** This chapter is the foundation for using the MTP. It explains how to use the remaining five chapters for training and evaluating each unit. It also identifies each unit missions and illustrates their relationship to the transportation battalion's missions.

b. **Chapter 2, Training Matrix.** This chapter shows the relationship between missions and collective tasks. Each unit commander uses this training matrix for planning tools for training.

c. **Chapter 3, Mission Outline.** This chapter describes the use of a mission outline and provides a mission for the unit's overall critical wartime mission. The outline shows the relationship of the FTX and its supporting STX.

d. **Chapter 4, Training Exercises.** This chapter consists of an FTX and its supporting STXs. These exercises are used to train personnel in the unit's missions and in the supporting tasks. These exercises provide training information and a scenario to give you a pre-constructed, flexible training tool, which supports the training of the unit missions. These exercises may also serve as part of an internal or external evaluation designed to have the unit execute the missions in a tactical setting. These exercises may be modified to suit each unit training needs.

e. **Chapter 5, Training and Evaluation Outlines.** This chapter provides the training and evaluation criteria for all the tasks each unit must master to be able to perform its missions. The T&EOs are provided for each task and includes their related standards. Each T&EO is part of a mission and in various combinations they compose the training exercise in Chapter 4.

f. **Chapter 6, External Evaluation.** This chapter provides instructions for developing an external evaluation of each unit.

1-4. MISSIONS AND TASKS. This MTP considers two types of missions:

- *Stated missions* - which are found in the TOE.
- *Implied missions* - which must be performed to accomplish the stated missions.

The relationship of tasks to missions and their training requirements are discussed in paragraphs a through e.

a. This unit has one critical wartime mission -- provide motor transport services to the US armed forces. There are six supporting missions that support this critical wartime mission. These missions include the following:

- Deploy unit to a new theater of operations.
- Relocate unit to a new operating site.
- Establish unit area of operations.
- Provide truck transportation.
- Defend assigned area.
- Redeploy unit to home station.

b. The critical wartime mission echelon relationship diagram shows the relationship of the missions of the lower echelon unit to those of a higher echelon. The missions of a lower echelon unit must support the missions of a higher echelon unit. Figure 1-2, page 1-5, shows the relationship of the unit missions to the main support battalion missions.

c. Each unit mission task requires training by the unit. Training for unit tasks may be done individually or with others. In either training situation, the training must be based on the training criteria provided in the T&EOs. Several T&EOs can be grouped and trained as an STX (Chapter 4) and several STXs can be developed into an FTX to train personnel in the unit's critical wartime missions.

d. Individual STP and MQSs II and III training, TEWT, battle simulations, and execution of unit missions provide training in leader tasks, which support the unit missions.

e. Individual tasks that support the unit tasks are mastered through training to standards outlined in the STP. These tasks must be mastered and sustained by all members of the unit.

1-5. TRAINING PRINCIPLES. This MTP is based on the training principles outlined in FM 25-100.

a. **Train as Combined Arms and Services Team.** Although this MTP addresses only the company, the company will often train as part of a combined arms team in higher echelon exercises.

b. **Train as You Fight.** Units fight as they train. Soldiers remember the last way they performed a task whether it was right or wrong. Soldiers and companies must perform tasks according to established standards, which are rigidly enforced by leaders.

c. **Train Using the Published Army Doctrine.** This MTP conforms to published doctrine. Leaders are responsible for knowing current doctrine and training according to doctrine.

d. **Use Performance Oriented Training.** Unit's become proficient in the performance of critical tasks and missions by practicing them. Since soldiers learn by doing, the vast majority of a unit's training must involve performing tasks with coaching and critiquing by the leaders and good AARs.

e. **Train to Challenge.** Challenging training builds competence and confidence by developing and sharpening skills. It inspires excellence by fostering initiative, enthusiasm, and eagerness to learn.

f. **Train to Sustain Proficiency.** The cornerstone of the ARTEP is the concept of sustaining proficiency. The unit must be prepared to go to war on short notice. To sustain proficiency, the unit must train--evaluate--train. Sustainment requires practice and repetition. Evaluation of these practices identifies training weaknesses simultaneously. The training plans and smaller training components allow facilitate this process and reduce planning time. Matrixes allow the leader to see training weaknesses in the context of the mission, which will lead to resolution of problems.

g. **Train Using Multiechelon Techniques.** Multiechelon training is the most efficient way of training and sustaining a diverse number of mission essential tasks within limited periods of training time. To use available time and resources, commanders must simultaneously train individuals, leaders, and unit at each echelon in the organization during training events.

h. **Train to Maintain.** Maintenance training designed to keep equipment in the fight is of equal importance to soldiers as being expert in its use.

i. **Make Commanders the Primary Trainers.** Leaders at all levels are responsible for the training of their soldiers. The unit's success on the battlefield will depend on the personal training involvement of the leaders.

1-6. COMBINED ARMS TRAINING STRATEGY. CATS is designed to provide Army leaders a strategy that states the rationale and justification for requesting all Army training resources in both institutions and units. It provides training management guidance for institutional commandants and unit commanders to plan and execute required training to established Army standards. Institutional strategies are prescriptive and define the mandatory training requirements for qualifying soldiers and leaders to specified levels of competency in respective functional specialties. The training program developed and executed by this unit to train to standards in its wartime mission is also a component of CATS. CATS provides the tools that enable the Army to focus and manage training in an integrated manner. The major focus of CATS is a series of proponent-generated unit and institutional strategies that describe the training and resources required to train to standard.

a. The unit training strategies in CATS provide the commander with a descriptive "menu" for training. While the "menu" may reflect an optional guide for training to standard, it is unlikely that all units will have the exact mix of resources required to execute such a strategy.

b. This unit's training strategy (see Appendix A) is a descriptive training strategy that provides a means of training this unit to standard by listing required training events, critical training gates, training event frequencies, and training resources. The commander selects from this MTP the tasks required to train his METL. The training strategies provide the means to train these tasks through a focused and integrated training plan.

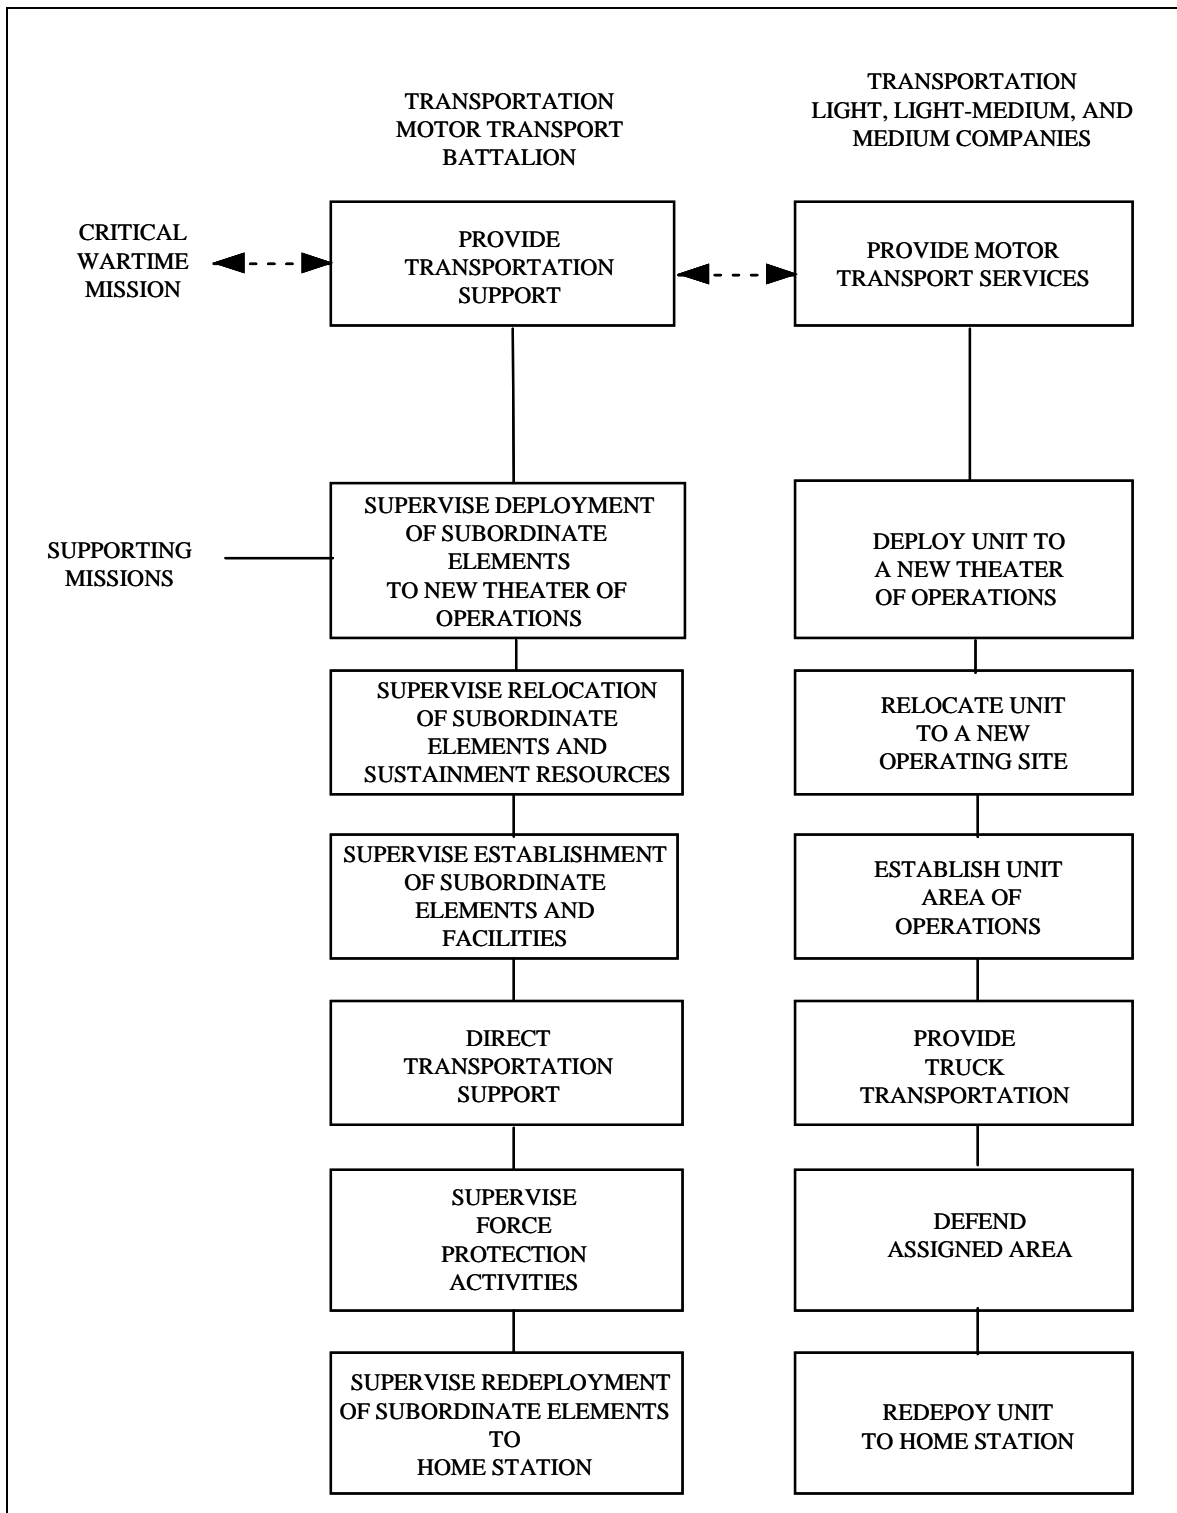

Figure 1-2. Critical wartime mission echelon relationship diagram for the transportation light, light-medium, and medium truck companies to the transportation motor transport battalion

c. This unit's training strategy has two separate training strategies. When integrated with the training tasks found in the MTP, they form a comprehensive and focused strategy, which permits this unit to train to standard. The elements of this unit's training strategy are as follows:

(1) **CSS unit training strategy.** This strategy is intended to provide a set of recommended training frequencies for key training events in a unit and depict those resources, which are required to support training events. CSS unit training strategies must address both technical (mission) and tactical (maneuver/survival) training needs of CSS soldiers and units.

(2) **Soldier strategy.** The soldier strategy provides an annual plan for training and maintaining skills at the individual level and lists the resources required to train a soldier.

d. A critical element in the unit training strategy is the identification of critical training gates. These gates are defined as training events that must be conducted to standard before proceeding to a more difficult or resource-intensive training event or task. Training events follow the crawl, walk, run training methodology. For example, if unit training strategy calls for conducting an FTX, and an STX has been identified as a critical training gate for the FTX, the training tasks contained in the STX must be trained to standard prior to conducting the FTX. Standards must be specific so that a commander can assess the preparedness of his soldiers or unit(s) to proceed to more complex training events. By using training gates, the unit's METL and the commander's assessment of his unit's training status will determine the selection and timing of the collective training exercises in a specific unit's training strategy.

e. When developing the unit's training plan, the commander identifies tasks from the MTP required to train his METL. He will use the training strategy found in Appendix A to develop a battle-focused training plan that integrates and links METL-derived MTP training tasks with CATS training events.

1-7. CONDUCTING TRAINING. This MTP is designed to facilitate the planning, preparation, and conduct of unit training as explained in FM 25-101.

a. Based on the battalion's training guidance, the commander will assign the missions or tasks for training. He must plan and execute unit training in support of the battalion commander's guidance.

b. The unit mission outlined in Chapter 3 must be reviewed to determine whether the FTX provided will support or can be modified to support the battalion commander's guidance. If the matrix in Chapter 2 does not support the guidance or need to be modified, they should be reviewed. This matrix provides a listing of all critical collective tasks, which must be mastered to perform a specific mission. It also shows the collective tasks that must be performed to accomplish an STX.

c. The tasks required must be prioritized. Training must be oriented toward the greatest challenges and most difficult sustainment skills. The commander and subordinate leaders should analyze and prioritize tasks for training.

d. After the training tasks are selected, the commander must incorporate them into the training schedule. The following procedures should be followed:

- (1) List the tasks in the priority and frequency needed to be presented for training.
- (2) Determine the required training time.
- (3) Determine the best procedure for using multiechelon training.
- (4) Determine training location(s).
- (5) Determine training responsibilities.
- (6) Determine time needed for training.
- (7) Determine best training method.
- (8) Determine the resources necessary to train the selected tasks.

1-8. FORCE PROTECTION (SAFETY).

a. Safety is a component of force protection. Commanders, leaders, and soldiers use risk assessment/management to tie force protection into the military around the mission. Risk management assigns responsibilities, institutionalizes commander's review of operational safety, and leads to decision-making at a level of command appropriate to the risk. The objective of safety is to help units protect combat power through accident prevention, which enables units to win fast and decisively, with minimum losses. Safety is an integral part of all operations. Safety begins with readiness, which determines a unit's ability to perform its METL to standard. Readiness standards addressed during METL assessment are as follows:

- (1) Soldiers with the self-discipline to consistently perform tasks to standard.
- (2) Leaders who are ready, willing, and able to enforce standards.
- (3) Training that provides skills needed for performance to standard.
- (4) Standards and procedures for task preference that are clear and practical.
- (5) Support for task preference, including required equipment, personnel, maintenance, facilities, and services.

b. Risk management is a tool that addresses the root causes (readiness shortcomings) of accidents. It assists commanders and leaders in not only identifying what the next accident is going to be, but it also helps identify who will have the next accident. Risk management is a way to put more realism into training without paying the price in deaths, injuries, or damaged equipment.

c. Safety demands total chain of command involvement in planning, preparing, executing, and evaluating training. The chain of command responsibilities include the following:

(1) **Commanders.**

- (a) Seek optimum, not adequate performance.
- (b) Specify the risk they will accept to accomplish the mission.
- (c) Select risk reductions provided by staff.
- (d) Accept or reject residual risk, based on the benefit to be derived.
- (e) Train and motivate leaders at all levels to effectively use risk management concepts.

(2) **Staff.**

- (a) Assists the commander in assessing risks and in developing risk reduction options when planning training.
- (b) Integrates risk controls in plans, orders, METL standards, and performance measures.
- (c) Eliminates unnecessary safety restrictions that diminish training effectiveness.
- (d) Assesses safety performance during training.
- (e) Evaluates safety performance during AARs.

(3) **Subordinate leaders.**

- (a) Apply consistently effective risk management concepts and methods to operations they lead.
- (b) Report risk issues beyond their control or authority to their superiors.

(4) **Individual soldier.**

- (a) Reports unsafe conditions and acts and corrects the situation when possible.
- (b) Establishes a buddy system to keep a safety watch on one another.
- (c) Takes responsibility for personal safety.

(d) Works as a team member.

(e) Modifies own risk behavior.

d. Risk management is a five-step cyclic process that is easily integrated into the decision making process outlined in FM 101-5. The five steps are as follows:

(1) **Identify hazards.** Identify the most probable hazards for the missions.

(2) **Assess hazards.** Analyze each hazard to determine the probability of its causing an accident and the probable effect of the accident. Identify control options to eliminate or reduce the hazard. The Army Standard Risk Assessment Matrix (see Figure 1-3) is a tool for assessing hazards.

| | | | HAZARD PROBABILITY | | | | |
|----------------------------|--------------|-----|--------------------|--------|------------|--------|----------|
| | | | FREQUENT | LIKELY | OCCASIONAL | SELDOM | UNLIKELY |
| | | | A | B | C | D | E |
| E F F E C T | CATASTROPHIC | I | EXTREMELY HIGH | | | | |
| | CRITICAL | II | | | HIGH | | |
| | MARGINAL | III | | | MEDIUM | LOW | |
| | NEGLIGIBLE | IV | | | | | |

Figure 1-3. Risk assessment matrix

(3) **Make risk decisions.** Weigh the risk against the benefits of performing the operations. Accept no unnecessary risks and make any residual risk decisions at the proper level of command.

(4) **Implement controls.** Integrate specific controls into plans, OPLANs, OPORDs, SOPs, and rehearsals. Communicate controls to the individual soldier.

(5) **Supervise.** Determine the effectiveness of controls in reducing the probability and effect of identified hazards to include follow-up and after action. Develop the lessons learned.

e. Fratricide is a component of force protection and is closely related to safety. Fratricide is the employment of weapons, with the intent to kill the enemy or destroy his equipment, that result in unforeseen and unintentional death, injury, or damage to friendly personnel or equipment. Fratricide is by definition an accident. Risk assessment/management is the mechanism with which incidences of fratricide can be controlled.

f. The primary causes of fratricide are as follows:

(1) **Direct-fire control plan failures.** These occur when units fail to develop defensive and, particularly, offensive fire control plans.

(2) **Land navigation failures.** These result when units stray out of sector, report wrong locations, and become disoriented.

(3) **Combat identification failure.** These failures include gunners or pilots being unable to distinguish thermal/optical signatures near the maximum range of their sighting systems and units in proximity mistaking each other for the enemy under limited visibility conditions.

(4) **Inadequate control measures.** Units fail to disseminate the minimum maneuver and fire support control measures necessary to tie control measures to recognizable terrain or events.

(5) **Reporting communication failures.** Units at all levels face problems in generating timely, accurate, and complete reports as locations and tactical situations change.

(6) **Weapons error.** Lapses in individual discipline lead to charge errors, accidental discharges, mistakes with explosives and hand grenades, and similar incidents.

(7) **Battlefield hazards.** Unexploded ordnance, unmarked or unrecorded minefields, FASCAM, and booby traps litter the battlefield. Failure to mark, remove, record or anticipate these hazards increases the risk of friendly casualties.

g. Fratricide results in unacceptable losses and increases the risk of mission failure. Fratricide undermines the unit's ability to survive and function. Units experiencing fratricide observe the following consequences:

- (1) Loss of confidence in the unit's leadership.
- (2) Increasing self-doubt among leaders.
- (3) Hesitation to use supporting combat systems.
- (4) Over-supervision of units.
- (5) Hesitation to conduct night operations.
- (6) Loss of aggressiveness during fire and maneuver.

- (7) Loss of initiative.
- (8) Disrupted operations.
- (9) General degradation of cohesiveness, morale, and combat power.

1-9. ENVIRONMENTAL PROTECTION. Protection of natural resources has continued to become an ever increasing concern to the Army. It is the responsibility of all unit leaders to decrease, and if possible, eliminate damage to the environment when conducting training. Environmental risk management parallels safety risk management, and is based on the same philosophy as safety risk management. Environmental risk management consists of the following steps:

- a. **Identify Hazards.** Identify potential sources for environmental degradation during analysis of METT-T factors. This requires identification of environmental hazards. An environmental hazard is a condition with the potential for polluting air, soil, or water and/or destroying cultural/historical artifacts.
- b. **Assess the Hazards.** Analyzes potential severity of environmental degradation using environmental risk assessment matrix (Figure 1-4, page 1-12). Severity of environmental degradation is considered when determining the potential effect an operation will have on the environment. The risk impact value is defined as an indicator of the severity of environmental degradation. Quantify the risk to the environment resulting from the operation as extremely high, medium, or low, using the environmental assessment matrixes.
- c. **Make Environmental Risk Decisions.** Make decisions and develop measures to reduce high environmental risks.
- d. **Brief Chain of Command.** Brief chain of command (to include installation environment office, if applicable) on proposed plans and pertinent high risk environmental matrixes. Risk decisions are made at a level of command that corresponds to the degree of risk.
- e. **Implement Controls.** Implement environmental protection measures by integrating them into plans, orders, SOPs, training performance standards, and rehearsals.
- f. **Supervise.** Supervise/enforce environmental protection standards.

1-10. BATTLE FOCUS. Battle focus derives peacetime training requirements from wartime missions. It guides the planning, execution, and assessment of the unit training program to ensure it trains as it is going to fight. Battle focus is critical throughout the entire training process and is used by commanders to allocate resources for training based on wartime mission requirements. It helps the commander recognize that the unit cannot attain proficiency to standard on every task due to time or resources constraints. However, a successful training program is achievable by narrowing the focus to a reduced number of vital tasks that are essential to mission accomplishment.

Figure 1-4. Environmental risk assessment matrix

1-11. SAFETY. A well-trained unit is normally accident-free. Although accidents can occur through no fault of the soldier, most accidents result from unsafe acts of inadequately trained, unsupervised, or complacent personnel. While conducting the training in this publication, leaders must incorporate safety into every task. Training is effective when soldiers are confident in their abilities to perform the tasks and assured that they will not be injured or cause damage to their equipment. Leaders and trainers must ensure SOPs for safety are complied with during all facets of training. They must also ensure that on-the-spot corrections are made when any unsafe practice is observed.

1-12. EVALUATION. The T&EOs in Chapter 5 list the standards, which the unit must meet for each task.

a. Evaluation can be either internal or external. Internal evaluations are conducted at all levels and must be inherent in all training. External evaluations are usually more formal and are conducted by the next higher HQ.

b. A critical weakness in training is the failure to evaluate each task every time it is executed. The ARTEP concept is based on simultaneous training and evaluating. Every training exercise provides the potential for evaluation and every evaluation is a training session. To optimize training, the commander must restate to the trainers and leaders the necessity for continually evaluating training.

c. Emphasize direct, on-the-spot evaluations. Correcting poor performance during individual or small group training is easy to do. In higher level exercises this is usually not feasible because outside evaluation is used. Continuous evaluation by the leader at every level makes the difference. AARs should be given at frequent, logical intervals during exercises. This allows the commander to correct performance shortcomings while they are still fresh in everyone's mind. This will also prevent reinforcement of bad habits.

d. FM 25-101 provides detailed instructions for conducting an AAR and detailed guidance on coaching and critiquing during training.

1-13. FEEDBACK. Your recommendations for improvement of this MTP are requested. Use the questionnaire at the end of this MTP for your comments.

CHAPTER 2

TRAINING MATRIX

2-1. GENERAL. The Training Matrix assists the commander in planning the training of his unit's personnel. The mission identification table (Figure 2-1) provides mission identification for the unit.

| Mission Identification Table |
|---|
| Mission Title |
| <ul style="list-style-type: none"> • Deploy Unit to a New Theater of Operations • Relocate Unit to a New Operating Site • Establish Unit Area of Operations • Provide Truck Transportation • Defend Assigned Area • Redeploy Unit to Home Station |

Figure 2-1. Mission Identification Table

2-2. MISSION TO COLLECTIVE TASKS MATRIX. This matrix (Table 2-1, pages 2-2 through 2-14), identifies the mission and their supporting collective tasks. The tasks are listed under the appropriate BOS which are indicated by an asterisk. The BOS used in this matrix are defined in TRADOC Pam 11-9. A specific mission is trained by identifying collective tasks in the vertical column for the mission. Based on the proficiency of the unit, training is focused on operational weaknesses.

Table 2-1. Training Matrix: Mission to Collective Tasks

| MISSIONS | | | | | | |
|--|--|---------------------------------------|-----------------------------------|------------------------------|----------------------|-------------------------------|
| Collective Tasks and T&EO Numbers | Deploy Unit to a New Theater of Operations | Relocate Unit to a New Operating Site | Establish Unit Area of Operations | Provide Truck Transportation | Defend Assigned Area | Redeploy Unit to Home Station |
| | | | | | | |
| *DEPLOY/ CONDUCT MANEUVER Prepare Unit To Move (63-2-4002) | | X | | | | |
| Conduct Tactical Road March (63-2-4003) | | X | | X | | |
| Perform Advance/ Quarters Party Activities (63-2-4008) | | X | X | | | |
| Occupy New Operating Site (63-2-4009) | | | X | | | |
| Perform Deployment Alert Activities (63-2-4801) | X | | | | | |
| Perform Personnel and Administrative Pre-deployment Activities (63-2-4802) | X | | | | | |

| Plan Unit Redeployment (63-2-4829) | | | | | | X |

CHAPTER 3

MISSION OUTLINE

3-1. GENERAL. The mission outline illustrates the relationship between the missions and their supporting tasks.

3-2. PURPOSE OF MISSION OUTLINE. Since unit training is mission-oriented, the mission outline shows how task training contributes to the ability of this unit to perform its missions. The mission outline provides the commander with a visual outline of his unit's mission in a format that facilitates the planning and management of training.

| FTX C-A | | | | | |
|---|-----------|--|-------------------|--|-----------|
| PROVIDE MOTOR TRANSPORT SERVICES | | | | | |

CHAPTER 4

TRAINING EXERCISES

4-1. INTRODUCTION. Training exercises are used to train and practice personnel in the performance of collective tasks. This MTP has two types of exercises: FTX and STX. These exercises assist you in developing, sustaining, and evaluating the unit's mission proficiency. This MTP has one FTX and six STXs (see Table 4-1).

4-2. FIELD TRAINING EXERCISE. The FTX is designed to provide a training method for the unit to train its personnel to perform its overall critical wartime mission. This FTX provides a logical sequence for the performance of tasks previously trained in the STXs.

4-3. SITUATIONAL TRAINING EXERCISE. The STX is a short, scenario-driven, mission-oriented tactical exercise used to train a group of closely related collective tasks. The STX may be modified by the unit commander based on local METT-T and available personnel and equipment. The STX provides the information for training personnel to perform the missions that make up the overall critical wartime mission. The STX performs the following functions:

- a. Provides repetitive training on the missions.
- b. Allows training to focus on identified weaknesses.
- c. Allows the unit to practice the mission before the critical wartime mission.
- d. Saves time by providing a majority of the information needed to develop a method for training.

4-4. SAFETY. During any training exercise, soldiers and leaders must be safety conscious. Evaluators and trainers have the responsibility to ensure that all training is conducted within established safety constraints. Prior to each exercise, all personnel will be briefed on specific safety measures that are to be taken during execution.

Table 4-1. Training exercises

| EXERCISE | TITLE | PAGE |
|----------|--|------|
| FTX C-A | Provide Motor Transport Services | 4-3 |
| STX C-1 | Deploy Unit to a New Theater of Operations | 4-17 |
| STX C-2 | Relocate Unit to a New Operating Site | 4-23 |
| STX C-3 | Establish Unit Area of Operations | 4-29 |

Table 4-1. Training exercises (continued)

| EXERCISE | TITLE | PAGE |
|-----------------|-------------------------------|-------------|
| STX C-4 | Provide Truck Transportation | 4-35 |
| STX C-5 | Defend Assigned Area | 4-41 |
| STX C-6 | Redeploy Unit to Home Station | 4-47 |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES**FTX C-A****PROVIDE MOTOR TRANSPORT SERVICES**

1. Objective. This FTX provides training for the light, light-medium, and medium truck companies in its critical wartime mission, Provide Motor Transport Services. This FTX is used for internal and external evaluations. The tasks that are executed during this exercise are listed in Table 4-2, pages 4-5 through 4-9.

2. Interface.

a. This FTX supports the Transportation Motor Transport Battalion FTX, Provide Transportation Support.

b. The following STXs support this FTX:

- (1) Deploy Unit to a New Theater of Operations (STX C-1).
- (2) Relocate Unit to a New Operating Site (STX C-2).
- (3) Establish Unit Area of Operations (STX C-3).
- (4) Provide Truck Transportation (STX C-4).
- (5) Defend Assigned Area (STX C-5).
- (6) Redeploy Unit to Home Station (STX C-6).

3. Training Enhancers.

a. Chapter 2, Training Matrix, shows the collective tasks that must be mastered to perform the unit's missions. Training that will improve the unit's ability to perform its missions are:

(1) Planning, controlling, and providing transportation services. This training may be conducted in garrison and in local training area by one of the following methods:

(a) MAPEX combined with a sand or terrain table model exercise. A map of the actual area where the FTX is to be conducted and a sand table model to match the terrain should be used, if possible.

(b) Tactical exercise without troops.

(c) COMEX (to practice communications techniques).

(2) Establishing an aggressive spirit in leaders and units by the following activities:

- (a) Aggressive unit sport and physical fitness program.
- (b) Leader and individual confidence courses.
- (c) Appropriate training films that have aggressive and positive effect on the soldiers.
- (d) Awareness of unit's heritage.

b. This exercise begins with the receipt of a warning order and ends after redeployment of the unit. AARs are conducted as shown in Table 4-3, pages 4-10 through 4-13. Table 4-3 is a suggested scenario. Figure 4-1, page 4-14, illustrates the general sequence of task performances in this exercise.

c. This exercise may be conducted under several options.

(1) Conditional options.

- (a) Support offensive operations.
- (b) Support defensive operations.
- (c) Support retrograde operations.
- (d) Day or night operations.
- (e) Adverse weather conditions.

(2) Operational options.

- (a) Conduct self-defense operations (move, set up, and defend unit assigned area).
- (b) Conduct logistical operations (move, set up, and transport personnel, equipment, and cargo).
- (c) Conduct self-recovery operations (receive, move, and to recover mired or disabled vehicle).

Table 4-2. T&EOs from chapter 5 to use for evaluating FTX C-A

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Prepare Unit to Move | 63-2-4002 | 5-8 |
| Conduct Tactical Road March | 63-2-4003 | 5-14 |
| Perform Advance/Quartering Party Activities | 63-2-4008 | 5-20 |
| Occupy New Operating Site | 63-2-4009 | 5-25 |
| Perform Deployment Alert Activities | 63-2-4801 | 5-28 |
| Perform Human Resources Predeployment Activities | 63-2-4802 | 5-32 |
| Perform Predeployment Training Activities | 63-2-4803 | 5-36 |
| Perform Predeployment Supply Activities | 63-2-4804 | 5-38 |
| Perform Predeployment Maintenance Activities | 63-2-4805 | 5-42 |
| Prepare Vehicles and Equipment for Deployment | 63-2-4806 | 5-47 |
| Prepare Unit for Nontactical Move | 63-2-4807 | 5-54 |
| Conduct Nontactical Road March | 63-2-4808 | 5-58 |
| Perform Sea Port of Embarkation Activities for Deployment | 63-2-4809 | 5-62 |
| Perform Aerial Port of Embarkation Activities for Deployment | 63-2-4810 | 5-68 |
| Perform Aerial Port of Debarkation Activities for Deployment | 63-2-4811 | 5-73 |
| Perform Sea Port of Debarkation Activities for Deployment | 63-2-4812 | 5-77 |
| Prepare Equipment Reception Team for Tactical Road March | 63-2-4813 | 5-82 |
| Perform Redeployment Human Resources Actions | 63-2-4814 | 5-86 |
| Perform Redeployment Training Activities | 63-2-4815 | 5-90 |
| Perform Redeployment Supply Activities | 63-2-4816 | 5-93 |

| Plan Unit Mobilization in a Peacetime Environment | 63-2-4827 | 5-380 |
| Plan Unit Deployment Activities Upon Receipt of a Warning Order | 63-2-4828 | 5-385 |
| Plan Unit Redeployment | 63-2-4829 | 5-389 |

4. General Situation.

a. The transportation light, light-medium, and medium truck companies are attached to a Transportation Motor Transport Battalion. The battalion will begin new operations in the near future. The unit commanders are charged with the unit movement plans, movement, and routine or specialized mission. The companies, as part of the Transportation Motor Transport Battalion, must deploy to a new theater of operations, relocate to a new operating site, establish area of operations, provide truck transportation, defend assigned area, and then redeploy to home station. The unit will be prepared for threat activity during movement, establishment of new unit operating site, and during operations. The battalion will provide guidance to the commanders when Level II/III threat is anticipated. The companies will cease operations and participate in battle handover. If the situation requires the companies to perform hasty displacement, this exercise will terminate after that activity.

b. This exercise is also conducted under all day and night environmental conditions. The unit will operate under threat of NBC, by ground or air attack, indirect fire, and electronic warfare.

c. This exercise is also conducted under threat of Level I, II, or III attack, or during NBC operations.

Table 4-3. Sample unit FTX C-A scenario

| Sequence | Event | Estimated Time |
|----------|--|----------------|
| | Deploy Unit to a New Theater of Operations | |
| 1 | Receive and verify warning order | 20 min |
| 2 | Initiate recall plan | 30 min |
| 3 | Perform administrative and soldier readiness processing activities | 3 hr |
| 4 | Inspect unit's vehicles and equipment | 2 hr |
| 5 | Load vehicles and equipment | 3 hr |
| 6 | AAR | 1 hr |
| 7 | Receive movement order | 30 min |
| 8 | Conduct nontactical road march | 1 hr |
| 9 | Arrive at APOE/SPOE | 10 min |
| 10 | Perform embarkation activities | 2 hr |
| 11 | Arrive at APOD/SPOD | 30 min |
| 12 | Perform debarkation activities | 2 hr |
| 13 | Perform staging and marshaling activities | 2 hr |
| 14 | Conduct theater reception operations | 2 hr |
| 15 | Coordinate theater integration activities | 2 hr |
| 16 | AAR | 1 hr |
| | | |

Table 4-3. Sample unit FTX C-A scenario (continued)

| Sequence | Event | Estimated Time |
|-----------------|--|-----------------------|
| | Relocate Unit to a New Operating Site | |
| 17 | Receive and verify warning order | 10 min |
| 18 | Conduct route reconnaissance | 1 hr |
| 19 | Provide input to S2/3 | 20 min |
| 20 | Plan unit move | 30 min |
| 21 | Plan occupation of site | 20 min |
| 22 | Prepare vehicles and equipment | 1 hr |
| 23 | Organize march elements | 1hr |
| 24 | Organize advance/quarterming party | 15 min |
| 25 | Receive movement order | 30 min |
| 26 | Brief advance/quarterming party | 5 min |
| 27 | Dispatch advance/quarterming party | 10 min |
| 28 | Cross SP | 5 min |
| 29 | Conduct tactical convoy operations to relocate to new operating site | 1 hr |
| 30 | Cross RP | 5 min |
| 31 | AAR | 30 min |
| 32 | Brief march elements | 10 min |
| 33 | Dispatch march elements | 30 min |
| 34 | Cross SP | 10 min |
| 35 | Conduct tactical convoy operations to relocate to new operating site | 1 hr |
| 36 | Cross contaminated area | 45 min |
| 37 | Threat interdiction | 40 min |
| 38 | Continues convoy | 45 min |
| 39 | Cross RP | 30 min |
| 40 | AAR | 1 hr |
| | | |
| | Establish Unit Area of Operations | |
| 41 | Perform advance/quarterming party activities | 4 hrs |
| 42 | Establish unit area of operations | 6 hrs |
| 43 | Organize unit defense | 2 hrs |
| 44 | AAR | 1 hr |
| | | |
| | Provide Truck Transportation | |
| 45 | Conducts transportation services | 8 hr |
| 46 | Performs unit level operations to support unit's mission | 8 hr |
| 47 | AAR | 1 hr |

Table 4-3. Sample unit FTX C-A scenario (continued)

| Sequence | Event | Estimated Time |
|-----------------|--|-----------------------|
| | Defend Assigned Area | |
| 48 | Defend unit area | 15 min |
| 49 | Receive alert message | 4 hr |
| 50 | Occupy fighting positions | 1 hr |
| 51 | Increase perimeter manning | 10 min |
| 52 | Assemble reaction force | 10 min |
| 53 | React to Level I threat | 45 min |
| 54 | Respond to NBC attack | 45 min |
| 55 | Perform decontamination and monitoring operations | 40 min |
| 56 | Receive notification of Level II/III ground attack | 45 min |
| 57 | Increase defense preparation | 10 min |
| 58 | Defend against OPFOR attack | 30 min |
| 59 | Detect threat | 4 hr |
| 60 | Engage threat | 2 hr |
| 61 | Request indirect fire or close air support | 30 min |
| 62 | Disengage threat | 12 hr |
| 63 | Conduct hasty displacement | 30 min |
| 64 | Handover battle to tactical combat force/MP | 10 min |
| 65 | Reorganize unit | 15 min |
| 66 | Conduct ADC | 20 min |
| 67 | Treat casualties | 30 min |
| 68 | Evacuate casualties | 30 min |
| 69 | Perform mortuary affairs operations | 1 hr |
| 70 | Reconstitute unit | 1 hr |
| 71 | AAR | 2 hr |
| | | |

Table 4-3. Sample unit FTX C-A scenario (continued)

| Sequence | Event | Estimated Time |
|---|---|-----------------------|
| | Redeploy Unit to Home Station | |
| 72 | Receive and verify warning order for redeployment | 10 min |
| 73 | Perform administrative and SRP activities | 30 min |
| 74 | Dismantle current operating site | 1 hr |
| 75 | Inspect vehicles and equipment | 15 min |
| 76 | Load vehicles and equipment | 30 min |
| 77 | AAR | 30 min |
| 78 | Receive movement order | 1 hr |
| 79 | Conduct nontactical road march | 30 min |
| 80 | Arrive APOE/SPOE | 1 hr |
| 81 | Perform staging activities | 2 hr |
| 82 | Perform embarkation activities | 1 hr |
| 83 | AAR | 1 hr |
| 84 | Arrive APOD/SPOD | 2 hr |
| 85 | Perform debarkation activities | 3 hr |
| 86 | Perform staging activities | 1 hr |
| 87 | Receive movement order | 30 min |
| 88 | Conduct nontactical road march | 1 hr |
| 89 | Arrive home station | 2 hr |
| 90 | Conduct home station activities | 2 hr |
| 91 | Final AAR | 3 hr |
| | TOTAL TIME: | 123 hr, 43 min |
| NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit. | | |
| NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions. | | |

Figure 4-1. General scenario illustration

5. Special Situation. The commander has received the following warning order:

The unit will deploy to a new theater of operations NLT _____ to vicinity coordinates _____. At the new theater of operations the commander will receive a WARNO to relocate to a new operating site and establish a unit area of operations to support the transportation motor transport battalion. Begin your planning process for deploying, relocating, establishing, providing truck transportation services, and defending the assigned area. This exercise will begin with receipt of this warning order and ends on notification from me to redeploy to home station.

6. Support Requirements.

a. **Minimum Trainers/Evaluators.** The commander will conduct this exercise. He will be the trainer and also the primary evaluator. If possible, there should be an evaluator with each platoon. At least one other evaluator is required with the OPFOR.

b. **Vehicles/Communications.** Communications equipment is needed for each controller/evaluator and the primary trainer. Radios are required for OPFOR vehicles during operations. Each controller/evaluator reports directly to the primary trainer.

c. **Opposing Force.** An OPFOR platoon (+) and one aircraft are required for the exercise for Level II threat activities. The OPFOR should be well trained in patrolling, assault, and guerrilla tactics. The OPFOR should have specific missions in the unit area.

d. **Maneuver Area.** Depending upon the LTA, it is desirable to have a training area with minimum dimension of 1.5 by 1.5 kilometers. A road network is required that allows a road march of at least 10 kilometers.

e. **Master Incident List.** During the FTX, MIL items should be continually fed into proper channels. Input from battalion staff and OPFOR causes response from the unit. A major purpose of this FTX is to drive unit and subordinate elements to a simulated combat level of support requirements.

f. **Using Units.** In order to perform this exercise, support units must be in the field requesting transport of supplies, equipment, and personnel.

g. **Consolidated Support Requirements.** Table 4-4, page 4-16, shows the support needed to successfully complete this FTX.

Table 4-4. Sample consolidated support requirements, FTX C-A

| AMMUNITION | QUANTITY |
|--|----------------------|
| 5.56-mm SAW (blank) | 600 rounds/wpn |
| 5.56-mm (blank) | 120 rounds/wpn |
| 7.62-mm (blank) | 400 rounds/wpn |
| 40-mm (blank) | 768 rounds/wpn |
| .45 cal/M9 (blank) | 30 rounds/wpn |
| .50 cal (blank) | 400 rounds/wpn |
| Blank adapter | 1 set/wpn |
| MILES | 1 set/wpn |
| Smoke grenades | 4 unit |
| | |
| OPFOR | |
| Simulators, hand grenades | 2 per man |
| Simulators, hand grenades | 10 OPFOR |
| ATWESS | 2 per LAW |
| Claymores (tng) | 4-6 unit |
| Simulators, arty | 10 trainer/evaluator |
| Simulators, booby trap | 10 unit |
| Simulators, arty | 10 OPFOR |
| | |
| FUEL | |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| | |
| NBC EQUIPMENT | |
| AN/ODR-TI (Radiac set) | 1 each |
| M72A2 Chemical Stimulant | 2 each |
| CS Grenades | 4 each |
| IM 174 PD Radiac meter | 5 each |
| IM 93/UD Dosimeter | 13 each |
| | |
| OTHER | |
| Meals | 3 per man, per day |
| War wound moulage set | 1 each |
| Aircraft for simulated air attack | 1 each |
| Fire Marker Control System | (when available) |
| | |
| NOTE: The consolidated support requirements outlined in this FTX are intended as suggestions only. Local policies or constraints may not allow for provisioning of these items in the suggested amount. | |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES

STX C-1

DEPLOY UNIT TO A NEW THEATER OF OPERATIONS

1. Objective. This STX trains the unit in deployment to a new theater of operations. This STX also provides the commander and key leaders with practice in planning unit movement during deployment activities. The unit must become proficient in planning and preparing the unit for deployment operations.

2. Interface.

a. This STX supports the unit FTX--Provide Motor Transport Services.

b. This STX supports the higher echelon STX--Supervise Deployment of Subordinate Elements to New Theater of Operations.

3. Training.

a. **Leader Training.**

(1) This STX can be used to plan and implement deployment (land, sea, or air) of the unit as a part of an FTX.

(2) During classroom activities, the use of the TSOP and the responsibilities and procedures outlined in FMs 55-9, 55-10, 55-12, 55-65, and 100-17; and ARs 220-10, 700-84, and 750-1 should be discussed and the T&EOs listed in this STX should be reviewed.

(3) The leader should use a map of the area where the STX is to be conducted and a sand table model to match the actual terrain, if possible.

(4) CPX, CFX, and TEWTs provide ground training for leaders when the exact area of the STXs is used.

(5) Simulations and games teach leaders as part of a continuing officer and NCO development program.

(6) Tips for leader training.

(a) Leaders should familiarize themselves with the procedures for planning and executing deployment operations.

(b) Leaders should review the unit and higher echelon deployment SOPs.

(c) Leaders should conduct a reconnaissance of the training area where deployment activities will take place, if possible.

b. **Tips for Training.**

(1) After the unit demonstrates proficiency for the tasks in this STX, this STX can be trained under several options:

- (a) Inclement weather.
- (b) Various unit category levels.
- (c) Different mode of transportation.
- (d) With or without OPFOR interdiction.
- (e) Day or night.
- (f) Movement over single or multiple routes.

(2) The unit must become proficient in the basics of planning and executing deployment before attempting complex actions.

(3) After proficiency in this STX is reached, the unit sustains proficiency by executing this STX as part of an FTX.

4. Training Enhancers.

- a. The commander, in coordination with higher echelon command, secures deployment SOPs and reviews deployment outload team rosters.
- b. UMO/NCO updates unit deployment plans in coordination with unit leaders.
- c. The higher echelon S2/S3 provides unit with the deployment sequence.
- d. Unless otherwise approved by the chief OC, all reports and recommendations should be provided in hard copy to the senior trainer for evaluation.
- e. This exercise begins with receipt of a deployment warning order and ends when unit arrives at the theater of operations. AARs are conducted as shown in Table 4-5, page 4-20. Table 4-5 is a suggested scenario.

5. General Situation.

- a. The unit is deployed from its home station or mobilization site to a new area of operations. The unit is under the command and control of a higher echelon command.
- b. The commander, UMO, and NCOs provides unit movement data.

- c. The installation provides required deployment support.
- d. The OCONUS location is identified.
- e. This exercise is conducted in all environmental conditions.

6. FRAGO. The commander issues the following WARNO: “Unit is prepared to deploy to a new theater of operations. Unit will deploy from home station to APOE/SPOE to APOD/SPOD.”

7. Support Requirements.

a. **Minimum Trainer and OCs.** This exercise should be conducted with the unit commander as the trainer and primary OC. A minimum of two OCs is required.

b. Opposing Force.

(1) The OPFOR may or may not be required when exercise is conducted as part of a CPX. The OPFOR should be used if exercise is part of an FTX.

(2) The OPFOR should have specific missions and be controlled whenever used.

(3) The MILES can be used or the OCs can assess damage to equipment and personnel casualties.

c. **Vehicles and Communications.** Vehicles and communications equipment organic to the unit are used. When OPFOR is employed, a vehicle and radio for the OCs are needed.

d. **Maneuver Area.** Depending upon the LTA, it is desirable to have an adequate training area that is 1.5 by 1.5 kilometers for deployment. A road network is required that allows a road march of at least 25 kilometers.

e. **Master Incident List.** During this STX, the MIL is essential to provide input to drive unit actions.

f. **Consolidated Support Requirements.** Table 4-6, page 4-21, shows the suggested support requirements for this STX.

Table 4-5. Sample light, light-medium, and medium companies STX C-1 scenario

| Sequence | Event | Estimated Time |
|---|--|-----------------------|
| 1 | Receive and verify deployment warning order | 20 min |
| 2 | Initiate recall plan | 30 min |
| 3 | Perform administrative and soldier readiness processing activities | 3 hr |
| 4 | Inspect unit's vehicles and equipment | 2 hr |
| 5 | Load vehicles and equipment | 3 hr |
| 6 | AAR | 1 hr |
| 7 | Receive movement order | 30 min |
| 8 | Conduct nontactical road march | 1 hr |
| 9 | Arrive at APOE/SPOE | 10 min |
| 10 | Perform embarkation activities | 2 hr |
| 11 | Arrive at APOD/SPOD | 30 min |
| 12 | Perform debarkation activities | 2 hr |
| 13 | Perform staging and marshaling activities | 2 hr |
| 14 | Conduct theater reception operations | 2 hr |
| 15 | Coordinate theater integration activities | 2 hr |
| 16 | AAR | 1 hr |
| | TOTAL TIME: | 23 hr |
| NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit. | | |
| NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions. | | |

Table 4-6. Sample consolidated support requirements for STX C-1

| AMMUNITION | QUANTITY |
|--|------------------------------|
| 5.56mm SAW (blank) | 600 rounds/wpn |
| 5.56mm (blank) | 120 rounds/wpn |
| 7.62mm (blank) | 400 rounds/wpn |
| 40mm (blank) | 768 rounds/wpn |
| M9mm (blank) | 30 rounds/wpn |
| Blank adapter | 1 set/wpn |
| MILES | 1 set/wpn |
| Smoke grenades | 4 per company 2 per OPFOR |
| Simulators, hand grenades | 2 per man |
| Simulators, hand grenades | 10 per OPFOR |
| ATWESS | 2 per LAW |
| | |
| EQUIPMENT | |
| All organic equipment to include TOE and CTA authorized. Rail and aircraft load simulations. | |
| | |
| FUEL | |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| | |
| NBC EQUIPMENT | |
| | |
| NOTE: The consolidated support requirements outlined for this STX are intended as suggestions. Local policies or constraints may not allow for providing the items. | |

8. T&EO Sequence. Table 4-7 lists the T&EOs for this STX.

Table 4-7. T&EOs from chapter 5 to use in evaluating STX C-1

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Perform Deployment Alert Activities | 63-2-4801 | 5-28 |
| Perform Human Resources Predeployment Activities | 63-2-4802 | 5-32 |
| Perform Predeployment Training Activities | 63-2-4803 | 5-36 |
| Perform Predeployment Supply Activities | 63-2-4804 | 5-38 |
| Perform Predeployment Maintenance Activities | 63-2-4805 | 5-42 |
| Prepare Vehicles and Equipment for Deployment | 63-2-4806 | 5-47 |

Table 4-7. T&EOs from chapter 5 to use in evaluating STX C-1 (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Prepare Unit for Nontactical Move | 63-2-4807 | 5-54 |
| Conduct Nontactical Road March | 63-2-4808 | 5-58 |
| Perform Sea Port of Embarkation Activities for Deployment | 63-2-4809 | 5-62 |
| Perform Aerial Port of Embarkation Activities for Deployment | 63-2-4810 | 5-68 |
| Perform Aerial Port of Debarkation Activities for Deployment | 63-2-4811 | 5-73 |
| Perform Sea Port of Debarkation Activities for Deployment | 63-2-4812 | 5-77 |
| Prepare Equipment Reception Team for Tactical Road March | 63-2-4813 | 5-82 |
| Perform Demobilization Station Activities | 63-2-4824 | 5-133 |
| Conduct Integration Activities | 63-2-4825 | 5-137 |
| Conduct Staging Activities | 63-2-4826 | 5-139 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |
| Perform Risk Management Procedures | 63-2-4326 | 5-328 |
| Plan Unit Mobilization in a Peacetime Environment | 63-2-4827 | 5-380 |
| Plan Unit Deployment Activities Upon Receipt of a Warning Order | 63-2-4828 | 5-385 |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES

STX C-2

RELOCATE UNIT TO A NEW OPERATING SITE

1. Objective. This STX trains the unit in planning, coordinating, and relocating to a new operating site. This STX provides the commander and key leaders practice in selecting routes, planning occupation of the new area, coordinating required support for the move, and controlling the movement. The unit must become proficient in planning and preparing the move.

2. Interface.

a. This STX supports the unit FTX--Provide Motor Transport Services.

b. This STX supports the higher echelon STX--Supervise Relocation of Subordinate Elements and Sustainment Resources.

3. Training.

a. **Leader Training.**

(1) This STX can be used to plan and implement movement of the unit as part of a CPX or FTX.

(2) During classroom activities, the use of the TSOP and responsibilities and procedures outlined in FM 55-30 and FM 7-20 should be discussed, and the T&EOs listed in this STX should be reviewed.

(3) CPX, CFX, and TEWT provide ground training for leaders when the exact STX area is used.

(4) Tips for leader training.

(a) Leaders should familiarize themselves with the procedures for planning and executing movement.

(b) The unit TSOP should be reviewed.

(c) A map/route reconnaissance should be conducted, if possible, of the training area where the unit will relocate.

b. **Tips for Training.**

(1) After the unit demonstrates proficiency for the tasks in this STX, this STX can be trained under several options:

(a) Elements moving over single or multiple routes.

(b) With or without OPFOR interdictions.

(c) With or without NBC environment.

(d) Day or night.

(e) Single or multiple lift move.

(2) The unit must become proficient in the basics of planning and conducting the movement and relocation of the unit before attempting complex actions.

(3) After proficiency in this STX is reached, the unit sustains proficiency by executing this STX as part of an FTX.

4. Training Enhancers.

a. The unit commander provides transportation support based on the commander's guidance and personnel and vehicle availability. The enemy situation will affect the movement requirements.

b. The unit plans the move in conjunction with higher HQ.

c. Unless otherwise approved by the chief OC, all reports and recommendations should be provided in hard copy to the senior trainer for evaluation.

d. The unit should be able to relocate at least once every 5 days as a standard capability.

e. This exercise begins with receipt of a warning order to relocate to a designated area and ends after unit has crossed the RP. AARs are conducted as shown in Table 4-8. Table 4-8 is a suggested scenario.

Table 4-8. Sample light, light-medium, and medium companies STX C-2 scenario

| Sequence | Event | Estimated Time |
|--|---|----------------|
| 1 | Receive and verify warning order | 10 min |
| 2 | Analyze mission | 30 min |
| 3 | Prepare movement plan | 2 hr |
| 4 | Prepare site occupation plan | 30 min |
| 5 | Provide input to S2/S3 | 20 min |
| 6 | Organize march elements | 20 min |
| 7 | Conduct route reconnaissance | 1 hr |
| 8 | Prepare vehicles and equipment | 1 hr |
| 9 | Receive movement order | 30 min |
| 10 | Conduct nontactical convoy operations to operating site | 1 hr |
| 11 | Cross SP | 10 min |
| 12 | Conduct nontactical road march | 1 hr |
| 13 | Cross RP | 10 min |
| 14 | AAR | 30 min |
| 15 | Receive and verify warning order for relocation to new operating site | 10 min |
| 16 | Plan the move | 30 min |
| 17 | Organize advance/quartermen party | 10 min |
| 18 | Brief advance/quartermen party | 15 min |
| 19 | Dispatch advance/quartermen party | 15 min |
| 20 | Conduct advance/quartermen party operation | 4 hr |
| 21 | AAR | 1 hr |
| 22 | Conduct tactical convoy operations to relocate to new operating site | 10 min |
| 23 | Cross SP | 10 min |
| 24 | Conduct tactical road march | 30 min |
| 25 | Cross contaminated area | 30 min |
| 26 | Threat interdiction | 40 min |
| 27 | Continue convoy | 30 min |
| 28 | Cross RP | 10 min |
| 29 | AAR | 30 min |
| | TOTAL TIME: | 19 hr, 7 min |
| <p>NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit.</p> | | |
| <p>NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions.</p> | | |

5. General Situation.

- a. The unit has arrived at the new theater of operations and has assembled the unit's equipment in the initial assembly area. Upon receipt of a movement order, the unit will relocate to a new operating site.
- b. Pertinent maps and engineer overlays are available.
- c. The unit or higher HQ will perform route reconnaissance.
- d. The OPFOR is capable of launching air or ground attacks, employing NBC agents, and engaging in EW.
- e. Major deviation(s) from the movement plan may occur.
- f. This exercise is conducted in all environmental conditions.

6. FRAGO. The commander issues the following FRAGO: "The MSR has been hit with chemical contamination, intelligence reports also states that enemy activity has been observed in or around the vicinity. Reroute the convoy if time permits; if not, stay on MSR and proceed with caution."

7. Support Requirements.

a. **Minimum Trainers/OCs.** This exercise should be conducted with the unit commander as the trainer and primary OC. A minimum of two OCs is required.

b. Opposing Force.

(1) OPFOR may or may not be required when the exercise is conducted as part of a CPX. OPFOR should be used if the exercise is part of an FTX.

(2) OPFOR should have specific missions and be controlled when used.

(3) MILES can be used, or the OC can assess damage to the unit.

c. **Vehicles and Communications.** Vehicles and communications equipment organic to the unit are used. When an OPFOR is employed, a vehicle and radio are needed for the OC.

d. **Maneuver Area.** A training area of sufficient size, approximately 250 by 250 meters, is needed to support the number of vehicles and equipment in the unit. A road network is required that allows a road march of at least 20 kilometers. Vegetation and terrain should allow cover and concealment for facilities, vehicles, and equipment.

e. **Master Incident List.** During the STX, MIL is essential to provide input to drive unit actions.

f. **Consolidated Support Requirements.** Table 4-9 shows the suggested support requirements for this STX.

Table 4-9. Sample consolidated support requirements for STX C-2

| AMMUNITION | QUANTITY |
|--|-----------------------------|
| 5.56mm (Blank) | 120 rds/per wpn |
| 7.62mm (Blank) | 100 rds/per wpn |
| Smoke Grenades | 4/per unit/OPFOR |
| Arty Simulator | 4/per OPFOR |
| MILES | 1 set per soldier/equipment |
| EQUIPMENT | |
| All equipment organic to each unit to include TOE and CTA authorized. | |
| FUEL | |
| QUANTITY | |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| NBC EQUIPMENT | |
| AN/PDR-T1 (Radiation Survey Set) | 1 per unit |
| M72A2 Kit: Chemical Stimulant | 1 each |
| CS Grenades | 4/per OPFOR |
| OTHER | |
| Field rations | as required |
| War Wound Mouflage Set | 1 each |
| Aircraft for simulated air attack | 1 each |
| NOTE: The consolidated support requirements outlined for this STX are intended as suggestions only. Local policies or constraints may not allow for provisioning of all of the items in this table. | |

8. T&EO Sequence. Table 4-10 lists the T&EOs for this STX.

Table 4-10. T&EOs from chapter 5 to use in evaluating STX C-2

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Prepare Unit to Move | 63-2-4002 | 5-8 |
| Conduct Tactical Road March | 63-2-4003 | 5-14 |
| Perform Advance/Quartering Party Activities | 63-2-4008 | 5-20 |
| Use Passive Air Defense Measures | 63-2-4307 | 5-143 |
| Take Active Air Defense Measures Against Hostile Aircraft | 63-2-4308 | 5-147 |
| Cross a Radiologically Contaminated Area | 63-2-4005 | 5-153 |
| Defend Convoy Elements | 63-2-4006 | 5-162 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |

Table 4-10. T&EOs from chapter 5 to use in evaluating STX C-2 (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Perform Operational Decontamination | 63-2-4018 | 5-186 |
| Perform Thorough Decontamination | 63-2-4019 | 5-189 |
| Respond to the Initial Effects of a Nuclear Attack | 63-2-4020 | 5-192 |
| Cross a Chemically Contaminated Area | 63-2-4226 | 5-222 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Respond to a Chemical Attack | 63-2-4334 | 5-233 |
| Treat Casualties | 08-2-0003.63-0001 | 5-243 |
| Transport Personnel and Cargo | 55-2-0011 | 5-278 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |
| Process Enemy Prisoners of War | 63-2-4304 | 5-313 |
| Process Captured Documents and Equipment | 63-2-4305 | 5-316 |
| Transport Casualties | 63-2-4316 | 5-323 |
| Perform Risk Management Procedures | 63-2-4326 | 5-328 |
| Perform Unit-Level Maintenance | 63-2-4552 | 5-338 |
| Plan Unit Move | 63-2-4001 | 5-356 |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES

STX C-3

ESTABLISH UNIT AREA OF OPERATIONS

1. Objective. This STX trains the unit in setting up its area of operations. This STX provides the commander and leaders practice in planning, coordinating, and controlling the establishment of the operational area. The unit must become proficient in establishing the AO and defensive positions.

2. Interface.

a. This STX supports the unit FTX-Provide Motor Transport Services.

b. This STX supports the higher echelon STX-Supervise Establishment of Subordinate Elements and Facilities.

3. Training.

a. **Leader Training.**

(1) This STX can be used to establish the unit area as a part of a CPX or an FTX.

(2) During classroom activities, the use of the TSOP, the responsibilities and procedures outlined in the unit's doctrinal publications, and the T&EOs listed in this STX should be reviewed.

(3) Leaders should use a map of the actual area where the STX is to be conducted, and a sand table model to match the actual terrain, if possible.

(4) Tips for leader training.

(a) Leaders should familiarize themselves with the procedures for setting up your type unit AO.

(b) Leaders should review the unit and higher echelon TSOPs.

(c) If possible, leaders should conduct a reconnaissance of the training area where setup will take place.

b. **Tips for Training.**

(1) After the unit demonstrates proficiency for the tasks in this STX, this STX can be trained under several options:

(a) With or without OPFOR interdictions.

(b) With or without NBC conditions.

(c) In a field or MOUT environment.

(2) The unit must become proficient in the basics of setting up before attempting complex actions.

(3) After proficiency in this STX is reached, the unit sustains proficiency by executing this STX as part of an FTX.

4. Training Enhancers.

a. The advance/quartering party has secured the site and has prepared for the arrival of the main body. The unit must be prepared to establish their area of operations and to set up defensive positions to defend against day or night air, ground, or terrorist attacks and to protect against NBC operations.

b. The unit establishes the new operating site IAW the layout plans. When the site is operational, the higher echelon S2/S3 is notified that the unit is prepared to perform its operational mission.

c. Unless otherwise approved by the chief OC, all reports and recommendations should be provided in hard copy to the senior trainer for evaluation.

d. This exercise begins when the unit advance/quartering party arrives at the new site and ends when the unit area is established. AARs are conducted as shown in Table 4-11. Table 4-11 is a suggested scenario.

5. General Situation.

a. The advance/quartering party has performed preliminary security and organization of the new site. The unit has established the unit area and defensive positions.

b. A site reconnaissance has been performed.

c. A tentative layout plan and defense plan are available.

d. Sufficient supplies and equipment are available.

e. NBC detection equipment is available.

f. The exercise is conducted in a field site or MOUT environment.

g. The OPFOR has the potential to conduct ground, air, and NBC warfare.

h. This exercise is conducted in all environmental conditions.

Table 4-11. Sample light, light-medium, and medium companies STX C-3 scenario

| Sequence | Event | Estimated Time |
|---|---|----------------|
| 1 | Perform advance/quartering party activities | 4 hr |
| 1 | Establish unit area of operations | 6 hr |
| 2 | Organize unit defense | 2 hr |
| 6 | AAR | 1 hr |
| | TOTAL TIME: | 13 hr |
| NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit. | | |
| NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions. | | |

6. FRAGO. The commander issues the following FRAGO: "S2/S3 has directed all units to go to MOPP 2 conditions based on reports of enemy threat capabilities. All elements report reaching the condition."

7. Support Requirements.

a. **Minimum Trainers and OCs.** This exercise should be conducted with the unit commander as the trainer and primary OC. A minimum of two OCs is required.

b. **OPFOR.**

(1) The OPFOR should not be more than squad size with one crew-served weapon.

(2) The MILES can be used or the OCs can assess damage to equipment and personnel casualties.

(3) The OPFOR should be well-trained in threat tactics, have specific missions, and be controlled when used.

c. **Vehicles and Communications.** Vehicles and communications equipment organic to the unit are used. When OPFOR is employed, vehicles and radios for the OCs are needed.

d. **Maneuver Area.** Depending upon the LTA, it is desirable to have an adequate training area that is 1.5 by 1.5 kilometers.

e. **Master Incident List.** During the STX, the MIL is essential to provide input to drive actions.

f. **Consolidated Support Requirements.** Table 4-12, page 4-32, shows the suggested support requirements for this STX.

Table 4-12. Sample consolidated support requirements for STX C-3

| AMMUNITION | QUANTITY |
|--|-------------------------|
| 5.56mm (Blank) | 30 rds/wpn |
| 5.56mm (Blank) | 50 rds/wpn OPFOR |
| 7.62mm (Blank) | 100 rds/wpn |
| 7.62mm (Blank) | 250 rds/wpn OPFOR |
| Smoke Grenades | 8 each OPFOR |
| Arty Simulator | 4 each OPFOR |
| CS Grenade | 4 each OPFOR |
| Blank Adapter | 1 per wpn |
| Blank Adapter | 1 per wpn OPFOR |
| MILES | 1 set per soldier |
| MILES | 1 set per soldier OPFOR |
| | |
| EQUIPMENT | |
| All authorized organic equipment to include TOE and CTA. | |
| | |
| FUEL | |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| | |
| NBC EQUIPMENT | |
| AN/ODR-T1 (Radiation Survey Set) | |
| M72A2 Chemical Stimulant | 2 each |
| CS Grenades (Practice) | 4 each |
| | |
| OTHER | |
| Meals | Based on ration cycle |
| War Wound Mouflage Set | 1 each |
| Aircraft for Simulated Air Attack | 1 each |
| | |
| NOTE: The consolidated support requirements outlined for this STX are intended as suggestions. Local policies or constraints may not allow for providing the items. | |

8. **T&EO Sequence.** Table 4-13 lists the T&EOs for this STX.

Table 4-13. T&EOs from chapter 5 to use in evaluating STX C-3

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Perform Advance/Quartering Party Activities | 63-2-4008 | 5-20 |
| Occupy New Operating Site | 63-2-4009 | 5-25 |
| Use Passive Air Defense Measures | 63-2-4307 | 5-143 |

Table 4-13. T&EOs from chapter 5 to use in evaluating STX C-3 (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Take Active Air Defense Measures Against Hostile Aircraft | 63-2-4308 | 5-147 |
| Set Up Truck Platoon | 55-2-0007 | 5-151 |
| Set Up Unit Defense | 63-2-4011 | 5-170 |
| Prepare Unit for Nuclear, Biological, and Chemical Conditions | 63-2-4013 | 5-176 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |
| Respond to the Initial Effects of a Nuclear Attack | 63-2-4020 | 5-192 |
| Prepare Unit for Level II/III Threat | 63-2-4022 | 5-199 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Treat Casualties | 08-2-0003.63-0001 | 5-243 |
| Supervise Maintenance Platoon Operations | 43-2-4535 | 5-272 |
| Set Up Maintenance Platoon Headquarters and Sections | 43-2-4570 | 5-274 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |
| Process Enemy Prisoners of War | 63-2-4304 | 5-313 |
| Process Captured Documents and Equipment | 63-2-4305 | 5-316 |
| Transport Casualties | 63-2-4316 | 5-323 |
| Perform Risk Management Procedures | 63-2-4326 | 5-328 |
| Set Up Unit Headquarters and Bivouac Areas | 63-2-4518 | 5-334 |
| Perform Unit-Level Maintenance | 63-2-4552 | 5-338 |
| Supervise Truck Platoon Operations | 55-2-0010 | 5-349 |
| Plan Occupation of New Area of Operations | 63-2-4007 | 5-360 |
| Plan Unit Defense | 63-2-4010 | 5-363 |
| Plan Area Damage Control Operations | 63-2-4014 | 5-368 |
| Maintain Communications | 63-2-4017 | 5-371 |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES**STX C-4****PROVIDE TRUCK TRANSPORTATION**

1. Objective. This STX trains the unit in providing truck transportation. This STX provides the commander and key leaders practice in planning, coordinating, and controlling transportation assets. The unit must become proficient in performing truck operations.

2. Interface.

- a. This STX supports the unit FTX--Provide Motor Transport Services.
- b. This STX supports the higher echelon STX--Direct Transportation Support.

3. Training.

a. **Leader Training.**

(1) This STX can be used to provide truck transportation as a part of a CPX or an FTX.

(2) During classroom activities, the use of the TSOP and responsibilities and procedures in FM 3-3, FM 7-8, FM 19-4, FM 44-8, and FM 55-30 should be discussed; and the T&EOs listed in this STX should be reviewed.

(3) CPX, CFX, and TEWT provide ground training for leaders when the STX exact area is used.

(4) Games and simulations are developed to teach leaders as part of a continuing officer and NCO development program. They also are used to exercise command and control at various command and staff levels.

(5) Tips for leader training.

(a) Leaders should familiarize themselves with the procedures for planning and executing transportation support.

(b) Leaders should review the unit and higher echelon TSOP.

(c) A map/route reconnaissance should be conducted, if possible.

b. **Tips for Training.**

(1) After the unit demonstrates proficiency for the tasks in this STX, this STX can be trained under several options:

- (a) In a field or MOUT environment.
- (b) With or without NBC conditions.
- (c) Day or night.
- (d) With or without OPFOR interdictions.

(2) The unit must become proficient in maintaining the programming of unit assets for providing transportation services before attempting complex actions.

(3) After proficiency in this STX is reached, the unit sustains proficiency by executing this STX as part of an FTX.

4. Training Enhancers.

a. The unit may conduct a tactical road march while performing transportation support. The unit must be prepared at any time to defend the convoy against air, ground, or threat attacks during the day or night and be prepared to respond appropriately to enemy or friendly chemical or nuclear operations.

b. The unit receives commitments from higher HQ to provide transportation services.

c. Unless otherwise approved by the chief OC, all reports and recommendations are provided in hard copy to the senior trainer for evaluation.

d. This exercise begins when the unit receives commitments from higher HQ and ends when commitments are completed. AARs are conducted as shown in Table 4-14. Table 4-14 is a suggested scenario.

Table 4-14. Sample light, light-medium, and medium companies STX C-4 scenario

| Sequence | Event | Estimated Time |
|---|---|----------------|
| 1 | Commander issues guidance | 10 min |
| 2 | Provide truck transportation | 8 hr |
| 3 | Employ operations security measures | 50 min |
| 4 | Defend convoy against threat situations | 1 hr |
| 7 | Continue providing truck transportation | 1 hr |
| 11 | Final AAR | 1 hr |
| | TOTAL TIME: | 12 hr |
| NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit. | | |
| NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions. | | |

5. General Situation.

- a. The unit has established its new operating site. Its mission is to provide transportation support.
- b. Pertinent maps and overlays are available.
- c. The new AO may be in a field or MOUT environment.
- d. The commander has formulated a tentative layout and defensive plan prior to reconnaissance of the new site.
- e. The OPFOR is capable of launching air and ground attacks and engaging in NBC warfare and EW.
- f. This exercise is conducted in all environmental conditions.

6. FRAGO. The commander is conducting a meeting where he provides the following FRAGO: “We will be operating around the clock performing transportation support. Key leaders and first line supervisors must ensure that vehicles are maintained to support transportation operations.”

7. Support Requirements.

- a. **Minimum Trainers/OCs.** This exercise should be conducted with the unit commander as the trainer and primary OC. A minimum of two OCs is required.
- b. **Opposing Force.**
 - (1) The OPFOR may or may not be required when the exercise is conducted as part of a CPX. The OPFOR should be used if the exercise is part of an FTX.
 - (2) The OPFOR should have specific missions and be controlled whenever used.

(3) MILES can be used, or the OC can assess damage to the unit.

c. **Vehicles and Communications.** Vehicles and communications equipment organic to the unit are used. When OPFOR is employed, a vehicle and radio are needed for the OC.

d. **Maneuver Area.** A training area of sufficient size, approximately 250 by 250 meters, is required to support the vehicles and equipment.

e. **Master Incident List.** During the STX, MIL is essential to provide input to drive unit actions.

f. **Consolidated Support Requirements.** Table 4-15 shows the suggested support requirements for this STX.

Table 4-15. Sample consolidated support requirements for STX C-4

| AMMUNITION | QUANTITY |
|---|-----------------------------|
| 5.56 mm (Blank) | 120 rds/per wpn |
| 7.62 mm (Blank) | 100 rds/per wpn |
| Smoke Grenades | 4/per unit/OPFOR |
| Arty Simulator | 4/per OPFOR |
| MILES | 1 set per soldier/equipment |
| Blank Adapters | 1 per wpn |
| | |
| EQUIPMENT | |
| All organic equipment including TOE and CTA items authorized. | |
| | |
| FUEL | |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| | |
| NBC EQUIPMENT | QUANTITY |
| AN/PDR-T1 (Radiation Survey Set) | 1 per unit |
| M72A2 Kit: Chemical Stimulant | 1 each |
| CS Grenades | 4/per OPFOR |

Table 4-15. Sample consolidated support requirements for STX C-4 (continued)

| OTHER | |
|---|-------------|
| Field rations | as required |
| War Wound Mouflage Set | 1 each |
| | |
| NOTE: The consolidated support requirements outlined for this STX are intended as suggestions only. Local policies or constraints may not allow for provisioning of all the items in this table. | |

8. **T&EO Sequence.** Table 4-16 lists the T&EOs for this STX.

Table 4-16. T&EOs from chapter 5 to use in evaluating STX C-4

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Conduct Tactical Road March | 63-2-4003 | 5-14 |
| Use Passive Air Defense Measures | 63-2-4307 | 5-143 |
| Take Active Air Defense Measures Against Hostile Aircraft | 63-2-4308 | 5-147 |
| Cross a Radiologically Contaminated Area | 63-2-4005 | 5-153 |
| Defend Convoy Elements | 63-2-4006 | 5-162 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |
| Perform Operational Decontamination | 63-2-4018 | 5-186 |
| Respond to the Initial Effects of a Nuclear Attack | 63-2-4020 | 5-192 |
| Cross a Chemically Contaminated Area | 63-2-4226 | 5-222 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Respond to a Chemical Attack | 63-2-4334 | 5-233 |
| Treat Casualties | 08-2-0003.63-0001 | 5-243 |
| Perform Maintenance Control Functions | 43-2-0050 | 5-254 |
| Provide Repair Parts Supply Support | 43-2-0096 | 5-258 |
| Perform Recovery Operations | 43-2-4071 | 5-263 |
| Maintain Records and Publications | 43-2-4392 | 5-266 |
| Perform Controlled Exchange of Repair Parts | 43-2-4394 | 5-268 |
| Perform Combat Repair Teams Functions | 43-2-4508 | 5-270 |
| Supervise Maintenance Platoon Operations | 43-2-4535 | 5-272 |
| Transport Personnel and Cargo | 55-2-0011 | 5-278 |
| Transport Dry and Refrigerated Containerized Cargo | 55-2-0038 | 5-285 |
| Transport Bulk Water | 55-2-0040 | 5-292 |
| Transport Bulk Petroleum | 55-2-0041 | 5-299 |

Table 4-16. T&EOs from chapter 5 to use in evaluating STX C-4 (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Provide Human Resources Support | 63-2-4015 | 5-305 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |
| Process Enemy Prisoners of War | 63-2-4304 | 5-313 |
| Process Captured Documents and Equipment | 63-2-4305 | 5-316 |
| Perform Field Sanitation Functions | 63-2-4315 | 5-319 |
| Transport Casualties | 63-2-4316 | 5-323 |
| Perform Risk Management Procedures | 63-2-4326 | 5-328 |
| Provide Unit Supply Support | 63-2-4515 | 5-331 |
| Perform Unit-Level Maintenance | 63-2-4552 | 5-338 |
| Provide Command and Control of Transportation Operations | 55-2-0009 | 5-345 |
| Supervise Truck Platoon Operations | 55-2-0010 | 5-349 |
| Maintain ITV, Redirect Operators, and Provide Commitments Using MTS | 55-2-0016 | 5-352 |
| Maintain Communications | 63-2-4017 | 5-371 |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES**STX C-5****DEFEND ASSIGNED AREA**

1. Objective. This STX trains the unit in planning and coordinating defense of its unit areas. This STX provides the commander and key leaders practice in passive and active defense measures, selection of defensive positions, coordinating defensive fires, area damage control procedures, first aid, and providing truck transportation services in a hostile environment. The unit must become proficient in defending its area of operation.

2. Interface.

- a. This STX supports the unit FTX-Provide Motor Transport Services.
- b. This STX supports the higher echelon STX-Supervise Force Protection Activities.

3. Training.

a. Leader Training.

(1) This STX can be used to support defensive operations as a part of a CPX or an FTX.

(2) During classroom activities, the use of the TSOP, the responsibilities and procedures outlined in the unit's doctrinal publications, and the T&EOs listed in this STX should be reviewed.

(3) Leaders should use a map of the actual area where the STX is to be conducted, and a sand table model to match the actual terrain, if possible.

(4) Tips for leader training.

(a) Leaders should familiarize themselves with the procedures for defensive measures.

(b) Leaders should review the unit and higher echelon TSOPs.

(c) If possible, leaders should conduct a map/ground reconnaissance of the training area where setup will take place.

b. Tips for Training.

(1) After the unit demonstrates proficiency in the tasks for this STX, this STX can be trained under several options:

- (a) With or without OPFOR interdictions.
- (b) With or without NBC conditions.
- (c) In a field or MOUT environment.

(2) The unit must become proficient in the basics of defensive operations before attempting complex actions.

(3) After proficiency in this STX is reached, the unit sustains proficiency by executing this STX as part of an FTX.

4. Training Enhancers.

a. The unit should have established the defensive positions. The unit must be prepared at any time to defend against air, ground, or terrorist attacks during the day or night, and to respond appropriately to enemy, friendly, or NBC operations.

b. The unit establishes the new operating site defensive positions IAW the layout plans. When the site is operational, the higher echelon S2/S3 is notified that the unit is prepared to perform its operational mission.

c. Unless otherwise approved by the chief OC, all reports and recommendations should be provided in hard copy to the senior trainer for evaluation.

d. This exercise begins when the unit receives notification of an attack and ends after the unit completes ADC operations. AARs are conducted as shown in Table 4-17. Table 4-17 is a suggested scenario.

Table 4-17. Sample light, light-medium, and medium companies STX C-5 scenario

| Sequence | Event | Estimated Time |
|----------|--|----------------|
| 1 | Receives notification of attack | 10 min |
| 2 | Occupy fighting positions | 15 min |
| 3 | Increase perimeter manning | 20 min |
| 4 | Assemble reaction force | 30 min |
| 5 | React to Level I threat | 30 min |
| 6 | Respond to NBC attack | 1 hr |
| 7 | Perform decontamination and monitoring operations | 1 hr |
| 8 | Receive notification of Level II/III ground attack | 10 min |
| 9 | Increase defense preparation | 30 min |
| 10 | Defend against OPFOR attack | 1 hr |
| 11 | Detect threat | 15 min |
| 12 | Engage threat | 30 min |
| 13 | Request indirect fire or close air support | 15 min |
| 14 | Disengage threat | 30 min |
| 15 | Conduct hasty displacement | 1 hr |
| 16 | Handover battle to tactical combat force/MP | 30 min |

Table 4-17. Sample light, light-medium, and medium companies STX C-5 scenario (continued)

| Sequence | Event | Estimated Time |
|---|-------------------------------------|----------------|
| 17 | Reorganize unit | 1 hr |
| 18 | Conduct ADC | 2 hr |
| 19 | Treat casualties | 1 hr |
| 20 | Evacuate casualties | 1 hr |
| 21 | Perform mortuary affairs operations | 2 hr |
| 22 | Reconstitute unit | 3 hr |
| 23 | AAR | 1 hr |
| | TOTAL TIME: | 19 hr, 42 min |
| NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit. | | |
| NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions. | | |

5. General Situation.

- a. The unit has established defensive positions. The unit is ready to defend at any time while performing transportation support operations.
- b. A map/ground reconnaissance has been performed.
- c. Sufficient supplies and equipment are available.
- d. NBC detection equipment is available.
- e. The exercise is conducted in a field site or MOUT environment.
- f. The OPFOR has the potential to conduct ground, air, and NBC warfare.
- g. This exercise is conducted in all environmental conditions.

6. FRAGO. The unit commander issues the following FRAGO: "S2/S3 has directed all units go to MOPP 2 conditions based on reports of enemy threat capabilities. All elements report reaching the condition."

7. Support Requirements.

a. **Minimum Trainers and OCs.** This exercise should be conducted with the unit commander as the trainer and primary OC. A minimum of two OCs is required.

b. OPFOR.

(1) The OPFOR should not be more than squad size with one crew-served weapon.

(2) The MILES can be used or the OCs can assess damage to equipment and personnel casualties.

(3) The OPFOR should be well-trained in threat tactics, have specific missions, and be controlled when used.

c. **Vehicles and Communications.** Vehicles and communications equipment organic to the unit are used. When OPFOR is employed, vehicles and radios for the OCs are needed.

d. **Maneuver Area.** Depending upon the LTA, it is desirable to have an adequate training area, which is 1.5 by 1.5 kilometers.

e. **Master Incident List.** During the STX, the MIL is essential to provide input to drive actions.

f. **Consolidated Support Requirements.** Table 4-18 shows the suggested support requirements for this STX.

Table 4-18. Sample consolidated support requirements for STX C-5

| AMMUNITION | QUANTITY |
|---|-------------------------|
| 5.56mm (Blank) | 30 rds/wpn |
| 5.56mm (Blank) | 50 rds/wpn OPFOR |
| 7.62mm (Blank) | 100 rds/wpn |
| 7.62mm (Blank) | 250 rds/wpn OPFOR |
| Smoke Grenades | 8 each OPFOR |
| Arty Simulator | 4 each OPFOR |
| CS Grenade | 4 each OPFOR |
| Blank Adapter | 1 per wpn |
| Blank Adapter | 1 per wpn OPFOR |
| MILES | 1 set per soldier |
| MILES | 1 set per soldier OPFOR |
| | |
| EQUIPMENT | |
| All authorized organic equipment to include TOE and CTA. | |
| | |
| FUEL | QUANTITY |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| | |
| NBC EQUIPMENT | |
| AN/ODR-T1 (Radiation Survey Set) | |
| M72A2 Chemical Stimulant | 2 each |
| CS Grenades (Practice) | 4 each |

Table 4-18. Sample consolidated support requirements for STX C-5 (continued)

| | |
|--|-----------------------|
| OTHER | |
| Meals | Based on ration cycle |
| War Wound Mouflage Set | 1each |
| Aircraft for Simulated Air Attack | 1 each |
| | |
| NOTE: The consolidated support requirements outlined for this STX are intended As suggestions. Local policies or constraints may not allow for providing the items. | |

8. **T&EO Sequence.** Table 4-19 lists the T&EOs for this STX.

Table 4-19. T&EOs from chapter 5 to use in evaluating STX C-5

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Use Passive Air Defense Measures | 63-2-4307 | 5-143 |
| Take Active Air Defense Measures Against Hostile Aircraft | 63-2-4308 | 5-147 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |
| Respond to the Initial Effects of a Nuclear Attack | 63-2-4020 | 5-192 |
| Defend Against a Level I Attack | 63-2-4021 | 5-195 |
| Conduct Hasty Displacement | 63-2-4023 | 5-202 |
| Defend Unit Area | 63-2-4024 | 5-205 |
| Perform Withdrawal Under Fire | 63-2-4025 | 5-210 |
| Reorganize Unit Defense | 63-2-4026 | 5-213 |
| Execute Battle Handover | 63-2-4027 | 5-216 |
| Perform Area Damage Control Functions | 63-2-4028 | 5-219 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Respond to a Chemical Attack | 63-2-4334 | 5-233 |
| Destroy Supplies and Equipment | 63-2-4522 | 5-238 |
| Treat Casualties | 08-2-0003.63-0001 | 5-243 |

Table 4-19. T&EOs from chapter 5 to use in evaluating STX C-5 (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Perform Unit Mortuary Affairs Operations | 10-2-4513 | 5-248 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |
| Process Enemy Prisoners of War | 63-2-4304 | 5-313 |
| Process Captured Documents and Equipment | 63-2-4305 | 5-316 |
| Transport Casualties | 63-2-4316 | 5-323 |
| Perform Risk Management Procedures | 63-2-4326 | 5-328 |
| Plan Unit Defense | 63-2-4010 | 5-363 |

LIGHT, LIGHT-MEDIUM, AND MEDIUM COMPANIES**STX C-6****REDEPLOY UNIT TO HOME STATION**

1. Objective. This STX trains the unit in redeploying the unit from a theater of operations to home station or new area of operations. The unit must become proficient in planning and preparing the unit for redeployment operations.

2. Interface.

a. This STX supports the unit FTX--Provide Motor Transport Services.

b. This STX supports the higher echelon STX-Supervise Redeployment of Subordinate Elements to Home Station.

3. Training.

a. **Leader Training.**

(1) This STX can be used to plan and implement redeployment (land, sea, or air) of the unit as a part of an FTX.

(2) During classroom activities, the use of the TSOP and the responsibilities and procedures outlined in FMs 55-9, 55-10, 55-12, 55-65, 90-26, and 100-17; ARs 220-10, 700-84, and 750-1 should be discussed and the T&EOs listed in this STX should be reviewed.

(3) The leader should use a map of the area where the STX is to be conducted and a sand table model to match the actual terrain, if possible.

(4) CPX, CFX, and TEWTs provide ground training for leaders when the exact area of the STXs is used.

(5) Simulations and games teach leaders as part of a continuing officer and NCO development program.

(6) Tips for leader training.

(a) Leaders should familiarize themselves with the procedures for planning and executing redeployment operations.

(b) Leaders should review the higher echelon and unit SOPs.

(c) Leaders should conduct a map/ground reconnaissance of the training area where redeployment activities will take place, if possible.

b. **Tips for Training.**

(1) After the unit has demonstrated proficiency in the tasks for this STX, this STX can be trained under several options:

- (a) Inclement weather.
- (b) Multiple increments.
- (c) Different mode of transportation.
- (d) Day or night.

(2) The unit must become proficient in the basics of planning and executing basic redeployment before attempting complex actions.

(3) After proficiency in this STX is reached, the unit sustains proficiency by executing this STX as part of an FTX.

4. Training Enhancers.

a. The unit commander in coordination with the higher echelon S2/S3 secure required redeployment SOPs.

b. UMO/NCO updates unit redeployment plans in coordination with higher echelon staff.

c. The higher echelon S2/S3 provides unit with the redeployment sequence.

d. Unless otherwise approved by the chief OC, all reports and recommendations should be provided in hard copy to the senior trainer for evaluation.

e. This exercise begins with receipt of a warning order and ends upon completion of redeployment activities. AARs are conducted as shown in Table 4-20. Table 4-20 is a suggested scenario.

5. General Situation.

a. The unit is employed in a theater of operations and is to be redeployed to CONUS. The unit is under the command and control of a higher echelon element.

b. Section leaders provide personnel and equipment status reports.

c. The base support elements provide required redeployment support.

d. This exercise is conducted in all environmental conditions.

Table 4-20. Sample light, light-medium, and medium companies STX C-6 scenario

| Sequence | Event | Estimated Time |
|---|---|----------------|
| 1 | Receive and verify warning order for redeployment | 30 min |
| 2 | Perform administrative and SRP activities | 1 hr |
| 3 | Dismantle current operating site | 2 hr |
| 4 | Inspect vehicles and equipment | 2 hr |
| 5 | Load vehicles and equipment | 3 hr |
| 6 | AAR | 1 hr |
| 7 | Receive movement order | 30 min |
| 8 | Conduct nontactical road march | 1 hr |
| 9 | Arrive APOE/SPOE | 10 min |
| 10 | Perform staging activities | 1 hr |
| 11 | Perform embarkation activities | 1 hr |
| 12 | AAR | 1 hr |
| 13 | Arrive APOD/SPOD | 30 min |
| 14 | Perform debarkation activities | 1 hr |
| 15 | Perform staging activities | 30 min |
| 16 | Receive movement order to new area of operations | 30 min |
| 17 | Conduct nontactical road march | 1 hr |
| 18 | Arrive home station or new operating site | 30 min |
| 19 | Conduct home station or new operating site activities | 2 hr |
| 20 | Final AAR | 2 hr |
| | TOTAL TIME: | 20 hr, 17 min |
| NOTE 1: Events will be performed to standard, not time limitation. The time required to train an event will vary based on METT-T factors and the training proficiency of the unit. | | |
| NOTE 2: Additional time is required if large portions of the exercise are conducted at night, under limited visibility, or under MOPP conditions. | | |

6. FRAGO. The unit commander issues the following FRAGO: “Alternative route A will be used for moving to TAA/RAA located at _____ (grid coordinates). Prepare to move within _____ hours.”

7. Support Requirements.

a. **Minimum Trainer and OCs.** This exercise should be conducted with the unit commander as the trainer and primary OC. A minimum of two OCs is required.

b. **Opposing Force.** None.

c. **Vehicles and Communications.** Vehicles and communications equipment organic to the unit are used.

d. **Maneuver Area.** A road network is required that allows a road march of at least 25 kilometers.

e. **Master Incident List.** During this STX, the MIL is essential to provide input to drive unit actions.

f. **Consolidated Support Requirements.** Table 4-21 shows the suggested support requirements for this STX.

Table 4-21. Sample consolidated support requirements for STX C-6

| AMMUNITION | QUANTITY |
|--|-----------------|
| | NONE |
| | |
| EQUIPMENT | |
| All organic equipment to include TOE and CTA authorized. Rail and aircraft load simulations. | |
| | |
| FUEL | |
| Multiply the pieces of equipment times the amount of fuel per mile or hour times the tentative operating mileage or hour. | |
| | |
| NBC EQUIPMENT | NONE |
| | |
| RATIONS | |
| | |
| NOTE: The consolidated support requirements outlined for this STX are intended as suggestions. Local policies or constraints may not allow for providing the items. | |

8. **T&EO Sequence.** Table 4-22 lists the T&EOs for this STX.

Table 4-22. T&EOs from chapter 5 to use in evaluating STX C-6

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Prepare Unit for Nontactical Move | 63-2-4807 | 5-54 |
| Conduct Nontactical Road March | 63-2-4808 | 5-58 |
| Perform Redeployment Human Resources Actions | 63-2-4814 | 5-86 |
| Perform Redeployment Training Activities | 63-2-4815 | 5-90 |
| Perform Redeployment Supply Activities | 63-2-4816 | 5-93 |
| Perform Redeployment Maintenance Activities | 63-2-4817 | 5-96 |
| Prepare Vehicles and Equipment for Redeployment | 63-2-4818 | 5-101 |

Table 4-22. T&EOs from chapter 5 to use in evaluating STX C-6 (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Perform Sea Port of Embarkation Activities for Redeployment | 63-2-4819 | 5-110 |
| Perform Aerial Port of Embarkation Activities for Redeployment | 63-2-4820 | 5-117 |
| Perform Aerial Port of Debarkation Activities for Redeployment | 63-2-4821 | 5-122 |
| Perform Home Station Activities | 63-2-4822 | 5-125 |
| Perform Sea Port of Debarkation Activities for Redeployment | 63-2-4823 | 5-129 |
| Perform Demobilization Station Activities | 63-2-4824 | 5-133 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |
| Perform Risk Management Procedures | 63-2-4326 | 5-328 |
| Plan Unit Move | 63-2-4001 | 5-356 |
| Plan Unit Redeployment | 63-2-4829 | 5-389 |

CHAPTER 5

TRAINING AND EVALUATION OUTLINES

5-1. GENERAL. This chapter contains the T&EOs for all the collective tasks that the unit must perform in order to accomplish its critical wartime mission. The unit commander uses T&EOs for training and internally evaluating the unit. Higher HQ also uses the T&EOs to evaluate unit performance.

5-2. STRUCTURE. Table 5-1, pages 5-3 through 5-7, is a list of all the T&EOs in this MTP. The mission to collective task matrix in Chapter 2 lists the T&EOs required to train the critical wartime missions according to their specific BOS.

5-3. FORMAT. The T&EOs are the training objective prepared for every collective task that supports the critical wartime mission accomplishment. Each T&EOs contains the following components:

a. **Element.** The element identifies the unit or unit element that is required to perform the task.

b. **Task.** A task is an event that has a start and stop, is measurable, and supports a specific mission.

c. **Task Number.** The task number is in parentheses following the task title. This number is used to identify the task throughout the MTP.

d. **References.** The references for each task are in parentheses following the task number. The underlined reference is the primary reference. This reference contains the most information concerning the task.

e. **Iteration.** Iterations (1 through 5) are used to identify the number of times a task is performed and evaluated during training or an exercise. If the task has been performed more than once, the iteration will indicate the quality of the latest performance. The letter "M" stands for MOPP and will be circled by the evaluator if tasks are performed under MOPP conditions.

f. **Training Status.** The training status is used to record the evaluation of the unit's ability to perform the task. The rating is circled each time the task is evaluated. The two ratings are:

(1) **GO.** The unit successfully performed all the task/task steps (subtasks) and standards with no significant shortcomings.

(2) **NO GO.** The unit failed to successfully accomplish the task/task steps (subtasks) and standards.

g. **Conditions.** The conditions statement of the T&EO describes the wartime environment under which the task is performed. The statement begins with an initiating cue which is an action taken by a unit or individual outside or within the unit. The cue acts as a catalyst to create the necessity to perform the task.

h. **Task Standard.** The task standard states the ultimate outcome criteria for the task.

i. **Subtasks.** Subtasks are actions or events that must take place for a task to be performed. The task steps are sequentially arranged where the performance sequence is important for the correct performance of the task.

NOTE: Leader task steps are identified by an asterisk "*" placed to the left of the critical task step (subtask) symbol "+" which is placed at the immediate left of the task step (subtask) number. The individual and leader tasks that support the collective task are identified in parentheses at the end of the subtask.

j. **Standards.** Detailed standards are listed for each task step. The standards for the task step is the accomplishment of all event standards for the task step. For example, "a" through "h" (task steps) must be completed before the standard is met.

k. **GO/NO GO Column.** The GO/NO GO column is used to record the performance of the standards. Each standard for a task step must be evaluated and an "x" placed in the appropriate column. A major portion of the standards for a task step must be marked a "GO" for the task step to be successfully performed.

5-4. OPFOR TASKS AND STANDARDS. These tasks and standards provide overall OPFOR performance standards for selected collective tasks. These tasks and standards also ensure that OPFOR soldiers accomplish meaningful training. The OPFOR must always attain its task standards, using doctrine and tactics consistent with the type of enemy they are portraying.

5-5. USAGE OF T&EO. The T&EO is used individually to train personnel in a single task. It is used in sequence with other T&EOs to train personnel in and/or evaluate a larger group of tasks, such as an FTX or STX. The T&EOs should be used through more than five iterations of evaluations, either by making copies or using pencil entries to record results.

Table 5-1. List of Unit T&EOs

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| <u>DEPLOY/CONDUCT MANUEVER</u> | | |
| Prepare Unit to Move | 63-2-4002 | 5-8 |
| Conduct Tactical Road March | 63-2-4003 | 5-14 |
| Perform Advance/Quartering Party Activities | 63-2-4008 | 5-20 |
| Occupy New Operating Site | 63-2-4009 | 5-25 |
| Perform Deployment Alert Activities | 63-2-4801 | 5-28 |
| Perform Human Resources Predeployment Activities | 63-2-4802 | 5-32 |
| Perform Predeployment Training Activities | 63-2-4803 | 5-36 |
| Perform Predeployment Supply Activities | 63-2-4804 | 5-38 |
| Perform Predeployment Maintenance Activities | 63-2-4805 | 5-42 |
| Prepare Vehicles and Equipment for Deployment | 63-2-4806 | 5-47 |
| Prepare Unit for Nontactical Move | 63-2-4807 | 5-54 |
| Conduct Nontactical Road March | 63-2-4808 | 5-58 |
| Perform Sea Port of Embarkation Activities for Deployment | 63-2-4809 | 5-62 |
| Perform Aerial Port of Embarkation Activities for Deployment | 63-2-4810 | 5-68 |
| Perform Aerial Port of Debarkation Activities for Deployment | 63-2-4811 | 5-73 |
| Perform Sea Port of Debarkation Activities for Deployment | 63-2-4812 | 5-77 |
| Prepare Equipment Reception Team for Tactical Road March | 63-2-4813 | 5-82 |
| Perform Redeployment Human Resources Actions | 63-2-4814 | 5-86 |
| Perform Redeployment Training Activities | 63-2-4815 | 5-90 |
| Perform Redeployment Supply Activities | 63-2-4816 | 5-93 |
| Perform Redeployment Maintenance Activities | 63-2-4817 | 5-96 |

Table 5-1. List of Unit T&EOs (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Prepare Vehicles and Equipment for Redeployment | 63-2-4818 | 5-101 |
| Perform Sea Port of Embarkation Activities for Redeployment | 63-2-4819 | 5-110 |
| Perform Aerial Port of Embarkation Activities for Redeployment | 63-2-4820 | 5-117 |
| Perform Aerial Port of Debarkation Activities for Redeployment | 63-2-4821 | 5-122 |
| Perform Home Station Activities | 63-2-4822 | 5-125 |
| Perform Sea Port of Debarkation Activities for Redeployment | 63-2-4823 | 5-129 |
| Perform Demobilization Station Activities | 63-2-4824 | 5-133 |
| Conduct Integration Activities | 63-2-4825 | 5-137 |
| Conduct Staging Activities | 63-2-4826 | 5-139 |
| <u>EMPLOY FIREPOWER</u> | | |
| Use Passive Air Defense Measures | 63-2-4307 | 5-143 |
| Take Active Air Defense Measures Against Hostile Aircraft | 63-2-4308 | 5-147 |
| <u>PROTECT THE FORCE</u> | | |
| Set Up Truck Platoon | 55-2-0007 | 5-151 |
| Cross a Radiologically Contaminated Area | 63-2-4005 | 5-153 |
| Defend Convoy Elements | 63-2-4006 | 5-162 |
| Set Up Unit Defense | 63-2-4011 | 5-170 |
| Prepare Unit for Nuclear, Biological, and Chemical Conditions | 63-2-4013 | 5-176 |
| Employ Operations Security Measures | 63-2-4016 | 5-181 |
| Perform Operational Decontamination | 63-2-4018 | 5-186 |
| Perform Thorough Decontamination | 63-2-4019 | 5-189 |
| Respond to the Initial Effects of a Nuclear Attack | 63-2-4020 | 5-192 |
| Defend Against a Level I Attack | 63-2-4021 | 5-195 |

Table 5-1. List of Unit T&EOs (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|--|--------------------|-------------|
| Prepare Unit for Level II/III Threat | 63-2-4022 | 5-199 |
| Conduct Hasty Displacement | 63-2-4023 | 5-202 |
| Defend Unit Area | 63-2-4024 | 5-205 |
| Perform Withdrawal Under Fire | 63-2-4025 | 5-210 |
| Reorganize Unit Defense | 63-2-4026 | 5-213 |
| Execute Battle Handover | 63-2-4027 | 5-216 |
| Perform Area Damage Control Functions | 63-2-4028 | 5-219 |
| Cross a Chemically Contaminated Area | 63-2-4226 | 5-222 |
| Employ Physical Security Measures | 63-2-4306 | 5-229 |
| Respond to a Chemical Attack | 63-2-4334 | 5-233 |
| Destroy Supplies and Equipment | 63-2-4522 | 5-238 |
| <u>PERFORM CSS AND SUSTAINMENT</u> | | |
| Treat Casualties | 08-2-0003.63-0001 | 5-243 |
| Perform Unit Mortuary Affairs Operations | 10-2-4513 | 5-248 |
| Perform Maintenance Control Functions | 43-2-0050 | 5-254 |
| Provide Repair Parts Supply Support | 43-2-0096 | 5-258 |
| Perform Recovery Operations | 43-2-4071 | 5-263 |
| Maintain Records and Publications | 43-2-4392 | 5-266 |
| Perform Controlled Exchange of Repair Parts | 43-2-4394 | 5-268 |
| Perform Combat Repair Teams Functions | 43-2-4508 | 5-270 |
| Supervise Maintenance Platoon Operations | 43-2-4535 | 5-272 |
| Set Up Maintenance Platoon Headquarters and Sections | 43-2-4570 | 5-274 |

Table 5-1. List of Unit T&EOs (continued)

| TASK TITLE | TASK NUMBER | PAGE |
|---|--------------------|-------------|
| Transport Personnel and Cargo | 55-2-0011 | 5-278 |
| Transport Dry and Refrigerated Containerized Cargo | 55-2-0038 | 5-285 |
| Transport Bulk Water | 55-2-0040 | 5-292 |
| Transport Bulk Petroleum | 55-2-0041 | 5-299 |
| Provide Human Resources Support | 63-2-4015 | 5-305 |
| Combat Battlefield Stress | 63-2-4303 | 5-309 |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| <p>d. Positions dosimeters where they can be constantly monitored.</p> <p>e. Verifies analog/digital map information along route(s) for accuracy.</p> <p>f. Lists capacities of all bridges and underpasses.</p> <p>g. Identifies locations of all culverts, ferries, fording areas, steep grades, and possible ambush sites.</p> <p>h. Prepares overlay depicting route, obstructions, and key natural and man-made features using analog and/or digital communications.</p> <p>i. Computes travel time and distance from a proposed SP to RP.</p> <p>j. Debriefs higher HQ staff element and unit commander upon return.</p> <p>2. Unit prepares vehicles and equipment.</p> <p>a. Performs before-operations PMCS on all vehicles and equipment.</p> <p>b. Corrects all vehicle and equipment discrepancies within the operator's capabilities IAW applicable TM.</p> <p>c. Reports all deficiencies beyond operator's capability to immediate supervisor.</p> <p>d. Removes all unit identification markings on vehicles.</p> <p>e. Covers all reflective surfaces of all vehicles or cargo with available materials.</p> <p>f. Hardens all vehicles using sandbags and/or other authorized materials.</p> <p>g. Places antennas at lowest height.</p> <p>h. Turns radio volume and squelch to lowest operational setting consistent with operational requirements.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>i. Sets radio to eliminate operating sounds and lights when moving at night.</p> <p>j. Verifies analog and/or digital devices are functioning properly.</p> <p>3. Unit dismantles current operating site.</p> <p>a. Strikes tentage and camouflage nets IAW applicable TMs and within time specified in the displacement plan.</p> <p>b. Loads all designated equipment IAW unit load plans and within time specified in the displacement plan.</p> <p>c. Disguises all critical equipment and supplies with tarpaulins or any other authorized covering.</p> <p>d. Dismantles wire, analog, and/or digital communications devices, antennas, generators, and power cables within time specified in the displacement plan.</p> <p>e. Removes all signs of area occupation.</p> <p>f. Positions all stay-behind party vehicles and equipment in areas that provide cover and do not impede departure of main body vehicles.</p> <p>g. Dispatches advance/quartermaster party NLT time specified in movement order.</p> <p>*4. March commander and leaders organize convoy.</p> <p>a. Assign vehicle positions with the heavier, slower vehicles placed first.</p> <p>b. Assign digital device equipped control vehicles without setting a pattern.</p> <p>c. Assign recovery vehicle(s) positions where they can move to disabled vehicles without disrupting convoy movement.</p> <p>d. Assign hardened vehicle(s) with crew-served weapons interspersed throughout the convoy.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>e. Assign passenger locations where all unit personnel have a position and semi-automatic and automatic weapons are alternated throughout the convoy to cover front, rear, and flanks.</p> <p>f. Assign soldiers to air guard duties with specific search sectors covering 360 degrees.</p> <p>g. Assign sufficient number of recovery vehicles and mechanics to trail party element.</p> <p>h. Provide vehicle position listing with location of all vehicles to the trail party leader.</p> <p>i. Open analog and/or digital net(s) as specified in the SOI and movement order.</p> <p>*5. March commander and leaders conduct premovement inspections.</p> <p>a. Inspect personnel, equipment, weapons, and ammunition for compliance with commander's guidance, unit TSOP, and higher HQ movement order.</p> <p>b. Inspect organizational equipment for accountability and serviceability.</p> <p>c. Inspect vehicles, trailers, and loads for serviceability, proper stowing, and security.</p> <p>d. Verify operability of analog and/or digital communications devices.</p> <p>e. Forward personnel and equipment status to unit HQ and higher HQ staff element using analog or digital communications devices.</p> <p>*6. March commander conducts briefings for convoy personnel.</p> <p>a. Provides strip maps to each vehicle driver.</p> <p>b. Briefs convoy chain of command.</p> <p>c. Briefs convoy route.</p> <p>d. Prescribes the rate of march and catch-up speeds.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| <p>e. Briefs vehicle intervals.</p> <p>f. Identifies scheduled halts.</p> <p>g. Briefs safety, accident, and breakdown procedures.</p> <p>h. Briefs immediate action security measures.</p> <p>i. Briefs blackout condition procedures.</p> <p>j. Identifies location of medical support.</p> <p>k. Identifies location of maintenance support.</p> <p>l. Provides location and identification of destination.</p> <p>m. Briefs arm/hand signals.</p> <p>n. Briefs communications frequencies and call signs for control personnel, security force commander, fire support elements, reserve security elements, and medical transportation support.</p> <p>7. Unit prepares to cross SP.</p> <p>a. Maintains situational awareness using analog and/or digital communications devices.</p> <p>b. Positions all vehicles under overhead cover.</p> <p>c. Clears all individual and crew-served weapons.</p> <p>d. Posts air guards in positions designated by convoy commander.</p> <p>e. Posts security guards to maintain 360-degree surveillance.</p> <p>f. Forwards movement readiness report to higher HQ staff element using analog and/or digital communications.</p> | | |

 3 Truck Platoon Headquarters
 6 Truck Squads
 Maintenance Section
 2 Light Truck Platoon Headquarters
 4 Light Truck Squads
 Light and Medium Truck Platoon Headquarters
 Light Truck Squad
 Medium Truck Squad

TASK: Conduct Tactical Road March (63-2-4003) (FM 55-30, FM 3-3, FM 3-4, STP 21-1-SMCT, STP 21-24-SMCT, STP 55-88II-MQS)

ITERATION 1 2 3 4 5 M (circle)

COMMANDER/LEADER ASSESSMENT T P U (circle)

CONDITIONS: The time specified in the movement order to cross the SP has arrived. All equipment is uploaded and vehicles are positioned for departure. The route of march is identified. Convoy operations may be performed during the day or night, including blackout conditions. The convoy may go through an urban area. The unit has analog and/or digital communications with higher HQ. The higher HQ OPORD with annexes, including overlays with checkpoints, RP, and critical points are available. Digital and/or analog device, radio, and visual signals are used for convoy column control. Column may conduct halts during movement. This task is performed day or night under all environmental conditions. The unit is subject to air, NBC, and ground Level I threat forces attack. Some iterations of this task should be performed in MOPP4.

TASK STANDARDS: SP, checkpoints, and RP are crossed at times specified in the movement order or at times adjusted on the road movement table by higher HQ staff element. At MOPP4, performance degradation factors increase travel time.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>*1. March commander initiates convoy.</p> <p>a. Maintains situational awareness at all times using analog and/or digital communications.</p> <p>b. Directs lead vehicle to cross SP at specified time.</p> <p>c. Verifies vehicles have crossed the SP.</p> <p>d. Forwards SP crossing report to higher HQ staff element when unit elements have crossed the SP using analog and/or digital communications.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>*2. March commander reports convoy information to higher HQ staff element.</p> <p>NOTE: All reports are made to higher HQ staff element using analog and/or digital communications.</p> <ul style="list-style-type: none"> a. Forwards checkpoint clearance report as checkpoints are crossed. b. Reports all ground sightings that conflict with maps and map overlays. c. Forwards enroute NBC information. d. Reports all threat sightings using SALUTE format. e. Employs correct SOI/SSI codes in all transmissions. <p>*3. March commander enforces march discipline.</p> <ul style="list-style-type: none"> a. Maintains situational awareness at all times using analog and/or digital communications. b. Assumes position(s) along march route that provides command presence at points of decision for reaction to changing tactical situation. c. Enforces all movement policies defined in the TSOP and movement order, with emphasis on formation, distances, speeds, passing procedures, and halts. d. Adjusts formation distances and speed consistent with NBC, terrain, and light conditions. e. Enforces security measures, with emphasis on air guard's surveillance, manning of automatic weapons, and concealment of critical cargo. f. Communicates violations of march discipline, security procedures, or changes to current orders to unit leaders and operators by analog, digital, or visual signal communications. g. Enforces COMSEC measures, including radio silence periods IAW the movement order and SOI/SSI. | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| <p>4. Unit employs march discipline.</p> <ul style="list-style-type: none"> a. Maintains designated march speed specified in movement order or as prescribed by the convoy commander. b. Maintains proper vehicle interval as specified in movement order or as adjusted by the convoy commander. c. Adjusts formation distances and speed consistent with NBC, terrain, and light conditions. d. Dons eye protection goggles if driver or passenger is in a vehicle without cover or when windshield is lowered. e. Crosses all checkpoints as scheduled. f. Reacts correctly to convoy commander's arm/hand signals or instructions by analog and/or digital communications. g. Maintains ground and air surveillance that covers 360 degrees until movement is completed. h. Maintains communications security. <p>5. Unit conducts scheduled halt(s).</p> <ul style="list-style-type: none"> a. Stops column at prescribed time and location. b. Moves vehicles off-road to positions that provide overhead cover while maintaining the prescribed interval between vehicles. c. Occupies hasty defensive positions with 360-degree protective coverage (passengers). d. Reports scheduled halt to the battalion CP. e. Performs during-operation PMCS on vehicles (operators). f. Inspects vehicle loads for safety and security. g. Begins departure at specified time in the movement order. h. Reports resumption of march to higher HQ staff element using analog and/or digital communications. | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>6. Unit conducts unscheduled halt(s).</p> <ul style="list-style-type: none"> a. Alerts march column with prescribed arm/hand signal. b. Reports halt and circumstances immediately to higher HQ staff element by analog and/or digital communications. c. Moves vehicles off the road while maintaining the prescribed interval between vehicles. d. Occupies hasty fighting position with 360-degree protective coverage. e. Resumes march as soon as reason for halt is rectified. f. Reports resumption of march to higher HQ staff element using analog and/or digital communications. <p>7. Trail party recovers disabled vehicle.</p> <ul style="list-style-type: none"> a. Posts guard to maintain surveillance until recovery operation is completed. b. Inspects disabled vehicle for repairability. c. Repairs disabled vehicle, when possible. d. Tows disabled vehicle to applicable maintenance activity. e. Reports vehicle status to convoy commander using analog and/or digital communications. <p>8. Unit conducts a night convoy.</p> <ul style="list-style-type: none"> a. Briefs drivers on night conditions. b. Provides visual adjustment period if march began during daylight. c. Prepares vehicles for blackout conditions IAW the TSOP. d. Maintains prescribed interval between vehicles. e. Wears night vision goggles (selected personnel). | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>f. Wears regular eye protection goggles (all other personnel).</p> <p>g. Employs ground guides during poor visibility periods.</p> <p>9. Unit conducts convoy through an urban area.</p> <p>a. Verifies all weight, height, and width restrictions along route of march.</p> <p>b. Employs close column formation.</p> <p>c. Obeys traffic control directions unless escorted by military or HN police.</p> <p>d. Employs directional guides at all critical intersections.</p> <p>10. Convoy commander monitors unit crossing RP.</p> <p>a. Verifies that lead vehicle has crossed RP at specified time.</p> <p>b. Verifies that vehicles that have crossed RP.</p> <p>c. Forwards SITREP to higher HQ staff element using analog and/or digital communications.</p> | | |

OPFOR TASKS AND STANDARDS

TASK: CONDUCT AERIAL RECONNAISSANCE (63-OPFOR-1007)

CONDITION: OPFOR HQ requires intelligence on the location and identification of enemy elements. Aircraft is dispatched to take photographs and conduct a visual inspection of enemy rear area.

STANDARD: 1. Photograph assigned sectors. 2. Make quick visual checks where cloud ceiling is low. 3. Locate enemy positions in the rear area, particularly support and storage bases, and C2 facilities. 4. Report PIR and other information requirements to OPFOR HQ.

ELEMENTS: Company Headquarters
 3 Truck Platoon Headquarters
 6 Truck Squads
 Maintenance Section
 2 Light Truck Platoon Headquarters
 4 Light Truck Squads
 Light and Medium Truck Platoon Headquarters
 Light Truck Squad
 Medium Truck Squad

TASK: Take Active Air Defense Measures Against Hostile Aircraft (63-2-4308)
 (FM 44-8, FM 3-4, FM 3-5, FM 44-80, STP 21-1-SMCT, STP 21-24-SMCT)

| | | | | | | | |
|------------------------------------|---|---|---|---|---|---|----------|
| ITERATION | 1 | 2 | 3 | 4 | 5 | M | (circle) |
| COMMANDER/LEADER ASSESSMENT | | | | T | P | U | (circle) |

CONDITIONS: The unit received an early warning of unknown or hostile aircraft in the area. The unit is tactically deployed supporting combat operations. The unit has analog and/or digital communications with higher HQ. Higher HQ OPORD, the unit TSOP, and higher HQ TSOP are available. Weapon control status is "WEAPONS HOLD." An air attack has caused casualties and damage to the operating area and facilities. This task is performed day or night under all environmental conditions. The unit is subject to air, NBC, and all levels of threat force attacks. Some iterations of this task should be performed in MOPP4.

TASK STANDARDS: Unit repulses attacking aircraft. At MOPP4, air search, aircraft engagement, and post-attack activities are significantly degraded due to protective clothing and eye-lens distortion.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| 1. Unit personnel employ preparatory measures before engaging hostile aircraft. <ul style="list-style-type: none"> a. Alert all personnel of the presence of hostile aircraft using analog and/or digital communications and local alarms if situation permits. b. OPFOR TASKS AND STANDARDS

TASK: CONDUCT AIR ATTACKS (63-OPFOR-1006)

CONDITION: OPFOR elements in the rear area have forwarded the positions of enemy support sites and/or the locations of road march elements to OPFOR HQ. OPFOR aircraft have been dispatched to attack enemy installations or convoys.

STANDARD: 1. Locate command and control site(s) or convoys. 2. Conduct attack runs on designated target(s). 3. Destroy enemy equipment, supplies, vehicles, and personnel.

- ELEMENTS:** Medium Truck Squad
 Light Truck Squad
 4 Light Truck Squads
 Light and Medium Truck Platoon Headquarters
 3 Truck Platoon Headquarters
 6 Truck Squads
 2 Light Truck Platoon Headquarters

TASK: Set Up Truck Platoon (55-2-0007) (FM 55-30, FM 20-3, FM 21-10, FM 24-35, FM 24-35-1, FM 90-10)

| | | | | | | | |
|------------------------------------|---|---|---|---|---|---|----------|
| ITERATION | 1 | 2 | 3 | 4 | 5 | M | (circle) |
| COMMANDER/LEADER ASSESSMENT | | | | T | P | U | (circle) |

CONDITIONS: The quartering party guides have escorted the truck platoons into their respective locations at the new field or MOUT operating site. The operating areas for truck platoon HQ have been identified in the commander's layout plan. Selected personnel from the main body have been assigned to primary fighting positions to area security. TSOP is available. This task will be performed under all environmental conditions. The platoons may be subject to attack by threat Level I forces, NBC attack, or radiological fallout. Some iterations of this task should be performed in MOPP4.

TASK STANDARDS: All truck platoons are set up IAW the TSOP or commander's layout plan and within prescribed time frame.

SUPPORTING COLLECTIVE TASKS: NONE

OPFOR TASKS AND STANDARDS

TASK: CONDUCT HASTY AMBUSH (63-OPFOR-1003)

CONDITION: OPFOR element is moving in a wooded area when an enemy march element is seen moving along a nearby route.

STANDARD: 1. Prepare ambush site before arrival of enemy element. 2. Surprise enemy forces. 3. Inflict casualties within the designated kill zone. 4. Inflict damage to vehicles and equipment within the designated kill zone. 5. Delay enemy march element from reaching its destination for a specified period. 6. Withdraw, on order, within two minutes of ambush initiation. 7. Report actions to superiors.

TASK: CONDUCT DELIBERATE AMBUSH (63-OPFOR-1004)

CONDITION: OPFOR element is operating along an enemy MSR. OPFOR intelligence has reported that an enemy element is conducting a road march along the route. OPFOR has set up an ambush. The march element is approximately 15 minutes from the ambush point. OPFOR element possesses automatic weapons, antiarmor weapons, and command detonated mines. OPFOR HQ has ordered complete destruction of march element.

STANDARD: 1. Prepare ambush site before arrival of enemy element. 2. Surprise enemy forces. 3. Force enemy march element to halt in kill zone. 4. Initiate ambush on order of the OPFOR leader. 5. Kill, wound, or capture enemy personnel and destroy specified vehicles and equipment in the kill zone. 6. Engage enemy reinforcements and security elements. 7. Consolidate and withdraw from the area on order. 8. Report all specified PIR and other intelligence requirements.

TASK: CONDUCT SNIPER OPERATIONS (63-OPFOR-1005)

CONDITION: OPFOR has assigned snipers, regular and/or irregular elements, in the enemy rear area along MSR and near support sites.

STANDARD: 1. Set up well-concealed location(s). 2. Engage vehicle drivers or personnel on foot with short bursts of semi-automatic fire. 3. Kill or wound selected target. 4. Prevent position from being discovered by enemy forces. 5. Evacuate the area without being spotted. 6. Report all specified PIR and other intelligence requirements to OPFOR HQ.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| <p>f. Supervise construction of individual fighting positions within the element's sector.</p> <p>g. Supervise clearing of fields of fire.</p> <p>h. Supervise construction of obstacles IAW the defense plan.</p> <p>i. Supervise construction of OP/LP.</p> <p>j. Supervise emplacement of expedient warning device and position barriers.</p> <p>k. Assign personnel to unit internal reaction force IAW defense plan.</p> <p>l. Prepare defensive sector sketch showing the location and sector of fire for each weapon, all known dead space, and the location and estimated ranges to prominent terrain features within the assigned area.</p> <p>m. Forward sector sketch to unit leader using analog and/or digital communications or messenger.</p> <p>n. Enforce safety procedures IAW TSOP and publications.</p> <p>o. Enforce environmental stewardship protection program procedures IAW TC 5-400.</p> <p>2. Unit personnel construct primary fighting positions.</p> <p>a. Identify position location and sector of fire as directed by unit leader.</p> <p>b. Dig an initial hasty fighting position at least one-half meter (18 to 20 inches) deep and with partially cleared fields of fire.</p> <p>c. Walk sector to determine ranges and dead space using buddy system.</p> <p>d. Improve hasty fighting position to a two-man position.</p> <p>e. Install sector of fire stakes to identify area directed by unit leader.</p> <p>f. Prepare appropriate range card by sighting in automatic weapons, anti armor weapons, and grenade launchers on the assigned engagement area.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>g. Dig position to fit the natural cover available at least armpit deep using dirt to build a parapet (front cover) at least 18 inches thick.</p> <p>h. Dig two trench grenade sumps, one at each end of the two-man position, and sloped toward the sumps.</p> <p>i. Complete clearing fields of fire, using foliage for camouflage.</p> <p>j. Construct overhead and flank cover for fighting position as time permits.</p> <p>k. Camouflage position to prevent easy detection from 35 meters.</p> <p>l. Report completion of primary positions to the unit leader.</p> <p>m. Mark alternate and supplementary positions as directed by unit leader.</p> <p>n. Employ safety procedures IAW TSOP and publications.</p> <p>o. Employ environmental stewardship protection program procedures IAW TC 5-400.</p> <p>3. Unit personnel emplace obstacles and early warning devices.</p> <p>a. Place PEWS into operation at location(s) directed by the element leader.</p> <p>b. Emplace man-made barriers, concertina wire, and field expedient devices in locations directed by the unit leader.</p> <p>c. Position trip flares and field-expedient noise devices in locations directed by the unit leader.</p> <p>d. Camouflage all obstacles and devices.</p> <p>e. Report completion of barrier emplacements to the unit leader using analog and/or digital communications or messenger.</p> <p>f. Employ safety procedures IAW TSOP and publications.</p> <p>g. Employ environmental stewardship protection program procedures IAW TC 5-400.</p> | | |

OPFOR TASKS AND STANDARDS

TASK: CONDUCT AERIAL RECONNAISSANCE (63-OPFOR-1007)

CONDITION: OPFOR HQ requires intelligence on the location and identification of enemy elements. Aircraft is dispatched to take photographs and conduct a visual inspection of enemy rear area.

STANDARD: 1. Photograph assigned sectors. 2. Make quick visual checks where cloud ceiling is low. 3. Locate enemy positions in the rear area, particularly support and storage bases, and C2 facilities. 4. Report PIR and other information requirements to OPFOR HQ.

TASK: GATHER INTELLIGENCE (63-OPFOR-1008)

CONDITION: Small OPFOR elements, operating in the rear area, are planning attacks on enemy bases. Information is needed to complete plans.

STANDARD: 1. Identify all PIR and other intelligence requirements. 2. Pass through any outpost, defensive wire, or warning devices undetected. 3. Move to an OP that offers cover and concealment and is close enough to gather PIR and other intelligence requirements. 4. Gather all PIR and other intelligence requirements. 5. Withdraw from area undetected. 6. Report all information to OPFOR HQ.

TASK: CONDUCT ELECTRONIC WARFARE (63-OPFOR-1012)

CONDITION: OPFOR employs a large number of radio detection finding sets, along with ground and airborne communications analysts, to monitor enemy forces for loose communications security practices.

STANDARD: 1. Locate the positions of enemy command, intelligence, and logistics radio nets. 2. Forward locations to OPFOR HQ. 3. Use jamming signals against enemy radio receivers. 4. Monitor enemy radio nets for intelligence information.

ITERATION 1 2 3 4 5 M (circle)

COMMANDER/LEADER ASSESSMENT T P U (circle)

CONDITIONS: The unit has recently been attacked with a persistent chemical agent(s). Personnel are currently in MOPP4. Unit personnel and equipment have been contaminated. The unit has analog and/or digital communications with higher HQ. The higher HQ OPORD with all annexes and overlays, unit TSOP, and higher HQ TSOP are available. Replacement overgarments, M291 (skin) and M295 (individual equipment) decontamination kits, super tropical bleach, brooms, mops, and/or other expedient chemical defense items are on hand. This task is performed day or night under all environmental conditions. The unit is subject to air, NBC, and ground Level I threat forces attack. This task is always performed in MOPP4.

TASK STANDARDS: Unit personnel perform operational decontamination within 15 minutes after attack. At MOPP4, performance degradation factors increase decontamination times.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| 1. Unit personnel perform essential decontamination. <ul style="list-style-type: none"> a. Complete skin decontamination within one minute of attack or contamination. b. OPFOR TASKS AND STANDARDS

TASK: CONDUCT RAID (63-OPFOR-1009)

CONDITION: OPFOR element has occupied an objective rally point and has orders to conduct a raid on a CSS base.

STANDARD: 1. Surprise enemy forces. 2. Assault enemy support base and accomplish assigned tasks. 3. Destroy specified equipment and supplies. 4. Avoid decisive engagement. 5. Withdraw all personnel from objective area(s) within time prescribed. 6. Obtain all PIR from raid site.

TASK: CONDUCT TERRORIST AND SABOTEUR ATTACKS (63-OPFOR-1013)

CONDITION: OPFOR dispatches small teams into enemy rear area to disrupt CSS operations.

STANDARD: 1. Locate rear support bases and C2 facilities. 2. Delay and disrupt CSS operations through probes. 3. Infiltrate CSS bases to conduct sabotage and terrorist activities. 4. Inflict casualties. 5. Destroy supplies and equipment.

OPFOR TASKS AND STANDARDS

TASK: CONDUCT AIR ATTACKS (63-OPFOR-1006)

CONDITION: OPFOR elements in the rear area have forwarded the positions of enemy support sites and/or the locations of road march elements to OPFOR HQ. OPFOR aircraft have been dispatched to attack enemy installations or convoys.

STANDARD: 1. Locate command and control site(s) or convoys. 2. Conduct attack runs on designated target(s). 3. Destroy enemy equipment, supplies, vehicles, and personnel.

TASK: ATTACK (63-OPFOR-1010)

CONDITION: Enemy rear area CSS base has been located by OPFOR element. PIR and other intelligence requirements have been obtained by OPFOR patrols. OPFOR element has automatic and anti-armor weapons, and light mortars. OPFOR element is the size of approximately two platoons.

STANDARD: 1. Develop an attack plan. 2. Initiate attack using a scheme of maneuver that exploits enemy flanks, gaps, and identified weaknesses. 3. Use covered and concealed routes to approach enemy forces flanks, gaps, or weakly held areas. 4. Employ indirect fire to support attack. 5. Penetrate enemy defenses. 6. Destroy all equipment and supplies. 7. Inflict heavy casualties. 8. Isolate the CSS base by blocking reinforcements. 9. Force enemy units to displace. 10. Withdraw before CSS base is reinforced with tactical combat forces.

TASK: MAINTAIN CONTACT (63-OPFOR-1011)

CONDITION: OPFOR element is tactically engaged with enemy base defense forces. Enemy forces are withdrawing under pressure.

STANDARD: 1. Engage enemy forces decisively. 2. Advance own unit or forces as enemy withdraws. 3. Inflict casualties.

SUPPORTING COLLECTIVE TASKS: NONE

OPFOR TASKS AND STANDARDS

TASK: CONDUCT HASTY AMBUSH (63-OPFOR-1003)

CONDITION: OPFOR element is moving in a wooded area when an enemy march element is seen moving along a nearby route.

STANDARD: 1. Prepare ambush site before arrival of enemy element. 2. Surprise enemy forces. 3. Inflict casualties within the designated kill zone. 4. Inflict damage to vehicles and equipment within the designated kill zone. 5. Delay enemy march element from reaching its destination for a specified period. 6. Withdraw, on order, within two minutes of ambush initiation. 7. Report actions to superiors

TASK: CONDUCT SNIPER OPERATIONS (63-OPFOR-1005)

CONDITION: OPFOR has assigned snipers, regular and/or irregular elements, in the enemy rear area along MSR and near support sites.

STANDARD: 1. Set up well-concealed location(s). 2. Engage vehicle drivers or personnel on foot with short bursts of semi-automatic fire. 3. Kill or wound selected target. 4. Prevent position from being discovered by enemy forces. 5. Evacuate the area without being spotted. 6. Report all specified PIR and other intelligence requirements to OPFOR HQ.

TASK: CONDUCT AIR ATTACKS (63-OPFOR-1006)

CONDITION: OPFOR elements in the rear area have forwarded the positions of enemy support sites and/or the locations of road march elements to OPFOR HQ. OPFOR aircraft have been dispatched to attack enemy installations or convoys.

STANDARD: 1. Locate command and control site(s) or convoys. 2. Conduct attack runs on designated target(s). 3. Destroy enemy equipment, supplies, vehicles, and personnel.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>h. Coordinates support requirements with escort and security elements, fire support, air cover, and communications.</p> <p>i. Establishes convoy organization that supports mission requirements.</p> <p>j. Identifies weapons and ammunition to be carried for countering potential threat.</p> <p>k. TASK: Process Captured Documents and Equipment (63-2-4305) (FM 34-54, STP 21-24-SMCT)

ITERATION 1 2 3 4 5 M (circle)

COMMANDER/LEADER ASSESSMENT T P U (circle)

CONDITIONS: Threat equipment and documents have been captured. The unit has analog and/or digital communications with higher HQ. The higher HQ OPOD, the unit TSOP, and higher HQ TSOP are available. The unit is supporting tactical operations.. This task is performed under all day and night environmental conditions. The unit is subject to air, NBC, and all levels of threat forces attacks. Some iterations of this task should be performed in MOPP4.

TASK STANDARDS: Unit processes all captured documents and equipment IAW disposition instructions from the S2/S3 section and the Bn TSOP. At MOPP4, documents and equipment processing and disposition times increase.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| 1. Commander and leaders supervise captured document and equipment processing. <ul style="list-style-type: none"> a. Disseminate to all subelements instructions and procedures for processing captured documents and equipment using analog and/or digital communications. b. Coordinate disposition of captured documents and equipment with S2/S3 using analog and/or digital communications. c. Coordinate with S2/3, Plans-Operations Branch for transportation of equipment to the rear using analog and/or digital communications. d. Monitor processing procedures to ensure compliance with the TSOP and Plans-Operations Branch guidance. | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| <p>2. Unit personnel report capture of documents or equipment to S3, Plans-Operations Branch.</p> <p style="padding-left: 40px;">a. Process reports on documents and equipment IAW FM 34-54 and the TSOP.</p> <p style="padding-left: 40px;">b. Request disposition of captured documents and equipment from the Plans-Operations Branch, S2/S3, and S4 section using analog and/or digital communications.</p> <p style="padding-left: 40px;">c. Tag all captured documents and equipment before evacuation.</p> <p>3. Unit executes approved disposition of captured documents and equipment.</p> <p style="padding-left: 40px;">a. Evacuates captured equipment IAW disposition instructions.</p> <p style="padding-left: 40px;">b. Destroys the captured equipment (less medical) IAW disposition instructions.</p> <p>NOTE: If tactical situation does not permit equipment destruction or evacuation, or other special instructions exist, abandon captured equipment IAW disposition instructions.</p> <p style="padding-left: 40px;">c. Evacuates documents through Plan-Operations Branch to intelligence personnel.</p> | | |

OPFOR TASKS AND STANDARDS

TASK: GATHER INTELLIGENCE (63-OPFOR-1008)

CONDITION: Small OPFOR elements, operating in the rear area, are planning attacks on enemy bases. Information is needed to complete plans.

STANDARD: 1. Identify all PIR and other intelligence requirements. 2. Pass through any outpost, defensive wire, or warning devices undetected. 3. Move to an OP that offers cover and concealment and is close enough to gather PIR and other intelligence requirements. 4. Gather all PIR and other intelligence requirements. 5. Withdraw from area undetected. 6. Report all information to OPFOR HQ.

TASK: CONDUCT ELECTRONIC WARFARE (63-OPFOR-1012)

CONDITION: OPFOR employs a large number of radio detection finding sets, along with ground and airborne communications analysts, to monitor enemy forces for loose communications security practices.

STANDARD: 1. Locate the positions of enemy command, intelligence, and logistics radio nets. 2. Forward locations to OPFOR HQ. 3. Use jamming signals against enemy radio receivers. 4. Monitor enemy radio nets for intelligence information.

TASK: Plan Unit Defense (63-2-4010) (FM 10-27-3, FM 10-27-2, FM 3-4, FM 7-10, STP 21-24-SMCT)

| | | | | | | | |
|------------------------------------|---|---|---|---|---|---|----------|
| ITERATION | 1 | 2 | 3 | 4 | 5 | M | (circle) |
| COMMANDER/LEADER ASSESSMENT | | | | T | P | U | (circle) |

CONDITIONS: The unit's defensive area of responsibility has been assigned by a higher HQ staff element and defense of the area must be planned. The unit has analog and/or digital communications with higher HQ. The higher HQ OPORD, the unit TSOP, and higher HQ TSOP are available. The unit commander has conducted a mounted or dismounted reconnaissance of the area. Selected personnel have occupied initial security positions. The unit layout plan is finalized. Automatic weapons are positioned on likely avenues of approach. The unit's administrative and operational areas are established simultaneously with its defensive set up. The detail and complexity of the defense is dependent upon the amount of time the unit is to be at this location. Field expedient and natural shelters are available. This task is performed in all day and night environmental conditions. The unit is subject to air, NBC, and all levels of threat forces attacks. Some iterations of this task should be performed in MOPP4.

TASK STANDARDS: Defense plan is completed IAW the TSOP and higher HQ guidance and is integrated into the higher HQ defense plan. At MOPP4, performance degradation factors increase unit's planning times.

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|-----------|--------------|
| *1. Commander and leaders perform terrain analysis of unit's area of responsibility. <ul style="list-style-type: none"> a. Maintain situational awareness using analog and/or digital communications. b. Identify terrain features that provide cover and concealment or other advantages to the threat force. c. Identify likely avenues of approach for mounted and dismounted forces and threat aircraft. d. Identify probable dead space(s) in the unit's area. | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|----|-------|
| <p>e. Identify locations of preplanned indirect fire targets and target reference points in coordination with higher HQ staff element using analog and/or digital communications.</p> <p>f. Identify locations of restrictive fire zones within or in the immediate vicinity of the unit's area of responsibility.</p> <p>*2. Commander and leaders prepare preliminary base fire plan.</p> <p>a. List available weapon systems and element to which they are assigned.</p> <p>b. Calculate each element's personnel assets based on the availability of personnel during normal operations.</p> <p>c. Designate subelement boundaries that cover the entire unit area of responsibility based on the normal availability of weapons and personnel.</p> <p>d. List probable engagement areas based on terrain analysis of the area of responsibility and data provided by higher HQ staff element.</p> <p>e. Establish coordination channels with adjacent units to integrate interlocking fires.</p> <p>f. List target areas for each type weapon system in the unit.</p> <p>g. List indirect fire and CAS target reference points.</p> <p>h. Coordinate fire support coordination measures with higher HQ staff element using analog and/or digital communications.</p> <p>*3. Commander and leaders prepare preliminary mobility and countermobility plan.</p> <p>a. List locations of obstacles and types based on desired engagement areas, dead space, and preplanned indirect fire support using analog and/or digital communications.</p> <p>b. Identify available obstacle assets and resources for emplacement.</p> <p>c. Coordinate additional obstacle requirements with higher HQ staff element using analog and/or digital communications or messenger.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>*4. Commander and leaders prepare preliminary air defense plan.</p> <ul style="list-style-type: none"> a. Identify applicable air defense policies, procedures, and requirements in higher HQ and unit TSOP. b. List probable air avenues of approach. c. List current weapon control status as received from higher HQ staff element. d. Identify air defense warning signals. e. Designate locations for air watch positions. <p>*5. Commander prepares reaction force plan.</p> <ul style="list-style-type: none"> a. Lists base cluster reaction force requirements based on higher HQ TSOP or guidance. b. Lists internal reaction force requirements based on unit TSOP and personnel availability. c. Designates internal reaction force rally point. d. Lists subelements' taskings for external and internal reaction forces requirements. <p>*6. Commander prepares ground early-warning plan.</p> <ul style="list-style-type: none"> a. Designates location for employment of PEWS based on terrain analysis. b. Designates location(s) for deliberate OPs and LPs. <p>*7. Commander plans sector defense.</p> <ul style="list-style-type: none"> a. Designates boundaries of subelements based on unit plan. <p>NOTE: Boundaries should be consistent with deployed weapon systems and personnel available to man the perimeter.</p> <ul style="list-style-type: none"> b. Designates crew-served automatic weapon positions with fields of fire that cover most likely dismounted avenues of approach and afford maximum cover and concealment. | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|--|----|-------|
| <p>c. Designates anti-armor weapon positions, laterally and in depth, that cover most likely mounted avenues of approach and afford maximum cover and concealment.</p> <p>d. Assigns sectors of fire to crew-served weapons where their fires overlap, integrate, and mutually support beyond the point of hand grenade range (35 meters).</p> <p>e. Assigns armor kill zones for anti-armor weapons within the element.</p> <p>f. Assigns grenade launcher positions to cover dead space areas.</p> <p>g. Designates individual weapon positions where fires overlap and provide flank security for automatic weapons.</p> <p>h. Identifies indirect fire and CAS target reference points within the platoon's sector.</p> <p>i. Identifies locations and types of obstacles within the platoon's sector.</p> <p>j. Identifies locations of restrictive fire zones within the platoon's sector.</p> <p>k. Coordinates integration of interlocking fires with adjacent elements on the left and right.</p> <p>*8. Section/squad leaders plan sector defense.</p> <p>a. Identify all primary positions within the section/squad's sector.</p> <p>b. Identify locations of obstacles, target reference points, and restrictive fire zones within the section/squad's defensive sector.</p> <p>c. Select alternate positions for each primary position that covers the same sector of fire as the primary position.</p> <p>d. Select individual alternate positions based on key weapon alternate positions.</p> <p>e. Select alternate positions that provide covered and concealed withdrawal routes.</p> | | |

| TASK STEPS AND PERFORMANCE MEASURES | GO | NO GO |
|---|-----------|--------------|
| f. Select supplementary positions that are within 200 meters of primary positions and are oriented in a different direction from primary positions. g. Designate sectors of fire for each supplementary position that interlock and provide mutual supporting fire. h. Coordinate integration of interlocking fires with adjacent elements using analog and/or digital communications or messenger. | | |

TASK: CONDUCT ELECTRONIC WARFARE (63-OPFOR-1012)

CONDITION: OPFOR employs a large number of radio detection finding sets, along with ground and airborne communications analysts, to monitor enemy forces for loose communications security practices.

STANDARD: 1. Locate the positions of enemy command, intelligence, and logistics radio nets. 2. Forward locations to OPFOR HQ. 3. Use jamming signals against enemy radio receivers. 4. Monitor enemy radio nets for intelligence information.

CHAPTER 6

EXTERNAL EVALUATION

6-1. GENERAL. An external evaluation is conducted to evaluate the unit's ability to perform its critical wartime mission. This chapter is a guide for preparing an external evaluation. The unit may modify the evaluation, as deemed appropriate by the commander, based on METT-T and other considerations. The unit will be evaluated using standards of selected T&EOs contained in Chapter 5 of this MTP. The evaluation will evaluate the total unit. The evaluation should employ the use of a realistic OPFOR and the use of MILES. At the completion of the evaluation, the commander should be able to identify the strengths and weaknesses of the unit which can form the basis for future training and resource allocation.

6-2. PREPARING THE EVALUATION. To ensure that the evaluations accurately measure unit capabilities, the commander must standardize evaluation procedures.

a. **Preparing the Evaluation Instrument.** The sample evaluation scenario outlined in Figure 6-1, pages 6-2 and 6-3, contains the missions as well as the appropriate tasks necessary to develop and execute the evaluation. Since it is not possible or desirable to evaluate every task, selective tailoring is required. The following procedures should be considered when developing the evaluation.

(1) Based on previous training guidance, identify the missions to be evaluated, using Table 2-1 in this MTP. Record the selected missions on the Unit Proficiency Worksheet, Figure 6-2, page 6-4.

(2) List each mission on a separate Task Summary Sheet (see Figure 6-3, page 6-5; Figure 6-4, pages 6-6 and 6-7; Figure 6-5, pages 6-8 and 6-9; Figure 6-6, pages 6-10 and 6-11; Figure 6-7, page 6-12; and Figure 6-8, page 6-13).

(3) Select the tasks to be evaluated in the performance of every mission. List the selected tasks on the Task Summary Sheet. The evaluators use these sheets to record the results of the evaluation.

(4) Compile the selected missions and tasks in the order that they will logically occur in the detailed scenario. Group the selected missions and tasks in modules, as shown in Figure 6-1, to allow for continuous operations which can be interrupted at logical points for assessment of casualties and the conduct of in-progress AAR.

b. **Forecasting and Requisitioning Resources.** Depending on the evaluation, adequate training, ammunition, equipment, and supplies must be forecasted and requisitioned. A consolidated list of support requirements for this evaluation is at Table 6-1, page 6-14. This consolidated listing is the result of experience with the scenario presented in Figure 6-1. The evaluating HQ will have to prepare its own consolidated support list.

| EVENT | ACTION | DURATION | TIME FRAME |
|-----------------|---|-----------------|-------------------|
| 1. | Conduct pre-evaluation action | 8 hr | Before start |
| 2. | Receive warning order | 1 hr | Day 1, 0600 |

| Fire Marker Control System | (when available) |

c. **Selecting and Preparing the Field Evaluation Site.** When selecting an evaluation site, consider size, type of terrain, OPFOR requirement, and administrative requirements. For this evaluation, an area measuring 1.5 by 1.5 kilometers was selected. The OPFOR positioning is according to the Soviet doctrine. In addition, the site provides for the establishment of an administrative area required to support the evaluation.

d. **Planning Indirect Fire Simulation.** Indirect fire weapons greatly influence the outcome of battles. Reaction to indirect fire is an important consideration of the evaluation. Indirect fire simulation requires a considerable amount of planning to achieve the desired realism.

(1) The fire marker control system outlined in TC 25-6 is a recommended method of simulating indirect fire. However, this method may be difficult to support due to the amount of resources required.

(2) The unit may use the evaluation control HQ method or the simulation without OPFOR method of evaluating the unit's ability to react to indirect fire. If the evaluation control HQ method is used, the OPFOR will make a call for fire to the evaluation control HQ which would simulate the tactical FDC. The control HQ would then relay the delivery data to the evaluators who would mark the impact of the round with artillery simulators and assess appropriate casualties. If an OPFOR is not used, the evaluator may simply ignite artillery simulators and observe the unit's reactions. FM 25-4 provides assessment and computation tables which may be used to determine casualties. Indirect fire simulation must be realistic and limited to what the unit could reasonably expect under combat conditions.

6-3. SELECTING THE EVALUATORS.

a. Evaluators must know the unit missions, organization, equipment, and employment. Evaluators should be at least equal in grade to the rank of the company commander and subordinate leaders. They should have performed previously in that specific or similar TOE position.

b. The following are desired minimum rank and experience requirements for evaluators:

(1) **Unit evaluator.** This will be an officer (captain) with company commander experience.

(2) **Platoon evaluators.** This will be a lieutenant or NCO with platoon leader experience.

(3) **Recorder.** This will be an officer or NCO at the evaluation control HQ to receive "kill" information/results and time data from the evaluators.

(4) **OPFOR team leader.** The OPFOR team leader is also considered an evaluator in that he must provide input for the unit evaluators.

6-4. TRAINING THE EVALUATORS. To ensure standardized administration of the evaluation, evaluators must understand three functional areas.

a. **Evaluation Design.** Each module is designed to evaluate specific critical missions or tasks within the overall scenario. The evaluators must know the evaluation thoroughly and precisely to implement it correctly.

b. **Equipment and Weapons.** Each evaluator, regardless of position, must have full knowledge of the unit weapons and equipment. It is the unit's responsibility to ensure that all equipment is functional before each evaluation module is performed.

c. **Evaluation Control System.** The evaluation control system is used to ensure that the evaluation is administered in a consistent and standardized manner and that correct data is collected for the final evaluation. It includes the following elements:

- (1) Rules of engagement.
- (2) Evaluator duties and responsibilities.
- (3) The communication system.
- (4) Evaluation data collection plan.

d. **Safety.** During any training event, all soldiers and leaders must be safety conscious. Evaluators must ensure that all events are conducted within established safety constraints. Prior to the beginning of each event, all personnel will be briefed on specific safety measures that are to be taken during execution.

6-5. RECORDING EXTERNAL EVALUATION INFORMATION.

a. The evaluating HQ develops the data recording instruments for the evaluators. The Unit Data Sheet (Figure 6-9) presents demographic information, which may reflect on the unit's performance. The Environmental Data Sheet (Figure 6-10, page 6-18) presents weather information so that a comparison of missions conducted under differing environmental conditions can be made. The Personnel and Equipment Loss Report (Figure 6-11, page, 6-19) presents information which reflects on the unit's degree of success during engagements with the OPFOR.

b. The senior evaluator has overall responsibility for preparation of the external evaluation. He accomplishes this through the input provided to him by the subordinate evaluators in each of their respective areas. Subordinate evaluators use the task evaluation criteria (T&EOs from Chapter 5 and Task Summary Sheet) to determine overall proficiency in their particular areas. However the senior evaluator must compile the external evaluation results as prescribed by the evaluating HQ commander. Deviations from the mission/task accomplishment standard assessed by the unit evaluator may be addressed in the senior evaluator comments portion of the mission accomplishment summary.

UNIT DATA SHEET

1. UNIT DESIGNATION: _____

2. UNIT LEADERS: (Circle most correct answer)

| POSITION | RANK | | TIME IN UNIT (MONTHS) | | | | |

C. Average range of visibility due to terrain: _____

5. REMARKS

Figure 6-10. Suggested format for environmental data sheet

6-6. SELECTING AND TRAINING OPFOR. The selection and training of an OPFOR is crucial to the success of a standardized evaluation. The OPFOR is one of the control measures that influences the conditions under which the evaluation is administered. The unit should face an opponent which is consistent in portraying threat doctrine.

a. **Selection.** Any qualified Skill Level 1 or 2 soldier can serve as a member of the OPFOR. Ideally, the OPFOR should be a small cohesive unit under the control of their normal leader or commander.

b. **Training.** The OPFOR must understand five major areas:

- (1) OPFOR weapons and equipment if available.
- (2) Installation and operation of the MILES devices for OPFOR weapons.
- (3) Rules of engagement.
- (4) Threat small unit tactics.
- (5) Training scenarios.

c. **OPFOR Strength.**

(1) **Offense.** Generally, the OPFOR should be outnumbered three to one or more if an attack is to have a good chance using MILES. If the OPFOR is stronger than this ratio, only the most exceptional unit will overcome them. Conversely, the OPFOR should not be so weak that they are quickly overcome. They must also be armed with weapons capable of defeating any of the unit's assets. A general rule is that the OPFOR should be strong enough to offer the unit realistic challenges but one that the unit can overcome if they employ proper tactics.

(2) **Defense.** The OPFOR, at a minimum, should have a three-to-one ratio of superiority, since anything less will not effectively challenge the unit when defending. The OPFOR should have sufficient weapons and ammunition to conduct a successful attack. They must be more than a series of targets to be destroyed. The OPFOR should be allowed to plan their own attack for each mission and not be forced into a "canned" attack that the unit will quickly defeat. Once the OPFOR establishes their plan, they must use the same plan for that event in order to maintain the objectivity and standardization of the evaluation.

6-7. CONDUCTING THE EVALUATION. Conduct of the evaluation is divided into three distinct areas, each requiring preparation and coordination.

a. **Pre-evaluation.**

(1) **Reconnoitering the evaluation area.** The senior evaluator and all other evaluators must make a reconnaissance of the evaluation area. They must know the location of the unit boundary, the location of OPFOR dispositions, and the most likely avenues of approach throughout the field evaluation site area of operations.

(2) ***Preparation of orders.*** OPORDs and FRAGOs to be used to control the exercise must be prepared. An order must be prepared for every mission in the evaluation scenario. These can be prepared, using the skeleton orders contained in the STXs and FTX found in Chapter 4.

(3) ***Unit preparatory activities.*** Installing and troubleshooting MILES equipment, loading vehicles, conducting inspections, and performing administrative actions, are included in unit preparation activities.

(4) ***Positioning OPFOR.*** While the unit is conducting its preparatory activities, the OPFOR is placed in position and briefed.

(5) ***Issue the operations orders.*** In this evaluation scenario, the unit is issued a march order to move. During movement preparation, the battalion OPORD is issued. Once the commander has issued his OPORD and time has been allotted for issuing the platoon or section order, the evaluators should make a last functional check of the equipment.

b. Evaluation.

(1) ***Controlling the exercise.*** The evaluation team controls the evaluation in two ways. First, it controls the evaluation using measures established in paragraph 3 and 5 of the OPORD or FRAGO. Second, the team controls the evaluation through the battalion team commander(simulated by the senior evaluator for this evaluation) on the battalion team net. Simply stated, the evaluation team does not control in the traditional sense, but merely accompanies the unit. Only the senior evaluator has direct verbal contact with the commander; all other evaluators do not speak, aid, give advice, point out positions, or in any way influence the unit performance, except in case of a safety emergency. Evaluators are neutral and must remain so throughout the evaluation.

(2) ***Beginning the first module.*** Once the senior evaluator has issued the battalion team OPORD, the commander executes the mission/tasks prescribed in the first module of the evaluation scenario within the prescribed time constraints. From this point on, all successive modules begin with a battalion team FRAGO or an OPORD.

(3) ***Terminating the module.*** The senior evaluator should terminate a module when the unit has completed all the missions/tasks in that module or has suffered so many casualties or so much damage that the assigned missions or tasks cannot be completed. If the latter is the reason for termination, the evaluator must record the reasons for the termination in the margin of the evaluator's T&EO worksheet and report his action to the evaluation control HQ. In the evaluation scenario, the completion of each mission or task is indicated by "conduct sustaining operations." During this period, the senior evaluator will direct the unit to remain in position while "replacements" (personnel and equipment designed as killed or destroyed) are sent forward to reconstitute the unit. At this time, evaluators must perform the following actions:

(a) Promptly inspect all MILES equipment, record kill codes, and then reset equipment. Replace any damaged or inoperative MILES equipment.

(b) Promptly resolve all casualty data to determine the time, place, number, and cause of casualties. Report this information to the recorder in the evaluation control HQ.

(c) Debrief the unit to clear up any questions. The senior evaluator will then direct the unit to continue its mission once a battalion team FRAGO or OPORD for the next module has been issued.

(4) ***Guidelines for evaluator.***

(a) Report major kills (vehicles, groups).

(b) Report major weapons firing. Both significant firings and hits will be reported to the evaluation control HQ.

(c) Enforce rules of engagement.

(d) Observe critical tactical events of time. Evaluators must be alert to spot and record any action that might have an effect on later performance or mission outcome.

(e) Record routes of travel and unit location.

(f) Inform OPFOR controller of the unit location, direction, and intent. This is necessary to enable OPFOR actions to be controlled in accordance with the desired sequence of events.

(g) Enforce safety.

(h) Terminate mission.

c. **Post-evaluation.** Once the evaluation has been terminated, the unit should be moved to an assembly area and the following actions performed before the unit moves back into garrison.

(1) The unit evaluator must debrief subordinate evaluators and compile all data (evaluator packets) for the evaluation.

(2) The unit evaluator must complete the task summary sheets.

(3) The unit evaluator must turn in all completed evaluators packets (with the evaluators scoring system) to control HQ for recording and analysis.

(4) The unit evaluator must conduct an AAR of the unit performance.

(5) Each subordinate evaluator should conduct an AAR of his element's performance.

6-8. AFTER-ACTION REVIEW.

a. **General.** At the completion of each module and the total evaluation, feedback should be provided to the unit and platoon/sections in order to increase and reinforce learning.

b. **Feedback.** Because all members of the unit participate in an AAR, each member becomes a source of feedback. This participation provides a richer “data base” for key points. For example, based on the assessment of the situation, only a leader knows the basis for his decisions. The AAR leader tries to draw this information out so that it becomes an important part of the discussion and forms the context for discussing alternative courses of action.

c. **Preparing the AAR.** The AAR preparation involves the following four steps:

(1) **Review training orders and objectives.** Training objectives are the focus of the discussion of the exercise results. The FRAGOs and OPORDs included in the exercise design implement these objectives. The evaluator should be familiar with the objectives, FRAGO, and OPORD so that he can note orders given by leaders of the unit that either implement these objectives or deviate from them.

(2) **Observe the exercise.** This is an active process. The emphasis is on noting the actions that make the difference between a unit’s success and failure. The evaluator need not remain overly close to the commander, since more can be seen from high ground near the lead element’s location, or along the unit’s route when moving. Since unit orders may identify important activities, checkpoints, and so forth, the evaluator must be present when the orders are issued. Therefore, the evaluator should position himself so that he can best observe anticipated critical events. Examples of critical events include the following:

- Plan Unit Move.
- Prepare Unit Move.
- Perform Risk Management Procedures.
- Conduct Convoy.
- OPFOR Activities.
- Cross RP.
- Establish Unit Area of Operations.
- Support Transshipment Operations.
- OPFOR Patrolling Occurs.
- Main Attack Occurs.
- Area Damage Control Operations.

(3) **Select the site and assemble the participants.** After the exercise, select a site for the AAR. If possible, hold the AAR where the majority of action occurred, where the most critical events took place, or where the terrain can be observed. Most often the OPFOR or unit objectives will be suitable to use for assembling the players and conducting AARs.

(4) **Debrief the evaluators.** While the unit is moving to the selected site, the evaluators should be debriefed. The senior evaluator must have a complete understanding of what happened in the exercise. Therefore, the fourth step in AAR preparation is to obtain a detailed description of the exercise’s major tactical events in the order in which they occurred. The unit evaluators and the OPFOR leader/controller will provide a description when they are debriefed. After the senior evaluator has a sound understanding of what happened during the exercise, he reviews the critical events and ranks them in terms of their relevance to the exercise training objectives and their contributions to the exercise outcome. He then selects as many critical events as can be covered in detail during the time allowed for the AAR and places them in chronological order.

d. **Conducting the AAR.** Conducting the AAR requires the following four steps:

(1) **Organize the participants.** When the evaluator/AAR leader assembles the participants, he groups them in the exercise according to their organization. Each subordinate element's evaluator is with the element he evaluated.

(2) **State the training objectives.** The AAR leader makes a brief, specific statement of the training objectives for the exercise. The AAR leader also states any additional teaching points that he intends to cover during the AAR. He limits these teaching points to three or four key points to keep the AAR focused and to prevent it from becoming too long.

(3) **Lead the discussion.** The AAR leader guides the discussion of the major tactical events in the order they occur. He uses diagrams to help players visualize the exercise development. Each major event should be discussed in detail to make teaching points about the unit performance during the event. In an effective AAR, the AAR leader:

- Avoids giving a critique or lecture.
- Guides the discussion by asking leading questions.
- Have the players describe what happened in their own terms.
- Has the players discuss not only what happened, but also how it happened, and how it could have been done better.
- Focuses the discussion so that important tactical lessons are made explicit.
- Relates tactical events to subsequent results.
- Avoids detailed examination of events not directly related to major training objectives.
- Encourages the participants to use diagrams to illustrate teaching points.
- Prohibits players from offering self-serving excuses for inappropriate tactical actions.

(4) **Summarize key points.** The AAR leader briefly summarizes teaching points in terms of training objectives covered in the AAR. After the summary, the AAR leader can have a private conversation with the unit leader regarding his strengths and weaknesses and what he can do to further improve his performance and that of the unit. A good AAR ensures the following:

- Order and discipline are maintained.
- Training objectives are reviewed.
- A discussion of the important events is held. (The discussion addresses events as they occurred and how the unit could have done better. The AAR leader guides the discussion. The leader avoids a detailed examination of events not directly related to the training objective.)
- The AAR leader traces the chain of events so that all the participants understand the mistakes.
- Tactical events are clearly related to teaching points.
- Attention of the participants is held, and they are involved in the discussion.
- The summary and new training objectives are clear and concise. Sketches, diagrams, or terrain models are used to reinforce points made in the AAR.

APPENDIX A

COMBINED ARMS TRAINING STRATEGY

A-1. PURPOSE. This appendix provides, as part of the CATS, the Combined Arms Command's recommended strategy for training a company/detachment. This appendix has three parts. The first part describes CATS and explains how CATS fits into the training planning process as described in FM 25-101. The second part explains how to read the strategies and the third part explains how to integrate CATS into the long-range and near-term planning process.

Section I. CATS AND THE TRAINING PLANNING PROCESS

A-2. TRAINING PLANNING PROCESS. FM 25-101 describes a three-step process, based on the unit METL and ending in training execution. Figure 1-1 is a graphic representation of the process.

Figure 1-1. Training planning process

The CATS does not replace this process. It is a training tool that enhances the commander's ability to use the training planning process to manage his training and to optimize the use of scarce training resources. The CATS unit strategies describe recommended training events and the event frequency. Your unit may train all or some of these events. Your training frequency may or may not match that in the CATS strategy. Whatever a unit's training requirements, CATS provides a framework for use in making decisions on the training to be conducted. The training strategy outlined in CATS is designed to help commanders at all levels develop and execute a more efficient training program. Any given strategy addresses all units Army-wide of the same TOE. The specific makeup of the unit's training program is dependent upon--its METL; guidance from higher headquarters, and the resources available at the installation or training environment. It is descriptive in nature and is intended for use as a guide for the commander.

A-3. CATS. CATS is the Army's training strategy that integrates combined arms training for--heavy, light, and special operations forces, the active and reserve components, in the unit and institution environments. It provides an azimuth to guide Army training and identifies the resources required to support that training. It enables the Army to identify, manage and program the acquisition of training resources. CATS evolved from the need for more efficient training, based on expected resource constraints. At US Army level, CATS gives the rationale for acquiring training resources through the development of unit and institutional training strategies. The strategies provide recommended training frequencies and identify the training resources needed to support the strategy.

A-4. TERMS. The information in this paragraph explains the terms listed in Figure 1-1. For information on the training planning process, see FM 25-101.

- a. The METL is an unconstrained, unprioritized statement of the tasks required to complete the war time mission. It is the source of training planning activities.
- b. Assessment is the beginning of the training planning process. It is the commander's evaluation of the unit's training level on the METL.
- c. Commander's Guidance consists of long-range planning calendars and CTG issued to the battalion from the division. It serves to focus the training efforts of the battalion in accordance with the division commander's priorities. The battalion in turn issues CTG for its subordinate companies.
- d. Training Plans are a collection of schedules and other supporting documents that carry out the commander's guidance.
- e. Training Execution is the actual performance of the training scheduled in the training plans portion of the training planning process.

A-5. APPLYING CATS. The information in this paragraph explains how to apply CATS to the training planning process. Figure 1-2 is a graphic representation of the process.

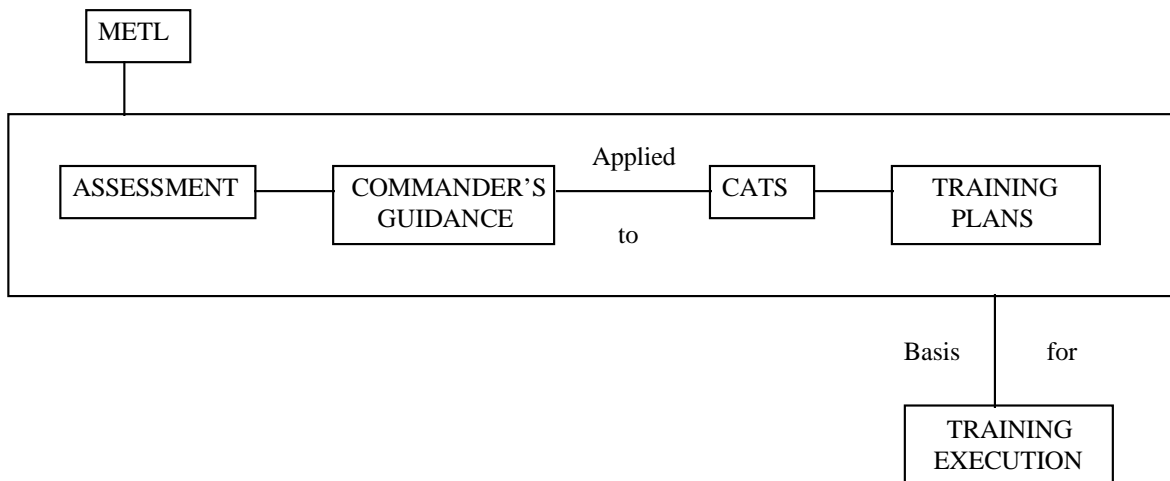

Figure 1-2. Training planning process

a. The commander determines the exact events and tasks to be trained based on his METL and guidance from higher headquarters.

(1) The unit trains tasks during events established in FM 25-100, FM 25-101, and CATS.

(2) The company/detachment trains its METL by training soldiers, squads, sections and platoons in their wartime tasks. The company/detachment applies CATS to its training plans by applying the training events, frequencies and critical gates contained in strategies to the CTG in developing its training plans. The company commander and training officer/NCO uses the critical gates identified in the strategies to ensure that basic tasks are trained prior to moving on to training more complex or resource intensive tasks. The performance of training gate tasks is always evaluated by the commander and serves as the basis of additional training efforts. For example, a TEWT should be used to train METL tasks prior to conducting a complex and resource intensive event like a CFX. The collective training tasks trained in the TEWT are evaluated by the commander and serve as the basis for additional squad/section/platoon training or another TEWT prior to the execution of a CFX.

(3) TADSS based training uses a mix of TADSS and live fire/field training. The strategies show those TADSS within the Army's system or year projected for fielding. The TADSS may not be available at your installation or training environment.

b. The strategies can be viewed as training plans for generic type units. The strategy for the company/detachment is based on the TOE for the Motor Transport/Terminal/Watercraft /Movements Control company/detachment. It does not address environmental factors that apply to specific companies (such as MTOE, mission, particular training weaknesses and strengths, or the group/battalion commander's guidance).

c. By inserting an extra step into the training planning process, commanders apply the components of their unit CATS strategies to their particular training programs and environments. Commanders evaluate and apply the information contained in the strategies to their training environments. The optimal frequencies identified in the strategies may have to be adjusted based upon a unit's training status or its resourcing.

Section II. STRATEGY ORGANIZATION AND INTERPRETATION

A-6. UNIT TRAINING STRATEGIES. This paragraph explains the strategy organization and explains how to use it. The unit training portion of CATS is a series of separately generated training strategies. These strategies describe the events, frequencies, and resources recommended to train to standard. As part of the unit training strategy development process, TRADOC established a standard format to depict unit training strategies. The unit training strategy is a descriptive strategy for training and sustaining soldier and collective task proficiency. The tasks to be trained at a particular unit will be based on the unit's METL. The unit strategy in this appendix covers all transportation companies/units. The unit training strategies have three major components--Maneuver, Gunnery, and Soldier.

a. The Maneuver strategy is descriptive. It provides recommended training frequencies for collective training events in a unit. The events come from FM 25-100, 25-101 or the glossary of this MTP. It helps a unit maintain MTP standards and depicts the resources required to support training events.

b. The Gunnery Component has Individual/crew served weapons strategies that the Infantry school developed. These strategies also can be found in DA Pam 350-38 and DA Pam 350-39 or appropriate weapons FMs.

c. The Soldier Component is a descriptive strategy for training individual soldier skills. It lists the resources required to support soldier training and links with and supports a collective training strategy.

A-7. ELEMENTS OF THE UNIT STRATEGIES. The unit training strategies are in matrix formats. The matrix lists the unit size levels, training events or training exercises, training event frequencies for both the active and reserve components, critical gates, and training resources.

a. Training levels are units, training elements or echelons (such as individual through corps) that execute specific training events.

b. Training events are types of collective training exercises identified in FM 25-101 or the glossary of this MTP. Training events identify the recommended exercises that units should conduct to train to MTP standard. Units normally conduct events in a progressive and sequential manner. For example; a TEWT should be conducted before conducting a CFX. A CPX should be conducted before conducting a FTX.

c. Training event frequencies are the suggested number of times that an event should be trained during a training cycle to attain or maintain MTP standards. AC units use an annual cycle and RC units conduct training on a 4-year cycle.

d. A critical gate is a training event that must be done and evaluated before moving onto a more complex, resource intensive, or hazardous event. MACOM or field commanders may direct performance of critical gate training tasks to an established standard prior to performing more complex or resource intensive tasks.

e. The unit training strategies identify the resources that will be used to support each training event. These resources are:

- OPTEMPO
- Ammunition
- TADSS
- Training Land
- Training Ranges

The resources listed in the strategies represent those that are available now.

(1) OPTEMPO figures reflect the annual operating miles/hours required for the base vehicle or system for a particular unit, per event. The OPTEMPO figures come from the BLTM manual. When no BLTM was available, an estimated OPTEMPO required to support all the annual iterations of that training event; were developed by the proponents.

(2) Ammunition figures reflect the ammunition required to support training events and come from DA Pam 350-38, Standards in Weapons Training. The maneuver/collective strategies reflect blank ammunition requirements. Live ammunition appears on the Gunnery strategies. Pyrotechnics appear on the maneuver/collective component.

(3) TADSS are training aids, devices, simulators and simulations that support specific training events. TADSS listed are those in the system and non-system TADSS that are fielded. In this strategy, Battalion and BBS are identified as a primary TADSS to support battalion staff and headquarters company/detachment's CPX training.

(4) Training Land is a resource category that will list the recommended training land in kilometers by event to conduct maneuver training. The reference is TC 25-1. The actual amount of training land needed by a particular unit will be determined by METT-T and the characteristics or condition of the training land available to the unit.

(5) Training Range is a resource requirement that supports weapons training events. The information comes from TC 25-8.

A-8. GUIDE TO THE UNIT STRATEGIES. This paragraph provides a guide to reading the collective, gunnery, and soldier components.

a. We will use the Battalion Staff and Headquarters company/detachment as our example (Figure A-1).

(1) The top of the maneuver strategy lists the major training events. The order in which the events appear, from left to right, is not prescriptive. The events do follow a logical progression of how a unit might process through an annual training cycle. Explanations of these events are in FM 25-101 or the glossary of this MTP.

(2) On the left side of the maneuver strategy is the column titled levels. This column lists the units covered by the strategy. The strategy in this appendix addresses the Battalion Staff and Headquarters Company/detachment and the Battalion HHC. There is a separate row for AC and RC units. Each column depicts the recommended frequency that a unit should conduct a specific training event within a year. For example, look at the training event, STAFFEX. Here, the recommended frequency for an AC, battalion staff to conduct a STAFFEX is 12 times a year.

b. The M16 A1/A2 matrix will be used for the gunnery/weapon strategy example.

NOTE: Gunnery/weapon strategies in the MTP cover only branch specific weapon systems. Some units, like the battalion staff, will not have specific gunnery/weapon strategies.

(1) Gunnery/weapon strategies were developed by TRADOC schools that the STRAC manual identifies as the weapon's proponent. Because the Infantry branch is the proponent for the M16, the Infantry school developed this strategy and it applies to all branches.

(2) Training events are in the top position of the gunnery/weapon strategy. The levels or echelons that will train these tasks are on the left. On the M16 strategy, qualification for the M16 is conducted at the soldier level. The critical gates to be completed, before M16 qualification, are in FM 23-9. The unit commander will ensure that the soldier trains those requirements before moving on to qualification.

(3) Frequency depicts how often the tasks listed in the upper part of the strategy should be conducted annually. Per guidance provided in the STRAC manual, the frequency block for the M16 has two categories. Category I applies to soldiers with either an 11B or an 11M MOS assigned to an infantry rifle squad or a 19D or 11B assigned to a scout squad or long-range surveillance detachment. Category II applies to all combat arms, combat support and combat service support soldiers not assigned to rifle or infantry squads.

(4) These two categories are subdivided by TRC IAW the STRAC manual. They are: TRC A = AC Units, TRC L = Light Infantry, Air Assault and Airborne Units, TRC S = Special Reaction Teams (AC, MP Teams), TRC C = RC Units, TRC D = USAR Training Division, Reception Stations and Separate Training Brigades, and NGB Training Cadre.

(5) Training categories and training readiness conditions provide an all encompassing set of training frequencies. The M16 strategy recommends that a light infantry squad conduct three live fire exercises per year. The reserve component squads have no recommended frequency.

(6) OPTEMPO is not identified for M16 training.

(7) Figures for ammunition are per DA Pam 350-38 (STRAC). Qualification with the M16 requires 160 rounds of ball and 20 rounds of tracer ammunition per weapon per year.

c. The final component is the soldier strategy.

(1) The soldier strategy focuses on training common skills in a particular CMF or can be focused on a single MOS.

(2) Training events selected for the 88- are across the top of the strategy. The left column shows the recommended annual event frequency. The letter "A" represents AC soldiers. The letter "R" represents RC soldiers. Thus, in this example, the recommendation is for daily physical training for the active component 88- and monthly for the reserve component soldier.

Section III. INTEGRATION OF CATS IN THE PLANNING PROCESS

A-9. INTEGRATING CATS. This portion of the appendix explains how to integrate CATS into the planning process. It focuses on long range planning that conducted at brigade and above. To understand how CATS fits into this process, a brief summary of Chapter 3 (Planning) from FM 25-101 has been provided.

A-10. THE PLANNING PROCESS.

a. Long-range Planning.

(1) Assessment. Assessment is the start of the long range planning process. Using their evaluations, the input of subordinate leaders and the results of training evaluations, commanders assess their unit's training level on METL tasks. The assessment serves as the basis for the commander's training strategy for sustainment and improvement training. Commanders at all levels do this assessment function. An integral part of the assessment is the identification of required training resources and shortfalls. The commander also must synchronize the actions of supporting units and agencies to ensure proper training execution.

(2) In creating their training strategy, commanders ensure that training:

- Is METL focused.
- Incorporates combined arms.
- Identifies who, when, and where to train.
- Has a logical sequence of execution.
- Identifies the type of exercise to be trained.
- Determines the frequencies of a given task.
- Coordinates all events.
- Matches resources to requirements.

The strategy that meets these requirements results in the commander's training guidance.

(3) Senior commanders (brigade and above) provide subordinate commanders with long range training calendars, the commander's training guidance, resources to train, and protection from training distorters. Commanders often provide recommended training events frequency.

b. Short-range Planning. The short-range planning process refines the guidance that results from the long-range planning process. Subordinate commanders use this guidance to create their training calendars. Guidance on the short-range training process can be found in the CATS appendix in the unit's MTP.

A-11. CATS AND THE PLANNING PROCESS. The CATS serves the company commander as a training management and training resource identification tool. As a training management tool, it allows the company commander to more efficiently manage his training program, with limited resource availability. As a training resource identification tool, it identifies the resources within the Army's inventory to conduct training. The availability of those resources will vary, depending on your location.

a. Long-range Planning.

(1) Assessment.

(2) The CATS strategy--

- Is METL focused.
- Incorporates combined arms.
- Identifies who, when, and where to train.
- Has a logical sequence of execution.
- Identifies the type of exercise to be trained.
- Determines the frequencies of a given task.
- Coordinates all events.
- Matches resources to requirements.

(3) CATS provides a convenient vehicle for the transmission of the commander's training guidance. It serves as the basis for the long-range calendar. It provides subordinate commanders with recommended frequencies of training events.

(4) EXECUTION. The following example shows how CATS could fit into the long-range training process.

b. The Company/Detachment Maneuver Training Strategy lists the recommended frequencies for required annual training events. In particular, for the STX it lists 10 iterations. The optimal training frequency is for the company/detachment staff to train this event 10 times in a given year, 1 STX per month for 10 months. The frequencies listed in CATS would be trained as follows: 2 events per year--semiannual training; 4 events per year--quarterly training; 6 events per year--bimonthly training.

c. Naturally, the training year may not support such a neat breakdown of training events. CATS gives you the flexibility to adjust the events to meet your particular requirements. A key point here is the idea of critical gates. As you can see, STX is a critical gate for FTX. You should conduct any event that is a critical gate, before conducting the more complex task. Gates serve to ensure that basic tasks essential to the successful performance of complex tasks are trained and evaluated prior to the performance of complex tasks. Critical gates may also serve as a type of preview or "rehearsal" for a follow-on training event.

d. Assume that your commander has identified platoon leadership as a particular weakness in your unit. Your commander decides that he wants to run platoon STX exercises twice a month to train the platoon/section/crew/squad leadership elements.

e. Using this guidance you simply go the company strategy and substitute 24 for 12. If the frequencies for the other events are acceptable, you now have a completed commander's strategy. In this manner a CATS base strategy is tailored to meet a commander's assessment and training needs.

f. Short-range Planning. The application of CATS Battalion Staff and Headquarters Company/Detachment's unit training strategies to battalion short range planning and the battalion quarterly training calendar is seen as follows.

Recommended Company/Detachment
Calendar Using CATS Maneuver Strategy.

1ST MONTH

| | |
|--------|---------------------------------|
| WEEK 1 | Drill Training (1) |
| WEEK 2 | Cell/Staff/Section Training (1) |
| WEEK 3 | Cell/Staff/Section Training (1) |
| WEEK 4 | STX (2) |

NOTES:

1. The collective tasks trained during the weekly Cell/Staff/Section training periods support company METL tasks and are trained according to the commander's assessment and his priorities for staff training outlined in the CTG. Soldier training tasks trained during this month are soldier/leader supporting performance of the collective tasks to be trained during the weekly staff training sessions or the monthly STX.
2. Performance of the STX substitutes for Cell/Staff/Section Training in week four (4).

2ND MONTH

| | |
|--------|---------------------------------|
| WEEK 1 | Cell/Staff/Section Training (1) |
| WEEK 2 | Cell/Staff/Section Training (1) |
| WEEK 3 | TOCEX (2) |
| WEEK 4 | Cell/Staff/Section Training (3) |

NOTES:

1. Training during these weekly periods concentrates on staff METL tasks identified as priority in the CTG. Training time here could also be spent training tasks evaluated as NO GO during the 1st month's training period. Training exercises such as a LCXs or MCX can be used to drive training during these periods. LCXs and MCXs can also be used to enhance staff coordination.
2. Performance of the TOCEX substitutes for performance of the monthly STAFFEX that would be conducted here. Commanders may have to modify or extend the training period of the TOCEX to include training tasks that would have been normally performed in the STAFFEX.
3. Tasks trained here can be tasks rated as NO GO during the previous week's TOCEX.

3D MONTH

| | |
|--------|-----------------------------|
| WEEK 1 | Cell/Staff/Section Training |
| WEEK 2 | TEWT (1) |
| WEEK 3 | Cell/Staff/Section Training |
| WEEK 4 | CPX (2) |

NOTES:

1. This TEWT substitutes for performance of the Cell/Staff/Section training that would normally be performed this week. Ideally, the TEWTs discussion points and learning objectives would be

developed to support/reinforce collective tasks trained in the previous month's Cell/Staff/Section, STAFFEX OR TOCEX training periods. The commander may also structure the TEWT to train staff coordination and integration tasks as key for the upcoming CPX.

2. Substitutes for performance of the STAFFEX that would normally be performed during the month.

As seen in the above, the commander structures his training program using recommended CATS training events, frequencies and critical gates to support METL training. Weekly or monthly training events can be conducted independently or integrated into other collective training exercises.

In scheduling training, the commander should take maximum advantage of higher headquarters directed events to accomplish his recommended CATS training events.

g. Horizontal and Vertical Integration. In executing this training strategy, the commander vertically integrates his training requirements with the battalion's/group's training requirements. Additionally, the company's training strategy is horizontally integrated with other companies in the battalion to ensure that combined arms training is effected.

APPENDIX B

BATTLEFIELD OPERATING SYSTEMS

B-1. MANEUVER. The employment of forces on the battlefield through movement and direct fires in combination with fire support, or fire potential to achieve a position of advantage in respect to enemy ground forces in order to accomplish the mission. This includes direct fire systems (such as small arms, tank guns, and attack helicopter fires).

a. **Move.** To position or reposition forces (units and equipment) relative to the enemy to secure or retain positional advantage making full use of terrain and formation. It is the dynamic element of combat--the means of concentrating forces at the critical point to achieve the surprise, psychological shock, physical momentum, and moral dominance which enables smaller forces to defeat larger ones. Units supporting combat maneuver units are included since they are expected to go wherever the combat unit goes.

NOTE: Movement of cargo, equipment, and personnel is covered under the Combat Service Support BOS.

b. **Engage Enemy.** To enter into conflict or combat on the ground with the enemy using direct fire or close combat. Note: Air targets are covered in the Air Defense BOS.

c. **Control Terrain.** To dominate an area to prevent enemy occupation of the position through fire, fire potential, or occupation of the terrain.

B-2. FIRE SUPPORT. The collective and coordinated use of target acquisition data, indirect fire weapons, armed aircraft (less attack helicopters) and other lethal and nonlethal means against ground targets in support of maneuver force operations (FM 6-20). It includes artillery, mortar and other non line-of-sight fires, naval countermeasures.

a. **Process Ground Targets.** To select targets and match the appropriate response to them, taking account of operational requirements and capabilities.

b. **Engage Ground Targets.** To enter into conflict with the enemy using fire support systems.

B-3. AIR DEFENSE. All measures designed to nullify or reduce the effectiveness of attack by hostile aircraft or missiles after they are airborne (FM 44-100).

a. **Process Air Targets.** To select targets and match the appropriate response to them, taking account of operational requirements and capabilities.

b. **Attack Enemy Aircraft.** To intercept, engage, destroy or neutralize enemy aircraft and missiles in flight.

c. **Deny Airspace.** To prevent enemy use of airspace through fire potential or other means without direct attack of air targets (for example, deliberate smoke, barrage balloons).

B-4. COMMAND AND CONTROL. The exercise of authority and direction by a properly designated commander over assigned forces in the accomplishment of the mission. Command and control functions are performed through an arrangement of personnel, equipment, facilities, and procedures employed by a commander in planning, directing, coordinating, and controlling forces and operations in the accomplishment of the mission.

a. **Acquire and Communicate Information and Maintain Status.** To gain possession of information, on the METT-T and weather, by or for the commander or his staff. Information must be translated into usable form in order to retain and disseminate it.

b. **Assess Situation.** To continuously evaluate information received through reports or the personal observations of the leader or commander to decide whether different actions are required from those that would result from the most recent orders issued.

c. **Determine Actions.** To conduct the continuous process of making estimates and decisions for assigned or projected tasks. This function involves a detailed and systematic examination of all aspects of contemplated operations including deciding to alter planned or ongoing actions. This function also includes the formulation of the commander's concept and intent.

d. **Direct and Land Subordinate Forces.** To provide direction to subordinate forces so that they understand and can contribute effectively and efficiently to the attainment of the commander's concept and intent. This function includes the preparation and completion of orders.

B-5. INTELLIGENCE. Knowledge of the enemy, weather, and geographical features are required by a commander in order to plan and conduct combat operations. It is derived from an analysis of information on the enemy's environments (FM 101-5-1).

a. **Collect Information.** To obtain information in any manner possible way he can.

b. **Process Information.** To convert information into intelligence thought through collation, evaluation, analysis, integration, and interpretation.

c. **Prepare Intelligence Reports.** To develop and produce standard reports and IPB products for the commander's use the report intelligence or information, to task intelligence assets, or to receive information, intelligence orders, or instructions.

B-6. MOBILITY AND SURVIVABILITY. The capability of the force, which permits freedom of movement relative to the enemy while retaining the ability, to fulfill its primary mission. It also includes those measures that the force takes to remain viable and functional by protection from the effects of enemy weapon systems and natural occurrences.

a. **Provide Mobility.** To provide freedom of movement, without delays due to terrain obstacles, for personnel and equipment on the battlefield.

b. **Provide Countermobility.** To delay, channel, or stop offensive movement by the enemy in order to destroy his forces directly or indirectly by enhancing the effectiveness of friendly indirect and direct weapon systems.

c. **Enhance Survivability.** To protect personnel, equipment, and supplies from enemy systems and natural occurrences, while simultaneously deceiving the enemy.

B-7. COMBAT SERVICE SUPPORT. The support and assistance provided to sustain forces, primarily in the fields of logistics, personnel services, and health services.

a. **Arm.** To provide munitions to weapon systems. This encompasses all types of ammunition to include mines and demolition munitions.

b. **Fuel.** To provide fuel and petroleum products (petroleum, oils, and lubricants) for weapon systems and other equipment.

c. **Fix.** To preserve the availability of weapon systems and equipment. It includes providing repair parts and end items at the right place and time, and all the actions taken before, during, and after battle to keep equipment operational.

d. **Man the Force.** To provide all support to the individual soldier as well as provide healthy, fit soldiers to units.

e. **Distribute.** To provide, by employing transportation and supply services, various classes of supplies to military units.

f. **Provide Sustainment Engineering.** To repair and construct facilities and lines of communications.

g. **Provide Military Police Support.** To provide enemy prisoner of war collection, evacuation and internment, and to enforce military law and order.

GLOSSARY

| | |
|----------------|---|
| AA | assembly area |

QUESTIONNAIRE**MISSION TRAINING PLAN (MTP) USER FEED**

User feedback is an important link in the process of improving training publications. Your recommendations are requested to improve this training publication. To make it easier to make recommendations, a standard questionnaire has been provided. Please answer all questions frankly and mail to Commander, USACASCOM, Training Directorate, ATTN: ATCL-AT, Fort Lee, VA 23801-6000.

MTP NUMBER _____ DATE _____

MTP TITLE _____

THE FOLLOWING QUESTIONS PERTAIN TO YOU:

1. What is your position (CO, Plt Sgt. etc.)? _____
2. How long have you served in this position? _____
3. How long have you served in this unit? _____
4. What is your component? _____
5. What is your unit?

| | |
|--------------------------|------------|
| A. CONUS | B. USAREUR |
| C. WESTCOM | D. 8TH USA |
| E. Other (specify) _____ | |

THE FOLLOWING QUESTIONS ARE ABOUT THE MTP IN GENERAL:

6. How do you feel this document has affected training in your unit when compared to other training products?

A. Has made training worse. _____

B. Has made training better. _____

C. Has had no effect on training. _____

D. Do not know or do not have an opinion. _____

7. How easy is the document to use, compared to other training products?

A. More difficult. _____

B. Easier. _____

C. About the same. _____

D. Do not know or do not have an opinion. _____

8. What part of the MTP document was least useful?

A. Chapter 1, Unit Training. _____

B. Chapter 2, Training Matrix. _____

C. Chapter 3, Mission Outline. _____

D. Chapter 4, Training Exercises. _____

E. Chapter 5, Training and Evaluation Outlines. _____

F. Chapter 6, External Evaluation. _____

G. Do not know or do not have an opinion. _____

9. What part of the MTP document was most useful?

A. Chapter 1, Unit Training. _____

B. Chapter 2, Training Matrix. _____

C. Chapter 3, Mission Outline. _____

D. Chapter 4, Training Exercises. _____

E. Chapter 5, Training and Evaluation Outlines. _____

F. Chapter 6, External Evaluation. _____

G. Do not know or do not have an opinion. _____

10. What is the most difficult part of the MTP to understand?

A. Chapter 1, Unit Training. _____

B. Chapter 2, Training Matrix. _____

C. Chapter 3, Mission Outline. _____

D. Chapter 4, Training Exercises. _____

E. Chapter 5, Training and Evaluation Outlines. _____

F. Chapter 6, External Evaluation. _____

G. Do not know or do not have an opinion. _____

11. What is the easiest part of the MTP to understand?

A. Chapter 1, Unit Training. _____

B. Chapter 2, Training Matrix. _____

C. Chapter 3, Mission Outline. _____

D. Chapter 4, Training Exercises. _____

E. Chapter 5, Training and Evaluation Outlines. _____

F. Chapter 6, External Evaluation. _____

G. Do not know or do not have an opinion. _____

THE FOLLOWING QUESTIONS PERTAIN TO THE TRAINING EXERCISES: STX AND FTX.

12. The exercises are designed to prepare the unit to accomplish its wartime mission. In your opinion, how well do they fulfill this intended purpose?

A. They do not prepare the unit at all. _____

B. They help but only provide 20 percent or less of my unit's training requirements. ____

C. They help but only provide 21 to 50 percent of my unit's training requirements.

D. They help but only provide 51 to 80 percent of my unit's training requirements.

E. They provide 81 percent or more of my unit's training requirements.

13. Would you recommend that any STX or FTX be added or deleted from the MTP (specify FTX or STX)?

14. What was the greatest problem you experienced with the exercises?

A. Too many pages. _____

B. Hard to read and understand. _____

C. Needs more illustrations. _____

D. Needs more information on how to set up the exercises. _____

E. Needs more information on leader training. _____

F. Needs more information on how to conduct the exercises. _____

G. Needs more information on support and resources. _____

H. Needs more information on normally attached elements.

I. Does not interface well with other training products, such as battle drills. _____

J. Do not know or do not have an opinion. _____

15. What was the second greatest problem you experienced with the exercises?

A. Too many pages. _____

B. Hard to read and understand. _____

C. Needs more illustrations. _____

D. Needs more information on how to set up the exercises. _____

E. Needs more information on leader training. _____

F. Needs more information on how to conduct the exercises. _____

G. Needs more information on support and resources. _____

H. Needs more information on normally attached elements. _____

I. Does not interface well with other training products. _____

J. Do not know or do not have an opinion. _____

16. How many STXs or FTXs have you trained personnel in or participated in personally?

THE FOLLOWING QUESTIONS APPLY TO CHAPTERS 5 AND 6 OF THE MTP:

17. What changes would you make to Chapter 5, Training and Evaluation Outlines?

A. Leave it out. _____

B. Clarify how to use this chapter with the training exercises. _____

C. Clarify how to use this chapter without the training exercises. _____

D. The standards are too detailed. _____
