**1. General.** This bulletin for Barge, Refrigerator, Nonpropelled, Design 7010, is intended as an aid identification, procurement, requisitioning, assembly storage and issue of operating equipment, operating supplies, on board repair parts, and accessory items aboard the vessel.

b. The Boat Set will be issued initially complete by TROSCOM

c Requisitions for replacement of component items will be submitted to the managing activity having issue responsibility.

d When watercraft is transferred or returned to an inactive status, the boat set will be completed and turned in with the vessel.

**2. Format of Technical Bulletin.** This bulletin is divided into the following:

a. *Section I - Operating Equipment* This section

lists equipment necessary for the operation of the vessel exclusive of accessory equipment.

b. *Section II - Operating Supplies.* This section lists operating supplies which are consumed in use, exclusive of repair parts. They are required for the operation, maintenance, health and welfare of the crew.

c *Section III - On Board Repair Parts.* This section lists repair parts issued and required on board the vessel at all times when on active status. Due to configuration differences, it will be necessary to reflect hull numbers where differences exist.

d *Section IV - Accessory Items* This section lists accessory equipment on board which are installed by the manufacturer or by the issuing Agency and are considered as a part of the basic configuration of the vessel.

THIS PUBLICATION IS A COURTESY QUICK COPY FROM THE UNITED STATES ARMY PUBLICATIONS DISTRIBUTION CENTER, ST. LOUIS, MISSOURI, TO MEET YOUR NEEDS WHILE WE REPLENISH OUR REGULAR STOCK.

3. Excess Items. This bulletin does not constitute authorization for excessing or disposing of any operating equipment, supplies or on board spare parts which are currently on board or marked for this vessel. Excess items will be exhausted by normal attrition.

4. Composition of Technical Bulletin. The component listing within each section is in alphabetical sequence by item name and contains the following data:

a. *National Stock Number (NSN)*. A number listed in this publication for use in all supply operations.

b. *Description* The item descriptions included are listed in alphabetical sequence by item name, with additional descriptive information required for identification:

(1) Manufacturer's code, part numbers and/or the applicable specification references.

(2) Pertinent information and notes applicable to the set follow the last component.

c. *Quantity Per Set (QTY)*. This column lists the quantities of each component authorized.

d. *Expendability-Recoverability Code (REC)*. This one-digit code indicates the method or condition under which the repair parts can be recovered. Absence of a code indicates the item is expendable. Codes that appear are defined as follows:

Codes	Definition
Z	Non-reparable item. When unserviceable condemn and dispose at the level indicated by source, maintenance, and recoverability code.
O	Reparable item. When uneconomically repairable, condemn and dispose at organizational level.
F	Reparable item. When uneconomically repairable, condemn and dispose of at the following intermediate levels: USA -- Intermediate USA -- Direct Support USN -- Afloat USMC -- Third Echelon
H	Reparable item. When uneconomically repairable, condemn and dispose at the following levels: USAF - Intermediate USA - General Support USN- Ashore USMC - Fourth Echelon Safeguard Program, Code F, will be used to denote intermediate level. On joined programs, use of either Code F or H by the joining service will denote intermediate level of USAF and the USA Safeguard Programs.
D	Reparable item. When beyond lower level repair capability, return to depot. Condemnation and disposal not authorized below depot level.

L ..... Repairable item. Repair, condemnation and disposal not authorized below depot/specialized repair activity level.

A ..... Item requires special handling or condemnation procedures because of specific reasons (i.e., precious metal content, high dollar value, critical material or hazardous material) Refer to appropriate manuals/directives for specific instructions.

5. Special Instructions. Electronic and Communication. Equipment Requirements for this vessel are not contained in this bulletin, but are contained in the following publications: TB 434117 and SB 116.
