REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS

You can help improve this manual. If you find any mistakes, or if you know of a way to improve these procedures, please let us know. Mail your letter or DA Form 2028 (Recommended Changes to Publications and Blank Forms), or DA Form 2028-2 located in the back of this manual directly to: Commander, US Army Aviation and Troop Command, ATTN: AMSAT-I-MP, 4300 Goodfellow Blvd., St. Louis, MO 63120-1798. You may also submit your recommended changes by E-mail directly to <mpmt%avma28 @ st-louis-emh7.army.mil>. A reply will be furnished directly to you. Instructions for sending an electronic 2028 may be found at the back of this manual immediately preceding the hard copy 2028.

INTRODUCTION

1-1. General

- a. This bulletin for Repair Shop, Floating, Marine Equipment Design 7011, is intended as an aid in identification, procurement, requisitioning, assembly, storage, and issue of operating equipment, operating supplies, onboard repair parts, and accessory items aboard the vessel.
- b. The Boat Set will be issued initially complete by ATCOM.
- c. Requisitions for replacement of component items will be submitted to the managing activity having issue responsibility.
- d. When watercraft is transferred or returned to inactive status, the Boat Set will be complete and turned in with the vessel.

1-2. Format of Technical Bulletin. See Table of Contents.

1-3. Excess Items. This technical bulletin does not constitute authorization for excessing or disposing of any operating equipment or supplies or onboard spare parts which are currently on board or marked for this vessel. Excess items will be exhausted by normal attrition.

1-4. Composition of Technical Bulletin. The component listing within each section is in alphabetical sequence by item name and contains the following data:

- a. *National Stock Number (NSN).* A number listed in this publication for use in all supply operations.
- b. *Description.* The items description induced are listed in alphabetical sequence by item name, with additional descriptive information required for identification:
 - (1). Manufacturer's Code, part numbers and/or the applicable specification references.
 - (a). Pertinent information and notes applicable to the set follow the last component.
- c. *Quantity (QTY RQR).* This column lists the quantities of each component authorized.

Appendix B
COMPONENTS OF END ITEM (COEI) AND
BASIC ISSUE ITEMS (BII) LISTS

Section I. INTRODUCTION

B-1. Scope. This appendix lists components of the end item and basic issue items for the Floating Machine Shop (FMS) to help you inventory the items required for safe and efficient operation of the equipment.

B-2. General. The Components of End Item and Basic Issue Items (BII) Lists are divided into the following sections:

a. Section II, Components of End Item. This listing is for informational purposes only, and is not authority to requisition replacements. These items are part of the end item, but they are to be removed and separately packaged for transportation or shipment. As part of the end item, these items must be with the end item whenever it is issued or transferred between property accounts.

b. Section III, Basic Issue Items. These are the minimum essential items required to place the Floating Machine Shop in operation to operate it, and to perform emergency repairs. Although shipped separately packaged, BII must be with the Floating Machine Shop during operation and when it is transferred between property accounts. This list is your authority to request/requisition replacement BII based on authorization of the end item by the TOE/MTOE.

B-3. Explanation of Columns. The following provides an explanation of columns found in the tabular listings:

- c. Column (1), Item Number for reference.
- d. Column (2), National Stock Number, identifies the stock number of the item to be used for requisitioning purposes.
- e. Column (3), Description, identifies the Federal Item Name (in all capital letters) followed by a minimum description when needed. The last line below the description is the CAGEC (Commercial And Government Entity Code) (in parenthesis) and the part number.

If the item you need is not the same for different models of the equipment, usable on information will appear in the description column.

f. Column (4). Unit of Measure (U/M). Indicates the measure used in performing the actual operational / maintenance function. This measure is expressed by a two-character alphabetical abbreviation (e.g., ea, in, pr).

g. Column (5), Qty Rqr, indicates the quantity of the item authorized to be used with / on the equipment.

Section II. COMPONENTS OF END ITEM Part I.

Appendix C. ADDITIONAL AUTHORIZATION LIST (AAL)

Section I. INTRODUCTION

C-1. SCOPE

This appendix lists additional items you are authorized for the support of the Floating Machine Shop (FMS).

C-2. GENERAL

This list identifies items that do not have to accompany the FMS and that do have to be turned in with it. These items are all authorized to you by CTA, MTOE, TDA, OR JTA.

C-3. EXPLANATION OF LISTING

National stock numbers, descriptions, and quantities are provided to help you identify and request the additional items you require to support this equipment. The items are listed in alphabetical sequence by item name under the type document (i.e., CTA, MTOE, TDA, OR JTA) which authorizes the item(s) to you.

Appendix D. EXPENDABLE/DURABLE SUPPLIES AND MATERIALS LIST (EDSML)

Section I. INTRODUCTION

D-1. SCOPE

This appendix lists expendable durable supplies and materials you will need to operate and maintain the Floating Machine Shop (FMS). This listing is for informational purposes only and is not authority to requisition the listed items. These items are authorized to you by CTA 50-970, Expendable/Durable Items (Except Medical, Class V, Repair Parts, and Heraldic Items), or CTA 8-1 00, Army Medical Department Expendable/Durable Items.

D-2. EXPLANATION OF COLUMNS

- a. Column 1. Item number. This number is assigned to the entry in the listing and is referenced in the narrative instructions to identify the item (e.g. "Use cleaning compound, item 5, Appendix D".)
- b. Column 2. Level. This column identifies the lowest level of maintenance that requires the item.
 - C - Operator/crew
 - O - Unit maintenance
 - F - Direct support maintenance
 - H - General support maintenance
- c. Column 3. National stock number. This is the national stock number assigned to the item; use it to requisition the item.
- d. Column 4. Description. Indicates the Federal item Name and, if required, a description to identify the item. The list line for each item indicates the Commercial and Government Entity (CAGE) Code in parentheses followed by the part number.
- e. Column 5. Unit of measure. Indicates the measure used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical abbreviation (e.g., ea, in, pr). If the unit of measure differs from the unit of issue that will satisfy your requirements.

By Order of the Secretary of the Army:

JOEL B. HUDSON
*Acting Administrative Assistant to the
Secretary of the Army*
00672

DENNIS J. REIMER
*General, United States Army
Chief of Staff*

DISTRIBUTION:

To be distributed in accordance with DA Form 12-25-E, block no. 3006, requirements for TB 55-1935-203-12.

These are the instructions for sending an electronic 2028

The following format must be used if submitting an electronic 2028. The subject line must be exactly the same and all fields must be included; however only the following fields are mandatory: 1,3, 4, 5, 6, 7, 8, 9,10,13,15,16, 17,and 27.

From: "Whomever" -<whomever@avma27.army.mil>

The Metric System and Equivalents

Linear Measure

1 centimeter = 10 millimeters = .39 inch
 1 decimeter = 10 centimeters = 3.94 inches
 1 meter = 10 decimeters = 39.37 inches
 1 dekameter = 10 meters = 32.8 feet
 1 hectometer = 10 dekameters = 328.08 feet
 1 kilometer = 10 hectometers = 3,280.8 feet

Weights

1 centigram = 10 milligrams = .15 grain
 1 decigram = 10 centigrams = 1.54 grains
 1 gram = 10 decigram = .035 ounce
 1 dekagram = 10 grams = .35 ounce
 1 hectogram = 10 dekagrams = 3.52 ounces
 1 kilogram = 10 hectograms = 2.2 pounds
 1 quintal = 100 kilograms = 220.46 pounds
 1 metric ton = 10 quintals = 1.1 short tons

Liquid Measure

1 centiliter = 10 milliliters = .34 fl. ounce
 1 deciliter = 10 centiliters = 3.38 fl. ounces
 1 liter = 10 deciliters = 33.81 fl. ounces
 1 dekaliter = 10 liters = 2.64 gallons
 1 hectoliter = 10 dekaliters = 26.42 gallons
 1 kiloliter = 10 hectoliters = 264.18 gallons

Square Measure

1 sq. centimeter = 100 sq. millimeters = .155 sq. inch
 1 sq. decimeter = 100 sq. centimeters = 15.5 sq. inches
 1 sq. meter (centare) = 100 sq. decimeters = 10.76 sq. feet
 1 sq. dekameter (are) = 100 sq. meters = 1,076.4 sq. feet
 1 sq. hectometer (hectare) = 100 sq. dekameters = 2.47 acres
 1 sq. kilometer = 100 sq. hectometers = .386 sq. mile

Cubic Measure

1 cu. centimeter = 1000 cu. millimeters = .06 cu. inch
 1 cu. decimeter = 1000 cu. centimeters = 61.02 cu. inches
 1 cu. meter = 1000 cu. decimeters = 35.31 cu. feet
