a. Allison

1. **Warranty Period.** The warranty start date is 3 months from date indicated in Block 3 of the DD Form 250 and expires 24 months from that date, unless a failure occurs within the first 3 months from DD250 date, that failure date then becomes the warranty start date and expires 24 months later. It does not cover accident damage, misuse, alterations, damage due to lack of maintenance or use of fluids not recommended, normal maintenance such as filters, screens, and fluids, repairs by unauthorized dealers, and use of other than Allison transmission parts. The warranty includes the transmission, ECU and Shift Selector.

2. **Coverage.** Repairs or replacement, at Allison's option, to correct any transmission malfunction resulting from defects in material or

workmanship during the warranty period. All repairs will be performed using the method Allison determines most appropriate under the circumstances. Labor costs for the removal and reinstallation of the transmission are covered when necessary to make a repair. An authorized Allison distributor must perform all warranty repairs.

3. **Towing.** Towing to the nearest Allison Distributor or authorized Dealer is covered only when necessary to prevent further transmission damage. Field service is provided under this warranty. If the vehicle can be driven, at Allison's request, they may require the vehicle be delivered to the nearest authorized repair center within a reasonable amount of time. Both warranties cover genuine Caterpillar components only; this is not a dressed engine warranty.

2. **Towing.** The user must deliver the vehicle to the nearest Caterpillar dealer. If the vehicle is not in driving condition, Caterpillar will pay for towing.

3. **Procedure.** After submittal of warranty request to TVSLP, a Notification of Failure will be submitted to the nearest authorized Caterpillar dealer. The dealer is requested to contact the WARCO to arrange for warranty evaluation. The customer must provide access to electronic data stored in the ECU and the engine must remain in the vehicle.

a. Allison

1. Warranty Period. The warranty start date is 90 days from the date indicated in Block 3 of the DD Form 250 and expires 24 months from that date, unless the vehicle is placed in service prior to the 90 days. When placed into service prior to the 90 days, then the actual in-service date becomes the warranty start date. It does not cover accident damage, misuse, alterations, or damage due to lack of maintenance, use of fluids not recommended, normal maintenance such as filters, screens, and fluids, repairs by unauthorized dealers, and use of other than Allison transmission parts. This warranty includes the transmission, ECU and shift selector.

2. Coverage. Repairs or replacement, at Allison's option, to correct any transmission malfunction resulting from defects in material and workmanship during the warranty period. All repairs will be performed using the method

Allison determines most appropriate under the circumstances. Labor costs for the removal and reinstallation of the transmission are covered when necessary to make a repair. An authorized Allison Distributor must perform all warranty repairs.

3. Towing. Reasonable towing (i.e., motor pool to Dealer, hazard free area, etc.) to the nearest Allison Distributor or authorized Dealer is covered only when necessary to prevent further transmission damage. Field service is provided under this warranty. If the vehicle can be driven, at Allison's request, they may require the vehicle be delivered to the nearest authorized repair center within a reasonable amount of time. A reasonable amount of time must be allowed for the repair center to perform repairs.

TB 9-2300-426-15

4. Procedure. Unit will submit a DA Form 2407 or DA Form 5504 to their WARCO for submittal to TVSLP for warranty consideration.

b. Caterpillar

1. Warranty Period. The warranty period is 36 months or 150,000 miles and begins with shipment of the vehicle from TVSLP. This is a worldwide warranty to U.S. military FMTV trucks. In addition, Caterpillar provides the 60 month, 100,000 mile emissions warranty for vehicles operating in the United States. Both warranties cover genuine Caterpillar components only; this is not a dressed engine warranty. Accident damage, misuse, alterations, or damage due to lack of maintenance, use of fluids not recommended, normal maintenance such as filters, screens, and fluids, repairs by unauthorized dealers, and use of other than Caterpillar engine parts are not covered by this warranty

2. Coverage. Repair or replacement, at Caterpillar's option, to correct any engine malfunction resulting from defects in material and workmanship during the warranty period. All repairs will be performed using the method Caterpillar determines most appropriate under the circumstances. Labor costs for the removal and reinstallation of the engine are covered when necessary to make a repair. An authorized Caterpillar Dealer must perform all warranty repairs. The engine must remain in the vehicle and historical ECM codes must be made available to Caterpillar.

3. Towing. The user must deliver the vehicle to the nearest Caterpillar Dealer. If the vehicle is not in driving condition, as determined by Caterpillar, Caterpillar will pay for reasonable towing (i.e., motor pool to Dealer, hazard free area, etc.) for the first 12 months of the warranty period.

4. Procedure. Unit will submit a DA Form 2407 or DA Form 5504 to their WARCO for submittal to TVSLP for warranty consideration.

5. Emissions Warranty Parts Covered. Camshaft Assembly, Electronic Control Module (ECM), Fuel Injectors, Intake Manifold Gasket, Turbocharger. (See Table 1. Supplier Summary Section for part numbers.)

c. Michelin

1. Warranty Period. The warranty is 5 years from the date of tire manufacture, or the life of the original usable tread down to 2/32nds of an inch of tread remaining. The date of manufacture is determined from the "DOT" number on the lower side above the bead. It will end in "X" and 4 numerics. The numerics represent the week and year of manufacture (i.e., "4804" = 48th week of 2004)

2. Coverage. The user must pay for the cost of a new tire on a pro-rata basis calculated by multiplying the current negotiated TACOM replacement price or the Government Open Market price, whichever is applicable, by the percentage of usable tread. This warranty does not include any mounting, balancing or other charges.

3. Procedure. Unit will submit a DA Form 2407 or DA Form 5504 to their WARCO for warranty consideration. During the first 2 years of vehicle warranty, the WARCO will address all claims to TVSLP under the Material and Workmanship Warranty. Upon expiration of the Material and Workmanship Warranty, the WARCO will address all claims to the Michelin Government Sales Department at webtruck@us.michelin.com.

6. Ohio Casting Produced Parts (Vehicle S/N Range 100001 – 100050). Warranty Period for Ohio Casting produced parts installed in above listed vehicles is sixty (60) months from DD250 date. Follow the instructions in paragraphs 3.b. to submit a claim for these components. When the cost of the part and labor combined is \$300.00 or more total value, follow paragraph 4. Material and Workmanship Warranty. If the vehicle is outside of the Material and Workmanship Warranty, TVSLP will provide replacement material to complete Government repair.
