CHANGE  
NO.3

HEADQUARTERS  
DEPARTMENT OF THE ARMY  
Washington D.C., 28 December 1990

DIRECT SUPPORT AND GENERAL SUPPORT MAINTENANCE  
REPAIR PARTS AND SPECIAL TOOLS LIST  
(INCLUDING DEPOT MAINTENANCE REPAIR PARTS AND SPECIAL TOOLS)

HULL AND RELATED COMPONENTS  
USED ON  
HOWITZER, HEAVY, SELF-PROPELLED: 8-INCH, MI 1 0A2  
(2350-01-041-4590)

CURRENT AS OF 24 FEBRUARY 1989

TM 9-2350-304-34P-1, 1 July 1980, is changed as follows:

1. Remove and insert new pages as indicated below to reflect addition of Secure Lighting:

Remove pages

Insert pages

53 thru 60

53 thru 60

63 thru 76

63 thru 76

351 thru 372

351 thru 372

375 thru 388

375 thru 388

391 thru 401

391 thru 401/402 blank

2. New or changed material is indicated by a vertical change bar in the margin.
3. Retain this sheet in front of manual for reference.

By Order of the Secretary of the Army:

**CARL E. VUONO**  
*General, United States Army*  
*Chief of Staff*

Official:

**JOHN A. FULMER**  
*Colonel, United States Army, Acting*  
*The Adjutant General*

Distribution:

To be distributed in accordance with DA Form 12-37-E, Block 1644, Direct Support and General Support maintenance requirements for TM 9-2350-304-34P-1.

DIRECT SUPPORT AND GENERAL SUPPORT MAINTENANCE  
REPAIR PARTS AND SPECIAL TOOLS LIST  
(INCLUDING DEPOT MAINTENANCE REPAIR PARTS AND SPECIAL TOOLS)

HULL AND RELATED COMPONENTS  
USED ON  
HOWITZER, HEAVY, SELF-PROPELLED: 8-INCH, M1 10A2  
(2350-01-041-4590)  
TM 9-2350-304-34P-1, 1 July 1980, is changed as follows:

1. Remove old pages and insert new pages as indicated below:

2. New or changed material is indicated by a vertical bar in the margin.
3. Change 2 incorporates pertinent 2028 changes.
4. Retain these sheets in front of manual for reference.

By Order of the Secretary of the Army:

Official:

**JOHN A. WICKHAM, JR**  
*General, United States Army*  
*Chief of Staff*

**DONALD J. DELANDRO**  
*Brigadier General United States Army*  
*The Adjutant General*

Distribution:

To be distributed in accordance with DA Form 12-37, Direct and General Support Maintenance requirements for Howitzer, Heavy, 8-inch M110A2.

351 thru 400	351 thru 401

2. Change 1 incorporates PIP Kit 5 and other product improvements.

3. PIP Kit 5 changes include the following new items: a suspension isolation system, a driver's exterior warning light, a hydraulic system filter indicator light, and a hydraulic pump relief valve. Other changes include the following product improvements: parking brake system, driver's hatch torsion bar, adjustable gunner's seat, projectile stowage racks, elevating and traversing clutches, lockout cylinders, and hydraulic motor drain lines. In addition to PIP Kit 5 changes listed above, the following product improvements have been incorporated in new production vehicles: auxiliary driver control rod and road wheel lubrication which has been changed from oil to grease. Vehicles not updated by PIP Kit 5 and product improvement changes are identified as "O" vehicles and those that have been updated by PIP Kit 5 and product improvement changes are identified as "N" vehicles.
4. A new engine has been introduced and may be used in either "O" or "N" vehicles. The new engine and related parts are identified by Engine Model Number 7083-7395 and the old engine and related parts by Engine Model Number 70837398.
5. Retain these sheets in front of manual for reference.

**REPORTING OF ERRORS**

You can improve this manual by recommending improvements using DA Form 2028 (Recommended Changes to Publications and Blank Forms) or DA Form 2028-2 located in the back of the manual and mailing the form direct to Commander, US Army Tank-Automotive Materiel Readiness Command, ATTN: DRSTA-MB, Warren, MI 48090. A reply will be furnished direct to you.

0306 Fuel lines and fittings (low pressure) couplings to fuel cells .....	28	13
0311 Fuel and purge-and-prime lines and fittings (engine model 7083-7398).....	30	14
0311 Fuel and purge-and-prime lines and fittings (engine model 7083-7395).....	30.1	14A
0312 Throttle and accelerator controls and linkage (driver's compartment) .....	31	15
0312 Throttle and accelerator controls and linkage (engine compartment) .....	32	16
<b>Group 04 Exhaust System</b>		
0401 Exhaust system (engine model 7083-7398).....	34	17
0401 Exhaust system (engine model 7083-7395).....	35	17A
<b>Group 05 Cooling System</b>		
0501 Radiator and related parts.....	36	18
0501 Radiator support beam and related parts.....	38	19
0501 Surge tank and related parts .....	39	20
0503 Cooling system hoses, pipes and related parts .....	40	21
0503 Aeration detector .....	42	22
0505 Cooling system fan, tensioner and related parts .....	44	23
0505 Cooling fan assembly - 10956561 .....	46	24
<b>Group 06 Electrical System</b>		
0601 Generator and cooling air intake system .....	48	25
0602 Voltage regulator and related parts .....	50	26
0603 Starter relay and related parts .....	51	27
0606 Neutral position switch and related parts .....	52	28
0607 Driver's instrument panels installation.....	53	29
0607 Driver's instrument panel assembly (switch) - 10898510 .....	54	30
0607 Driver's instrument panel assembly (gauge and indicator) - 10892415 .....	56	31
0607 Indicator light assembly - 11592992 .....	58	32
0607 Indicator light assembly - 8376500 .....	59	33
0607 Air box heater controls bracket assembly .....	60	34
0608 Miscellaneous electrical components.....	61	35
0608 Electrical accessories panel assembly - 11675629 .....	62	36
0609 Headlamp, dome light and stop light-tailight installation .....	64	37
0609 Left vehicular stoplight-tailight assembly - 8378785 .....	66	38
0609 Right vehicular stoplight-tailight assembly -8378786 .....	68	39
0609 Right vehicular stop light-tailight assembly - 8378786.....	70	40
0609 Dome light assembly - 7064671.....	72	41
0610 Sending units, warning switches and light .....	74	42
0610 Low engine coolant warning light assembly - 11675565.....	76	43
0611 Audible warning horn and related parts.....	77	44
0612 Batteries, electrical leads and related parts .....	78	45
0613 Electrical wiring installation attaching hardware .....	80	46
0613 Electrical wiring - hull forward .....	82	47
0613 Electrical wiring - hull aft .....	86	48
0613 Suspension lockout system warning light and horn ground electrical lead - 10892526 .....	87	49
0613 Line connection to right headlamp disconnect wiring harness - 10901827 .....	88	50
0613 Trailer receptacle assembly to disconnect wiring harness - 10901829 .....	89	51
0613 Battery to circuit breaker electrical lead - 10901835 .....	90	52
0613 Gages and lights disconnect to instrument panel wiring harness - 10901838 .....	91	53
0613 Bulkhead disconnect to generator armature electrical lead - 10901840 .....	92	54
0613 Bulkhead disconnect to starter electrical lead - 10901842 .....	93	55
0613 Bulkhead to bulkhead generator circuit electrical lead - 10901844.....	94	56
0613 Bulkhead disconnect to voltage regulator assembly wiring harness - 10901852 .....	96	57
0613 Circuit breaker to bulkhead disconnect wiring harness - 10901853 .....	98	58
0613 Floor disconnect to bulkhead disconnect wiring harness -10901855 .....	99	59
0613 Bulkhead disconnect to magnetic clutch electrical lead - 10901856 .....	100	60
0613 Hull disconnect, interphone amplifier to bulkhead disconnect and driver's control box wiring harness - 10908425 .....	101	61
0613 Bulkhead disconnect to instrument panel switches wiring harness - 10914680 .....	102	62
0613 Blower to ground electrical lead - 10914828 .....	103	63
0613 Horn to warning relay wiring harness - 10919885 .....	104	64
0613 Generator control circuits to bracket disconnect wiring harness - 10919889 .....	105	65
0613 Bulkhead disconnect to driver's controls wiring harness - 12254061 .....	106	66
0613 Engine warning lights circuits to bulkhead disconnect wiring harness - 10919945 .....	108	67
0613 Disconnect to forward air cleaner blower motor electrical lead - 10934867 .....	109	68
0613 Lighting switch to vehicle accessories and disconnect wiring harness - 11592728 .....	110	69
0613 Battery to bulkhead disconnect electrical lead - 11592730 .....	112	70

	Page	Illus. Figure
0613 Bulkhead to bulkhead starter circuit electrical lead - 11592731 .....	113	71
0613 Bulkhead disconnect to trailer receptacle disconnect, aft blower motor and taillights wiring harness - 11592733.....	114	72
0613 Disconnect to headlamp wiring harness - 11592755 .....	116	73
0613 Relay to starter and neutral position switch wiring harness - 11643129 .....	117	74
0613 Fuel purge-and-prime switch to solenoid electrical lead - 11675547 (engine model 7083-7398) .....	118	75
0613 Fuel purge-and-prime switch to pump electrical lead - 12254008 (engine model 7083-7395) .....	118.1	75A
0613 Warning light low coolant detector to bulkhead disconnect wiring harness - 11675566.....	119	76
0613 Aeration detector connector assembly - 11675567 .....	120	77
0613 Low coolant warning light to bulkhead disconnect wiring harness - 11675568 .....	121	78
0613 Master relay to bulkhead disconnect electrical lead - 11675625 .....	122	79
0613 Voltage regulator to bulkhead disconnect, slave receptacle and accessories panel cable assembly - 11675638.....	124	80
0615 Radio static suppression spring .....	126	81
 <b>Group 07 Transmission</b>		
0710 Transmission assembly .....	127	82
 <b>Group 08 Transfer and Final Drive Assemblies</b>		
0801 Transfer and final drive assemblies .....	128	83
0801 Auxiliary drive installation .....	130	84
0801 Auxiliary drive assembly - 11675634 (clutch) .....	132	85
0801 Auxiliary drive assembly - 11675634 (main output drive) .....	134	86
0801 Auxiliary drive assembly - 11675634 (generator drive) .....	137	87
0801 Auxiliary drive assembly - 11675634 (input drive) .....	138	88

**Section I. INTRODUCTION**

**1. Scope.**

This manual lists spares and repair parts and special tools required for performance of direct support, and general support maintenance of the 8-inch howitzer M110A2, hull and related components.

**2. General.**

This repair parts and special tools list is divided into the following sections:

*a. Section II, Repair Parts List.* A list of spares and repair parts authorized for use in the performance of maintenance. The list also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in ascending numerical sequence, with the parts in each group listed in figure and item number sequence. Bulk materials are listed in NSN sequence.

*b. Section III, Special Tools List.* A list of special tools authorized for the performance of maintenance.

(1) The lowest authorized level of issue and use is indicated by the third position of the SMR code. See paragraph 3b for explanation of codes.

(2) Tools authorized and issued to lower levels of maintenance are authorized and issued to all higher levels also.

*c. Section IV, National Stock Number and Part Number Index.* A list, in ascending national item identification number (NIIN) (last nine numerals) sequence, of all national stock numbers (NSN) appearing in the listings followed by a list, in alphanumeric sequence, of all part numbers appearing in the listings. National stock numbers and part numbers are cross-referenced to each illustration figure and item number appearance.

**3. Explanation of Columns.**

The following provides an explanation of columns found in the tabular listings:

*a. Illustration.* This column is divided as follows:

(1) *Figure number.* Indicates the figure number of the illustration in which the item is shown.

(2) *Item number.* The number used to identify each item called out in the illustration.

*b. Source, Maintenance, and Recoverability (SMR) Codes.*

(1) *Source code.* Source codes are assigned to support items to indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items. Source codes are entered in the first and second positions of the uniform SMR code format as follows:

<b>Code</b>	<b>Definition</b>
PA-Item	procured and stocked for anticipated or known usage.
PB-Item	procured and stocked for insurance purpose because essentiality dictates that a minimum quantity be available in the supply system.
PC-Item	procured and stocked and which otherwise would be coded PA except that it is deteriorative in nature.
PD-Support item,	excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional issue or outfittings. Not subject to automatic replenishment.
PE-Support equipment	procured and stocked for initial issue or outfitting to specified maintenance repair activities.
PF-Support equipment	which will not be stocked but which will be centrally procured on demand.
PG-Item	procured and stocked to provide for sustained support for the life of the equipment. It is applied to an item peculiar to the equipment which, because of probable discontinuance or shutdown of production facilities would prove uneconomical to reproduce at a later time.
KD-An item of a depot	overhaul/repair kit and not purchased separately. Depot kit defined as a kit that provides items required at the time of overhaul or repair.
KF-An item of a	maintenance kit and not purchased separately. Maintenance kit defined as a kit that provides an item that can be replaced at organizational or intermediate levels of maintenance.
KB-Item	included in both a depot overhaul/repair kit and a maintenance kit.
MO-Item	to be manufactured or fabricated at organizational level.
MF-Item	to be manufactured or fabricated at the direct support maintenance level.
MH-Item	to be manufactured or fabricated at the general support maintenance level.
MD-Item	to be manufactured or fabricated at the depot maintenance level.
AO-Item	to be assembled at organizational level.
AF-Item	to be assembled at direct support maintenance level.
AH-Item	to be assembled at general support maintenance level.
AD-Item	to be assembled at depot maintenance level.
XA-Item	is not procured or stocked because the requirements or the item will result in the replacement of the next higher assembly.
XB-Item	is not procured or stocked. If not available through salvage, requisition.
XC-	installation drawing, diagram, instruction sheet, field service drawing that is identified by manufacturer's part number.
XD-A	support item that is not stocked. When required, item will be procured through normal supply channels.

**NOTE**

**Cannibalization or salvage may be used as a source of supply for any items coded above except those coded XA and aircraft support items as restricted by AR 700-42.**

(2) *Maintenance code.* Maintenance codes are assigned to indicate the levels of maintenance authorized to USE and REPAIR support items. The maintenance codes are entered in the third and fourth position of the uniform SMR code format as follows:

(a) The maintenance code entered in the third position will indicate the lowest maintenance level authorized to remove, replace, and use the support item. The maintenance code entered in the third position will indicate one of the following levels of maintenance:

Code	Application/Explanation
<b>C-Crew or operator maintenance performed within organizational maintenance.</b>	
<b>O-Support item is removed, replaced, used at the organizational level.</b>	
<b>F-Support item is removed, replaced, used at the direct support level.</b>	
<b>H-Support item is removed, replaced, used at the general support level.</b>	
<b>D-Support items that are removed, replaced, used at depot, mobile depot, or specialized repair activity only.</b>	

(b) The maintenance code entered in the fourth position indicates whether the item is to be repaired and identifies the lowest maintenance level with the capability to perform complete repair (i.e., all authorized maintenance functions). This position will contain one of the following maintenance codes:

Code	Application/Explanation
<b>O-The lowest maintenance level capable of complete repair of the support item is the organizational level.</b>	
<b>F-The lowest maintenance level capable of complete repair of the support item is the direct support level.</b>	
<b>H-The lowest maintenance level capable of complete repair of the support item is the general support level.</b>	
<b>D-The lowest maintenance level capable of complete repair of the support item is the depot level, performed by depot or specialized repair activity.</b>	
<b>L-Repair restricted to designated specialized repair activity.</b>	
<b>Z-Nonreparable. No repair is authorized.</b>	
<b>B-No repair is authorized. The item may be reconditioned by adjusting, lubricating, etc., at the user level. No parts or special tools are procured for the maintenance of this item.</b>	

(3) *Recoverability code.* Recoverability codes are assigned to support items to indicate the disposition action on unserviceable items. The recoverability code is entered in the fifth position of the uniform SM R code format as follows:

**Recoverability Codes**

**Definition**

- Z-Nonreparable item.** When unserviceable, condemn and dispose at the level indicated in position 3.
- O-Reparable item.** When uneconomically reparable, condemn and dispose at organizational level.
- F-Reparable item.** When uneconomically reparable, condemn and dispose at the direct support level.
- H-Reparable level.** When uneconomically reparable, condemn and dispose at the general support level.
- D-Reparable item.** When beyond lower level repair capability, return to depot. Condemnation and disposal not authorized below depot level.
- L-Reparable item.** Repair, condemnation and disposal not authorized below depot/specialized repair activity level.
- A-Item requires special handling or condemnation procedures because of specific reasons (i.e., precious metal content, high dollar value, critical material or hazardous material). Refer to appropriate manuals/directives for specific instructions.**

*c. National Stock Number.* Indicates the National stock number assigned to the item and will be used for requisitioning purposes.

*d. Part Number.* Indicates the primary number used by the manufacturer (individual, company, firm, corporation, or Government activity), which controls the design and characteristics of the item by means of its engineering drawings, specifications, standards, and inspection requirements, to identify an item or range of items.

**NOTE**

**When a stock numbered item is requisitioned, the item received may have a different part number than the part being replaced.**

*e. Federal Supply Code for Manufacturer (FSCM).* The FSCM is a 5-digit numeric code listed in SB 708-42 which is used to identify the manufacturer, distributor, or Government agency, etc.

*f. Description.* Indicates the Federal item name and, if required, a minimum description to identify the item. Items that are included in kits and sets are listed below the name of the kit or set with the quantity of each item in the kit or set indicated in the quantity incorporated in unit column. In the Special Tools List, the initial basis of issue (BOI) appears as the last line in the entry for each special tool, special TMDE, and other special support equipment. When density of equipments supported exceeds density spread indicated in the basis of issue, the total authorization is increased accordingly.

*g. Unit of Measure (U/M).* Indicates the standard of the basic quantity of the listed item as used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical abbreviation (e.g., in. pr, etc.). When the unit of measure differs from the unit of issue, the

lowest unit of issue that will satisfy the required units of measure will be requisitioned.

*h. Quantity Incorporated in Unit.* Indicates the quantity of the item used in the breakout shown on the illustration figure, which is prepared for a functional group, subfunctional group, or an assembly. A "V" appearing in this column in lieu of a quantity indicates that no specific quantity is applicable, (e.g., shims, spacers, etc.).

**4. Special Information**

a. Usable on codes are shown in the description column. Vehicle items not updated by PIP Kit 5 and other product improvement changes are identified in the RPSTL as "O" items. Those that have been updated by PIP Kit 5 and other product improvement changes are identified as "N" items.

Uncoded items are common to both improved and unimproved vehicles.

b. Detailed manufacturing instructions for items source coded to be manufactured or fabricated are found in TM 9-2350-304-20 and TM 9-2350-30434-1 maintenance manuals. Bulk materials required to manufacture items are listed in the bulk material group of this manual.

c. Detailed assembly instructions for items source coded to be assembled are found in TM 92350-304-20 maintenance manual. Assembly components are listed immediately following the item to be assembled.

d. Repair parts kits and gasket sets appear as the last entries in the repair parts listing for the figure in which its parts are listed as repair parts.

**Note**

**"P" source coded items with missing National stock numbers are items which are not recorded in the Army master date file (AMDF) and cannot be requisitioned from the supply system. When these stock numbers are broadcast in the AMDF, they will be provided by a change to the manual. If justified, these items may be requisitioned on an exception basis using the Army parts number or manufacturer's part number and code.**

e. The following publications pertain to M110A2 vehicle and its components.

**LO 9-2350-304-12**

Lubrication Order Howitzer, Heavy, Self- Propelled: 8-Inch, M110A2 (2350-01-0414590).

**TM 9-2350-304-10**

Operator's Manual for Howitzer, Heavy, SelfPropelled:8-Inch, M110A2 (2350-01-0414590).

nance Allowances) for Engine, Diesel: Turbocharged, Fuel Injected, Liquid Cooled, "V" type, 8-cylinder, W/Container, Assembly, Detroit Diesel-GMC Series-8V71T, Model 7083-7398 (2815-762-4500 and 2815-9367659) and Detroit Diesel-GMC Series 8V71T, Model 7083-7399 (2815-134-4845).

**TM 9-2920-22435**

Direct and General Support Maintenance Manual (Including Repair Parts List), Generator Assembly, Engine (300 amp) Lear Siegler (formerly Jack and Heintz) Models G22-2 (6115-629-1149); G-22-3 (2920-795-6627), G22-6F (2920-830-6660) G22-7F (2920-8301293); and G22-9 (2920-563-0299).

**5. How to Locate Repair Parts.**

*a. When National Stock Number or Part Number is Unknown:*

(1) *First.* Using the table of contents, determine the functional subgroup within which the repair part belongs. This is necessary since illustrations are prepared for functional subgroups, and listing are divided into the same groups.

(2) *Second.* Find the illustration covering the subgroup to which the repair part belongs.

(3) *Third.* Identify the repair part on the illustration and note the illustration figure and item number of the repair part.

(4) *Fourth.* Using the Repair Parts Listing, find the figure and item number noted on the illustration.

*b. When National Stock Number Part is Known:*

(1) *First.* Using the Index of National Stock Numbers and Part Numbers, find the pertinent national stock number or part number. This index is in ascending NIIN (last nine numerals) sequence, followed by a list of part numbers in ascending alpha-numeric sequence, cross-referenced to the illustration figure number and item number.

(2) *Second.* After finding the figure and item number, locate the figure and item number in the repair parts list.

**6. Abbreviations.**

The abbreviations used in this publication are common in trade practice and MIL-STD-12, military standard abbreviations for use on drawings, specifications, standards and in technical documents.
