DISTRIBUTION STATEMENT A - Approved for public release; distribution is unlimited.

TM 5-2430-200-24P, 01 March 2001, is updated as follows:

1. File this sheet in front of the manual for reference.
2. This change is a result of incorporating various configuration changes such as track warning system, site gage covers to rollers and rear idlers, changed and rerouted hydraulic hoses and extensive updating of Part Numbers and NSNs" or similar (changes reflective of the Parts TM).
3. A vertical bar in the outer margin of the page indicates new or updated text. When information is contained in multiple columns, the vertical bar will appear in the notes section in the center of the columns.
4. A miniature pointing hand placed on an illustration and a vertical bar placed in the adjacent margin indicates a minor change to an illustration.
5. Remove old pages and insert new pages as indicated below.

By Order of the Secretary of the Army:

GEORGE W. CASEY, JR.
General, United States Army
Chief of Staff

Official:

JOYCE E. MORROW
Administrative Assistant to the
Secretary of the Army

0811912

DISTRIBUTION: To be distributed in accordance with the Initial Distribution Number (IDN) 256554, requirements for TM 5-2430-200-24 P.

INSERT LATEST CHANGED PAGES. DESTROY SUPERSEDED DATA.

LIST OF EFFECTIVE PAGES

NOTE: A vertical line in the outer margin of the page or in the Note section in the center of the column indicates the portion of the text or illustration affected by a change. A changed illustration is indicated by a change bar in the adjacent margin. Miniature pointing hands locate the minor change(s) to the illustration.

Dates of issue for original and changed pages are:

Original 0 01 March 2001

Change 1 18 May 2008

TOTAL NUMBER OF CHANGE PAGES IS 293, WHICH CONSISTS OF THE FOLLOWING:

* A zero in the Change Number columns below indicates an original page.

Page Number	Change Number	Page Number	Change Number

REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS

You can help improve this publication. If you find any mistakes or if you know of a way to improve the procedures, please let us know. Submit your DA Form 2028 (Recommended Changes to Equipment Technical Publications), through the Internet, on the Army Electronic Product Support (AEPS) website. The Internet address is <http://aeeps.ria.army.mil>. The DA Form 2028 is located under the Public Applications section in the AEPS Public Home Page. Fill out the form and click on SUBMIT. Using this form on the AEPS will enable us to respond quicker to your comments and better manage the DA Form 2028 program. You may also mail, fax or email your letter, DA Form 2028 direct to: U. S. Army TACOM Life Cycle Management Command, ATTN: AMSTA-LC-LMPP/TECH PUBS, 1 Rock Island Arsenal, Rock Island, IL 61299-7630. The email address is ROCK-TACOM-TECH-PUBS@conus.army.mil. The fax number is DSN 793-0726 or Commercial (309) 782-0726.

MACHINE IDENTIFICATION

Caterpillar machines are identified with SERIAL NUMBERS and/or PRODUCT IDENTIFICATION NUMBER (PIN). These numbers are assigned to the Chassis and to the engine. The chassis and the engine also carry ARRANGEMENT NUMBERS and in some cases MODIFICATION NUMBERS. These numbers are shown on the SERIAL NUMBER or PIN plates and on the MASTER PLATE in the operator's compartment.

Caterpillar dealers need all of these numbers to determine which components were included on the machine when it was assembled at the factory. This permits accurate identification of replacement part numbers.

ORDERING PARTS

Quality Caterpillar Replacement parts are available from Caterpillar dealers throughout the world. Their parts inventories are up to date and include all parts normally required to protect your investment in Caterpillar machines. Some dealers may offer repair kits, exchange components, or remanufactured parts to allow selection of the most effective repair alternative for a specific situation. When ordering parts, your order should specify the quantity, part number, part name and the serial number. If in doubt about the part number, please provide your dealer with a complete description of the needed item.

HOW TO USE THE PARTS BOOK

Caterpillar Parts Books include illustrations of the groups or assemblies which make up the machine. These illustrations show the standard components plus many of the attachments available for the machine.

The alphabetical index located in the front part of the book should be used to determine the page number on which specific illustrations are shown. Reference to those pages will identify each of the individual serviceable parts.

Captions

The caption under each illustration identifies the part number and name of the group or assembly shown. Part numbers of groups are shown for reference purposes. Your dealer can assist you in identifying the availability of a complete group. If more than one illustration is included for any group, the caption identifies the specific machine serial numbers to which each illustration applies. Reference to the actual group or assembly is necessary in those cases to determine which illustration should be used.

Captions provide additional information such as page numbers where illustrations of sub assemblies are shown, information regarding quantities used, and other information intended to assist the user in determining parts needs.

Remarks, Abbreviations and Symbols

- A Not part of this group
- B Use as required
- C Indicates change
- D Order by the meter
- E Order by the centimeter
- F Not shown
- G Order by the inch
- J Items included in seal kit
- M Metric part (including fasteners)
- R Remfg part may be available
- X Major Component Exchange
- Y Separate illustration
- Z Not serviced separately

Reference Number

The numbers shown in this column refer to the numbers shown within the illustration. To identify any item within the illustration, first determine its reference number, then refer to the same number in the Ref No column of information about that part.

Part Number

These are numbers which are used to identify parts.

Qty

The quantities shown in this column indicate the part number of that item used.

Part Name

Information in this column provides the name of the part as well as additional information such as size, which further aids in the identification of the part.

Indented Part Names

Within each illustration is a parts list identifying each serviceable part in the illustration. When a part name is indented in this list, it means that serviceable item is a part of the serviceable item under which it is indented.

NOTE:

Continuing improvement and advancement of product design may cause changes to your machine which may not be included in this publication. Each publication is reviewed and revised, as required, to update and include these changes in later editions.

Whenever a question arises regarding your Caterpillar product, or this publication, please consult your Caterpillar dealer for the latest available information.

Coupling Identification

The following information provides the name of the coupling as well as additional information such as the type of flange head and thread identification, which further aids in the identification of the part.

Symbols and Description

M	Male
F	Female
NPTF	National Pipe Tapered for Fuels
JIC	JIC 37° Flare
TUBE	Tube Fitting with Lip
GREASE	Special Pipe Thread for Grease Fittings
STOR	SAE Straight Thread O-Ring
ORFS	O-Ring Face Seal
CODE 61	SAE Code 61 Flange
DBL COLLET	Double Collet
QUICK	Standard Quick Disconnect
TUBE A/C	Air Conditioner Short Tube
CAT FLANGE	Caterpillar Flange
ID	Inside Diameter
IN	Inches
LG	Long (Length)
MM	Millimeter
OD	Outside Diameter
OS	Oversized
US	Undersized

Example: ELBOW 90° (M-STOR, M-JIC)
 90° Elbow with a male Straight Thread O-Ring fitting on one end, and a male JIC fitting on the other end.

O-Ring Identification

The following information provides the name of the O-Ring as well as additional information such as the size measured as the outside diameter (OD) in millimeters and the type of flange or connector where it's used, which further aids in the identification of the part.

Symbols and Description

ORFS	O-Ring Face Seal
ORB	SAE Straight Thread O-Ring
CODE 61	SAE Code 61 Flange
TUBE A/C	Air Conditioner Short Tube

Example: SEAL-O-RING (ORFS-OD 28)
 Seal-O-Ring Face Seal with an outside diameter (OD) of 28 millimeters.

Threat of Nuclear, Biological, and Chemical (NBC) Contamination

The DEUCE incorporates a CARC painted exterior. The materials used in the DEUCE are metal, rubber, plastic, fabric and glass. In the event of NBC contamination, the decontaminates for these surfaces and materials are listed in Army FM 3-5. For decontamination procedures, refer to FM 3-7. This manual, TM5-2430-200-24P, contains a list of parts that are susceptible to damage from NBC exposure.

ElectroMagnetic Pulse (EMP) Exposure

The contents listed and designated as EMP susceptible may be damaged by EMP exposure. If the machine is exposed to an EMP incident, verify proper operation and repair as necessary. This manual, TM5-2430-200-24P, contains a list of parts that are susceptible to damage from EMP exposure.

TM5-2430-200-24P
REMANUFACTURED COMPONENTS

As an option when making repairs consider Caterpillar Remanufactured Components. Components that are available through the Caterpillar Remanufactured Program are identified three ways in the parts book:

- with the letter R in the note field of the parts list
- with an R* at the beginning of the first line of the caption
- with an *R at the end of the first line of the caption

Typical components included in the Remanufacturing Program include:

**ALTERNATORS
CONNECTING RODS
CRANKSHAFTS - UNDERSIZE
CRANKSHAFTS - UPGRADE TO NEW
CYLINDER HEADS
ELECTRONIC CONTROL MODULES (ECM)
ELECTRONIC SENSORS
FUEL INJECTORS
FUEL NOZZLES
FUEL PUMPS
GOVERNORS
OIL PUMPS
PISTONS
SHORT BLOCKS
STARTERS
TURBOCHARGERS - COMPLETE
TURBOCHARGER CARTRIDGES
WATER PUMPS**

Caterpillar Remanufactured engines for many engine arrangements are also available. Check with your local Caterpillar Dealer for the availability of Remanufactured Components.

NOTES

A large, empty rectangular box with a black border, intended for handwritten notes.

THE METRIC SYSTEM AND EQUIVALENTS

LINEAR MEASURE

1 Centimeter = 10 Millimeters = 0.01 Meters = 0.3937 Inches
 1 Meter = 100 Centimeters = 1000 Millimeters = 39.37 Inches
 1 Kilometer = 1000 Meters = 0.621 Miles

SQUARE MEASURE

1 Sq Centimeter = 100 Sq Millimeters = 0.155 Sq Inches
 1 Sq Meter = 10,000 Sq Centimeters = 10.76 Sq Feet
 1 Sq Kilometer = 1,000,000 Sq Meters = 0.386 Sq Miles

WEIGHTS

1 Gram = 0.001 Kilograms = 1000 Milligrams = 0.035 Ounces
 1 Kilogram = 1000 Grams = 2.2 Lb
 1 Metric Ton = 1000 Kilograms = 1 Megagram = 1.1 Short Tons

CUBIC MEASURE

1 Cu Centimeter = 1000 Cu Millimeters = 0.06 Cu Inches
 1 Cu Meter = 1,000,000 Cu Centimeters = 35.31 Cu Feet

LIQUID MEASURE

1 Milliliter = 0.001 Liters = 0.0338 Fluid Ounces
 1 Liter = 1000 Milliliters = 33.82 Fluid Ounces

TEMPERATURE

$5/9 (°F - 32) = °C$
 212° Fahrenheit is equivalent to 100° Celsius
 90° Fahrenheit is equivalent to 32.2° Celsius
 32° Fahrenheit is equivalent to 0° Celsius
 $9/5 C° + 32 = F°$
