## Section I. INTRODUCTION

### 1. Scope

This manual lists repair parts that are required for maintenance of Selected Items of Secondary Transfer Standards Calibration Set AN/GSM-259 (NSN 4931-01-019-1829)<sup>1</sup> and is applicable to Army area calibration teams (AACT's).

#### NOTE

**Throughout this manual, DS is used to indicate AACT.**

### 2. General

This manual is divided as follows:

*a. Section I. Introduction.*

*b. Section II. Repair Parts List.* A list, in alphabetical sequence, of repair parts authorized for the performance of maintenance at the AACT support level.

*c. Section III. National Stock Number and Part Number Index.* A list in ascending numerical sequence, of all National stock numbers (NSN's) appearing in the repair parts list, followed by a list of all part numbers in alpha-numeric sequence appearing in the list. The NSN's and part numbers are cross-referenced

to a figure number and item number in column 1.

#### NOTE

**The figure and item number columns represent cross-reference numbers, since illustrations are not included in this manual.**

### 3. Explanation of Columns

Refer to section I of TM 9-4931-700-34P for explanation of columns (para 3), special information (para 4, except for subparagraph 40 which is not applicable to this manual), and abbreviations (para 6).

### 4. How to Locate Repair Parts

When NSN or part number is unknown, use the repair parts listing and locate the item by description. When National stock number or part number is known, use the list of NSN's or the part numbers and locate the cross-referenced figure and item number. Locate the cross-referenced figure and item number under column 1 of the repair parts list for the complete description of the repair part.

<sup>1</sup>Not fielded as of the date of this manual.
