**COMPOSITE LIST  
OF ALL ITEMS IN  
SECTION**

**Z.1**

**WIRELESS SETS  
MINE DETECTORS  
AND  
ASSOCIATED STORES  
SUPPLEMENT No. 2**

COMPOSITE LISTS - AMENDMENTS

1. Composite Lists are published to assist in tracing the Catalogue or Part Number of an item. They will not be quoted as an authority for designations, supersessions etc. The Master Parts Index is the final and most up-to-date form of reference when the Catalogue or Part Number is known.
2. To simplify maintenance of the list, and in view of Para. 1 above instructions to effect manuscript amendments to designations, supersessions etc. will be DISCONTINUED w.e.f. 1st SEPT. 1945.
3. Additional items will be arranged alphabetically and issued in the form of monthly supplements, which will be kept at the end of the Composite Lists. Supplements will never exceed three in number at any one time.
4. The issue subsequent to the third will be a consolidation of the three already issued, plus the additional items which would have constituted the fourth, the whole of the items being arranged in one alphabetical list.
5. Instructions for the destruction of obsolete supplements will be given when the revised consolidation is issued.
6. Composite Lists published before 1st Sept. 1945, are being revised as circumstances permit, but a considerable time will elapse before a complete re-issue can be made.
