# CV REGISTER OF ELECTRONIC VALVES

## 1. INTRODUCTION

This document is a Register of the CV numbers allocated by the Technical Valve Committee. The allocation of a CV number for a valve does not imply any general approval for the use of that valve in Service equipment.

Reference should be made to the Services List of Preferred Valve for valves which are approved for general Service use, and to the E.V.S. publication or the T.V.C. Office for valves which may have limited approval.

## 2. CONTENTS

The Register is divided into four chapters.

### 3. CHAPTER 1

- (a) The first column gives the list of CV Titles in numerical order;
- (b) The second column gives the prototypes and possible substitutes. These are for general information and it should not be assumed that they are identical with the CV type. (In the case of CV valves with COM entered in the Specification column, and where more than one valve is listed, the name printed in italics or underlined is that to which the CV number was given.)
- (c) The third column gives the Authorities responsible for the preparation of the Specifications which are subsequently distributed by the T.V.C. Office.

<i>Abbreviation</i>	<i>Authority</i>
A.D. .. ..	Admiralty Surface Weapons Establishment.
M.O.A. .. ..	Ministry of Aviation, R.A.E., R.R.E. and S.R.D.E.
SH .. ..	U.K. Atomic Energy Authority, A.E.R.E.
W.O. .. ..	War Office.
G.P.O. .. ..	General Post Office, E-in-C (S).
J.A.N. } .. ..	U.S.A., J.A.N.1.A. and MIL-E-1B. Requests for copies of the MIL-E-1 Specifications should be made to TIL.1(b), Ministry of Aviation, Leysdown Road, Mottingham, S.E.9. The American name of the valve should be quoted in preference to the CV Number.
MIL }	
COM. .. ..	No specification issued. Apply to the maker for information.

- (d) The fourth column gives the functional type.

### 4. CHAPTER 2

- (a) Column 1 gives, in alpha-numerical order, the commercial type numbers of valves which have been given CV numbers or are the equivalents of valves which have been given CV numbers.
- (b) Column 2 gives the maker's name. In cases of valves bearing an old type Service name the originating authority is shown, e.g.

ACR 14 gives W.O. (War Office)

NT 2 gives A.D. (Admiralty)

(N.B. The separate entry "NT 2 Hivac (CV2213)" refers to a different valve.)

- (c) Column 3 shows the CV title applicable to the given type designation.
  - (i) Where the CV number is shown without brackets the two items are identical, e.g.
    - (a) AC/HL CV.2811  
(The CV number has been given to the commercial valve for Service store purposes.)
    - (b) ACR 14 CV.1390  
(ACR 14 is the old Service type number.)
  - (ii) Where the CV number is shown in brackets the valve is for practical purposes the same as the CV valve but may have wider tolerances.

### 5. CHAPTER 3

This consists of a cross reference from the old Service Stores references to CV numbers.

### 6. CHAPTER 4

This consists of a cross reference of the Joint Service Catalogue Numbers (NATO Stock Numbers) and CV Numbers and vice versa.

### 7. VALVE AVAILABILITY

THE INCLUSION OF AN ITEM IN THIS REGISTER DOES NOT IMPLY AVAILABILITY.

### 8. AMENDMENTS AND ADDITIONS

Holders of the Register in the Services and those with addresses recorded in the T.V.C. Office will receive amendments and additions as published.

T.V.C. Office, Ministry of Aviation, Castlewood House.

AMENDMENT No. 1 DATED JANUARY 1964

CHAPTER 1

References to columns in Chapter 1 are by number as though the columns were numbered 1 to 4, twice from left to right, e.g. the columns headed 'Description' are referred to as column 4.

CV163	Column 2	Add	5744, 5744WB, CV8324

## CHAPTER IV

# JOINT SERVICE CATALOGUE NUMBERS

### CONTENTS

1. Introduction.
2. List of CV numbers to which the U.K. NATO Stock numbers are obtained by formula.
3. List of U.K. NATO Stock Numbers against CV Numbers.
4. List of CV Numbers against U.K. NATO Stock Numbers.

1. The U.K. NATO Stock number is obtained by formula for many CV Valves for which CV numbers are already allotted. Most valves to which CV numbers are allotted in the future will have Stock numbers which bear no relation to the CV number.

Where the term "No NATO Stock No. has been allotted" is used the interpretation is that the device is of U.K. origin and no catalogue number has been allotted. The use so far not being for military purposes.

Where the term "No U.K. NATO Stock No. has been allotted" is used the interpretation is that the device is of other than U.K. origin. A catalogue number from another Issuing Authority may be in existence.

2. The CV numbers to which the formula applies are:—

CV1 to CV4099 inclusive  
 CV4501 to CV4520 inclusive  
 CV5001 to CV5175 inclusive  
 CV6008

The Stock number is obtained by deleting CV from the CV number, prefixing this number with sufficient zeros to bring it up to seven digits and adding the Class Code, 5960, and the U.K. National Code, 99, e.g. the Stock number of:

CV123 is 5960-99-000-0123 and of  
 CV2345 is 5960-99-000-2345

3. *List of U.K. NATO Stock Numbers against CV Numbers*
