UNITED STATES PATENT OFFICE.

THOMAS C. WOODARD, OF KNIGHTSTOWN, INDIANA.

IMPROVEMENT IN FOLDING CRIBS AND CRADLES.

Specification forming part of Letters Patent No. **184,313**, dated November 14, 1876; application filed March 27, 1876.

To all whom it may concern:

Be it known that I, T. C. WOODARD, of Knightstown, in the State of Indiana, have invented new and useful Improvements in Children's Cribs, Cots, &c.; and I do hereby declare the following to be a full, clear, and exact description of the same, reference being had to the accompanying drawing, forming part of this specification, in which—

Figure 1 of said drawing represents my portable folding crib when in position ready for use, but showing one rocker, with leg attached at *b* not in position, and exhibiting attachment or stay C, with tenon of leg withdrawn from mortise at one end, and legs and rocker in position at the other, the ends *d d* and

sides *a a* folding down onto the bottom, and legs and rockers folding up.

Fig. 2 represents a side view of crib with side lowered, forming a lounge or sofa seat.

Having thus described my invention, what I claim, and desire to secure by Letters Patent, is—

In a folding crib or cradle, the rockers A, having uprights which are adapted to be fitted into mortised recesses, in combination with the stays or braces C, substantially as and for the purpose described.

T. C. WOODARD.
