UNITED STATES PATENT OFFICE.

LORENZO P. HEATH, OF SPRINGFIELD, MASSACHUSETTS, ASSIGNOR TO
POWERS PAPER COMPANY, OF SAME PLACE.

IMPROVEMENT IN PAPER BOXES.

Specification forming part of Letters Patent No. **189,036**, dated April 3, 1877; application filed
January 24, 1877.

To all whom it may concern:

Be it known that I, LORENZO P. HEATH, of Springfield, in the county of Hampden and State of Massachusetts, have invented a new and useful Box for Papeterie, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing, making a part of this specification.

The object of my invention is to produce a papeterie-box the cover of which contains two deep cabinet-doors for the reception of envelopes, said doors being hung, one on the right and the other on the left hand side of the cover as it stands open, and so arranged that when said doors are open they display their contents, and when closed they shut together into the cover, permitting the cover to

be shut down upon the contents of the box beneath; also, in addition to said doors in the cover, to permit of constructing a drawer in said cover under the two doors, for the reception of writing utensils or other articles.

Referring to the drawing, A is the box, B the cover, D D the two doors, and E the drawer.

What I claim as my invention is—

A box having a deep cover, B, in which are two deep cabinet-doors, D D, and a drawer, E, all arranged substantially as and for the purpose set forth.

LORENZO PRESCOTT HEATH.
