# UNITED STATES PATENT OFFICE.

JACOB GORDON, OF NEW YORK, N. Y., ASSIGNOR TO REDLICH &  
SCHNITZLER, OF SAME PLACE.

## IMPROVEMENT IN CIGARETTES.

Specification forming part of Letters Patent No. **198,977**, dated January 8, 1878; application filed  
December 14, 1877.

*To all whom it may concern:*

Be it known that I, JACOB GORDON, of New York, in the county and State of New York, have invented certain new and useful Improvements in Cigarettes; and I do hereby declare that the following is a full, clear, and exact description thereof, reference being had to the accompanying drawing, and to the letters of reference marked thereon, which forms part of this specification.

My invention relates to cigarettes; and it consists in providing one end thereof with a piece of tobacco, pasted around the same, as will be hereinafter more fully set forth.

In order to enable others skilled in the art to which my invention appertains to make and use the same, I will now proceed to describe its construction and operation, referring to the annexed drawing, in which the figure is a side view of my cigarette.

A represents the filling, and B the ordinary paper wrapper of a cigarette. C represents a

piece of leaf-tobacco, pasted, outside of the wrapper, around one end of the cigarette, this end being the one that the smoker will put in his mouth.

This covering of tobacco at the end will prevent the wrapper from adhering to the lips of the smoker, as it does in smoking all paper cigarettes, which is very objectionable to smokers.

Having thus fully described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The cigarette herein described, consisting of the filling A, paper wrapper B, and tobacco mouth-piece C, as set forth.

In testimony that I claim the foregoing as my own I affix my signature in presence of two witnesses.

JACOB GORDON.
