INVENTOR,

Frederick Isaac Bosworth

UNITED STATES PATENT OFFICE.

FREDERICK SNOW BOSWORTH, OF PROVIDENCE, RHODE ISLAND, ASSIGNOR
TO THE WEYBOSSET MILLS, OF SAME PLACE.

DESIGN FOR FANCY CASSIMERE FABRIC.

Specification forming part of Design No. **8,261**, dated April 13, 1875; application filed March 29, 1875.
[Term of Patent 3½ years.]

No. 2.

To all whom it may concern :

Be it known that I, FREDERICK SNOW BOSWORTH, of the city and county of Providence, State of Rhode Island, have invented a new Design for Fancy Cassimere Fabrics; and I do hereby declare that the following specification, taken in connection with the drawings making a part of the same, is a full, clear, and exact description thereof.

The optical effect of my novel design will be apparent on an inspection of the accompanying drawings. Said effect is produced by means of a plain woven ground, ornamented by stripes, which are of a peculiar composite character, and also by plain stripes, having double spots at intervals therein, as hereafter more fully described.

The stripes B are composed of a series of short transverse bars, separated from each

other by the oblong spaces *c c*. The double spots A A are each composed of two transverse bars separated from each other by a space of plain weaving, and are so located between the stripes B that spots upon each alternate strip of plain weaving only are in the same transverse lines.

The fabric may be woven in any preferred variety of colors for giving effect to the design above described.

What I claim as my invention, and desire to secure by Letters Patent, is—

The design for fancy cassimere fabrics, as herein set forth, and represented in the drawings.

FREDERICK SNOW BOSWORTH.
