## DESIGN FOR STREET-LAMP POSTS.

Specification forming part of Design No. **8,293**, dated April 27, 1875; application filed April 10, 1875.  
[Term of Patent 7 years.]

### CASE B.

*To all whom it may concern:*

Be it known that I, WILLIAM TWEEDDALE, of Brooklyn, in the county of Kings and State of New York, have invented a new and original Design for a Street-Lamp Post, of which the following is a specification:

My design for a street-lamp is fully represented in the accompanying print, to which reference is made.

It consists of the concave band *g*, convex band *h*, plain bands *i*, raised ribs *j*, with coiled upper and lower terminations *k l*, branching spires *m*, and the beads *n* for the upper portion of the lamp-post; also the flat and oval ribbed or fluted strips *o* and *p*, with the scroll figures *q* for the middle portion of the post; also the circular figures *r*, with the center boss *s*, and scalloped projecting figures *t* for the upper portion of the base; and also the oval figures *u*, leaf-shaped figures *v*, and fruit-pieces *w* for the lower portion of the base.

I claim as my invention—

1. The concave band *g*, convex band *h*, plain bands *i*, raised ribs *j*, with coiled upper and lower terminations *k l*, branching spires *m*, and beads *n*, as a design for lamp-posts, as set forth.
2. The flat and oval ribbed or fluted strips *o p*, and scroll figures *q* as a design for lamp-posts, as set forth.
3. The circular figures *r*, with center boss *s*, and scalloped projections *t* as a design for lamp-posts, as set forth.
4. The oval figures *u*, leaf-shaped figures *v*, and the fruit-pieces *w*, as a design for a lamp-post, as set forth.

WILLIAM TWEEDDALE.
