To all whom it may concern:

Be it known that I, WILLIAM TWEEDDALE, of Brooklyn, in the county of Kings and State of New York, have invented a new and original Design for a Street-Lamp Post, of which the following is a specification:

The design is fully represented in the accompanying print, to which reference is made.

The top of the lamp-post is an inverted frustum, *m*, of a concave cone, which rests on the fluted dome *n*, supported by a capital having the plain band *o* for the top, scroll ornaments *p* and beads *q* for the sides, and the bead *r*, plain band *s*, and fluted band *t* for the base. The capital surmounts the fluted and plain-sided column *u*, having the pendent scroll ornaments *v* at the top, bead *w*, band *x*, pendants *y* and *z*, plain bands *a'* *b'*, and convex band *c'* for its base, which is mounted on a pedestal whose upper portion, between band *b'* and the plain band *d'*, is figured with the leaf ornaments *e'*, with bulbs *f'*; and below the said band the pedestal is ornamented by the heads *z'*, flutes *h'*, leaf ornaments *i'*, beads *j'*, acorn-shaped knobs *l'*, and bird-legs *m'*, while the base has the conical band *n'*, plain bands *o'* and *p'*, and the fluted conical band *q'*.

I claim as a design for street-lamp post—

4. The leaf ornaments *e'* and bulbs *f'*, with the plain band *d'* on the upper portion of the pedestal, as set forth.
5. The heads *z'*, beads *j'*, leaf ornaments *i'*, acorn-shaped bulbs *l'*, and bird-legs *m'* on the middle portion of the pedestal, as set forth.
