# UNITED STATES PATENT OFFICE.

HENRY F. REINECKE, OF JERSEY CITY HEIGHTS, NEW JERSEY.

## DESIGN FOR HAT AND FUR BOXES.

Specification forming part of Design No. **8,311**, dated May 4, 1875; application filed April 17, 1875.  
[Term of Patent 7 years.]

*To all whom it may concern:*

Be it known that I, HENRY F. REINECKE, of Jersey City Heights, in the county of Hudson and State of New Jersey, have invented a certain new and original Design for Box, of which the following is a specification:

This invention is illustrated in the accompanying drawing, in which Figure 1 represents a side view. Fig. 2 is a cross-section.

Similar letters indicate corresponding parts.

My invention consists in the design of a box, the sides of which are parallel, and form a quadrangle, which has a semi-cylindrical top and a flat bottom, two of the sides forming a continuation of the semi-cylindrical top, and together with the top, are ornamented with a series of bands, whereby I obtain a box presenting a very neat and distinguishing appearance.

In the drawing, the letters A A B B designate the sides of my box, made parallel to each other, and which form a quadrangle, in the direction of the length of the box. D designates the flat bottom, and C the semi-cylindrical top, of my box. The two opposite sides

A A form a continuation of the semi-cylindrical top C, and over these sides, as well as over the top, extend ornamental bands *a a b b* and *c c*. The direction of the bands *a a b b* is parallel, while that of *c c* is at right angles to the bands *b b*. The outer bands *a a* have ornamental edges *a' a'*, in the form of alternate convex and concavities, divided by points, as shown. The inner bands *b b*, as well as *c c*, are ornamented with a series of circular heads, *b' b' c' c'*, formed on their extended surfaces.

What I claim as new, and desire to secure by Letters Patent, is—

The design for a box having the parallel sides A A B B, forming a quadrangle, having the flat bottom D, semi-cylindrical top C, and the ornamental bands *a a b b c c*, substantially as shown and described.

In testimony that I claim the foregoing I have hereunto set my hand and seal this 2d day of April, 1875.

HENRY F. REINECKE. [L. S.]
