# UNITED STATES PATENT OFFICE.

FREDERICK S. BOSWORTH, OF PROVIDENCE, RHODE ISLAND, ASSIGNOR TO  
THE WEYBOSSET MILLS, OF SAME PLACE.

## DESIGN FOR FANCY CASSIMERES.

Specification forming part of Design No. **8,315**, dated May 11, 1875; application filed April 12, 1875.  
[Term of Patent 7 years.]

### No. 1.

*To all whom it may concern:*

Be it known that I, FREDERICK SNOW BOSWORTH, of the city and county of Providence, and State of Rhode Island, have invented a new and Improved Design for Fancy Cassimere Fabrics; and I do hereby declare that the following specification, taken in connection with the drawings making a part thereof, is a full, clear, and exact description thereof.

The effect of my novel design will be apparent on an inspection of the accompanying drawings, to which reference is made. Said effect is produced by the arrangement of the diagonal and transverse bars, which are so placed upon the ground-work of the fabric as to appear in longitudinal, transverse, and diagonal stripes.

The diagonal bars A all have an inclination in the same direction, and are so arranged as to alternate with the transverse bars B, both

in the longitudinal and transverse stripes. The diagonal stripes, however, are differently formed, in that a series or row of diagonal bars, A, forms one stripe, and a series or row of transverse bars forms the next or alternate stripe.

The design may be placed upon a ground of plain or fancy weaving, and any preferred variety of colors may be used for producing a desirable effect.

What I claim as my invention, and desire to secure by Letters Patent, is—

The design for fancy cassimere fabrics, as herein set forth, and represented in the drawings.

FREDERICK SNOW BOSWORTH.
