UNITED STATES PATENT OFFICE.

MELVILLE D. JONES, OF BOSTON, MASSACHUSETTS.

DESIGN FOR A BASE-PANEL FOR VASES.

Specification forming part of Design No. **8,339**, dated May 25, 1875; application filed April 19, 1875.
[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, MELVILLE D. JONES, of Boston, Suffolk county, Massachusetts, have invented a Design for Ornamentation of Vase-Pedestals, of which the following is a specification:

This design is upon the shaft of the pedestal of an ornamental vase.

The pedestal is composed of a polygonal frusto-pyramidal shaft, the outlines of whose faces *a a*, &c., are concave longitudinally to obtain a more graceful appearance. The ornamental design upon each face *a* consists of two leaves, *b c*, preferably Gothic oak, these leaves being disposed at the bottom of the face *a*, and with their stems uppermost, and curving inward toward each other, and being interlined or interlaced, and together occupying about half the face. The upper portion

of each face *a* is occupied by an ornament, *i*, which consists of a union of portions of two leaves of the character of those below, with the stems of each thereon, and spreading outward.

The whole ornament is in basso-relievo upon a plain ground border by raised edges *k k*.

I claim—

The ornamental design for the base-panels of a vase, consisting of the curvilinear faces *a*, having thereupon the dually-arranged leaves *b c* and the compound ornament *i*, substantially as described, and shown in the accompanying illustration.

MELVILLE D. JONES.
