UNITED STATES PATENT OFFICE.

JOSEPH F. FRADLEY, OF BROOKLYN, NEW YORK.

DESIGN FOR SPOON-HANDLE.

Specification forming part of Design No. 8,370, dated June 1, 1875; application filed April 17, 1875.
[Term of Patent 7 years.]

CASE C.

To all whom it may concern:

Be it known that I, JOSEPH F. FRADLEY, of Brooklyn, in the county of Kings and State of New York, have invented a new Design for Spoon and Fork Handle, of which the following is a specification:

The invention is illustrated in the accompanying drawing, in which—

Figure 1 represents one side of my spoon and fork handle. Fig. 2 shows the opposite side thereof.

Similar letters indicate corresponding parts.

In the drawing, the letter A designates my spoon and fork handle, one side of which is ornamented by a twist-bead, *a*, near the junction of the handle, with the bowl of a spoon or with the head of a fork. Said bead extends across a series of longitudinal ribs, *b*, which extend up to, and slightly beyond, a scroll or band, *c*, extending across the handle.

The ends of the ribs *b* form the base for leaves *d*, from which rises a bouquet, *e*, containing various flowers and a butterfly, *e'*. The opposite side of the handle is ornamented by arabesques *f*, an escutcheon, *g*, and an X-shaped ornament, *h*, the two branches of which hug a pendant or drop, *i*. Near the junction of the handle with the head of a fork or the bowl of a spoon is a scroll, *j*, and a bunch of leaves, *k*.

What I claim as new, and desire to secure by Letters Patent, is—

The design for a spoon and fork handle, composed of the bouquet *e*, butterfly *e'*, leaves *d*, twist-bead *a*, and scroll *c*, as herein shown and described.

J. F. FRADLEY.
