UNITED STATES PATENT OFFICE.

MARTIN H. CRANE, OF CINCINNATI, OHIO, ASSIGNOR TO CRANE, BREED & CO., OF SAME PLACE.

DESIGN FOR COFFIN-HANDLES.

Specification forming part of Design No. 8,395, dated June 15, 1875; application filed May 12, 1875.
[Term of Patent 7 years.]

CASE B.

To all whom it may concern:

Be it known that I, MARTIN H. CRANE, of Cincinnati, Hamilton county, Ohio, have originated a new and ornamental Design for Coffin-Handles, of which the following is a specification:

My design is for a pendent or tasseled handle, as in the accompanying drawing, in which—

Figure 1 is a perspective view. Fig. 2 is an end view of the handle proper. Fig. 3 represents an end tassel or pendent handle.

A are ears of the represented octagonal contour, from whose central portions project nipples or bosses *a'*, having longitudinal ridges. The portion immediately surrounding the nipple may have a wreath, which in turn is inclosed in an octagonal panel, as represented in Fig. 1. The portions outside the panel may be decorated by cross-hatchings or a reticulated pattern or figure, as in said figure. Proceeding from the nipples are cords B, which

may be of silk or gold or silver lace or filagree. The cords B terminate in silk, gold, silver or other suitable tassels C. Two or more of these handles may be connected, so as to form a handle proper, D D'. Suitable tassels C could then be applied to the ends of the cords. D represents a single bell-formed pendant.

I claim as new and of my origination—

1. The ears A *a'*, formed and decorated as represented.
2. The bell-formed pendant, constituting a handle proper, formed and decorated as shown.
3. The design for coffin-handle, substantially as above set forth.

MARTIN H. CRANE.
