# UNITED STATES PATENT OFFICE.

EDWARD C. CLARK, OF ROCKVILLE, CONNECTICUT.

## DESIGN FOR FABRICS FOR CLOTHING.

Specification forming part of Design No. **8,553**, dated July 27, 1875; application filed July 19, 1875.  
[Term of Patent  $3\frac{1}{2}$  years.]

### CASE D.

*To all whom it may concern:*

Be it known that I, EDWARD C. CLARK, of Rockville, Tolland county, Connecticut, have invented a Design for Fabrics for Clothing, of which the following is a specification:

The nature of my design is fully represented in the accompanying illustration, to which reference is made.

The body or ground *a* of the fabric is divided into longitudinal stripes by the ribs or threads *b*, and is provided with a side band, *c*, of the same or of a color contrasting with the body of the fabric, and on this side band is woven in a line in the direction of the length of the fabric the figures "76." The ground of this side band may be of a color or weave contrasting with the body of the fabric, which may be plain, striped, or checked. The fig-

ures "76" may be of any size, shape, color, or weave.

I claim—

The design for fabrics for clothing, consisting of the ground provided with the side band, and the side band provided with the figures "76," arranged in a longitudinal column on said side band, as shown and described.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

EDWARD C. CLARK.
