# UNITED STATES PATENT OFFICE

CHRISTIAN HERTER, OF NEW YORK, N. Y.

## DESIGN FOR A GASALIER.

Specification forming part of Design No. **8,605**, dated September 7, 1875; application filed August 27, 1875.  
[Term of Patent 3½ years.]

*To all whom it may concern:*

Be it known that I, CHRISTIAN HERTER, of the city of New York, N. Y., have invented a Design for a Gasalier, of which the following is a specification:

The photographic illustration shows the nature of the design.

It consists of a suspending-pipe, A, which supports the group of half-globes B, the crowns of which, C, are in substantially the same horizontal plane.

It is manifest that the number of globes may be increased at will, and the design multiplied in the construction of chandeliers of a more

elaborate character, without departing from the design, as shown.

What I claim as my invention and production is—

A design for a gasalier in which two or more half-globes are suspended in crowns that are in substantially the same horizontal plane, substantially as shown.

Witness my hand this 21st day of August, A. D. 1875.

CHRISTIAN HERTER.
