UNITED STATES PATENT OFFICE.

JENNIE C. LAMM, OF HOPEDALE, ILLINOIS.

DESIGN FOR WALL-POCKETS.

Specification forming part of Design No. **8,702**, dated October 5, 1875; application filed September 9, 1875.
[Term of Patent 3½ years.]

To all whom it may concern:

Be it known that I, JENNIE C. LAMM, of Hopedale, in the county of Tazewell, in the State of Illinois, have originated a new and useful Design for Bracket Knife-Boxes, of which the following is a full, clear, and exact description, reference being had to the accompanying illustration or drawing, making part of this specification.

This invention relates to a new knife-box, which can be suspended from a wall or other support, and which in appearance is ornamental and convenient for use.

The accompanying drawing fully illustrates my invention.

A represents the back part of the frame or bracket, which has holes *a a*, by which it is secured to hooks or nails in the wall. B is the box secured upon the frame A, as shown,

and supported by a projecting bracket, *b*. C is the cover of the box, and *d e* are divisions in the latter, by which three compartments are formed, one for the knives, the second for forks, and the third for spoons.

The back frame A and bracket *b* are carved as shown, and the box B has a scalloped under edge.

I claim as my invention—

The design for a bracket knife-box shown, consisting of the carved back plate A, of the shape described, bearing upon its front the rectangular receptacle B, supported by the carved bracket *b*, substantially as shown and described.

JENNIE C. LAMM.
