UNITED STATES PATENT OFFICE.

CHARLES HENRY HORSFALL, OF NEW YORK, N. Y., ASSIGNOR TO
BAXTER & SCRIVEN BROTHERS, OF SAME PLACE.

DESIGN FOR SHIRT-BOSOM.

Specification forming part of Design No. **8,715**, dated October 11, 1875; application filed September 28, 1875.
[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, CHARLES H. HORSFALL, of New York, in the county and State of New York, have invented an Improved Design for Shirt-Bosoms; and I do hereby declare that the following is a full, clear, and exact description of the same, reference being had to the accompanying drawing, which represents a front view of a shirt bosom embracing my improved design.

The bosom **A** has two plaits, *a a*, in its center, running close to and parallel with each other from the bottom to a point, *b*, somewhat above its midlength, from which point they

diverge toward the neck and shoulders in the form of two sides of a triangle, as shown at *a' a'*, leaving a plain smooth surface, *c*, between them.

What I claim as my invention, and desire to secure by Letters Patent, is—

The design for a shirt-bosom, substantially as herein described, and represented in the accompanying drawing.

CHARLES HENRY HORSFALL.
