UNITED STATES PATENT OFFICE.

FRANK H. SHEPHERD, OF BOSTON, ASSIGNOR TO JAMES W. TUFTS, OF
MEDFORD, MASSACHUSETTS.

DESIGN FOR THE CASING OF A SODA-WATER APPARATUS.

Specification forming part of Design No. **8,779**, dated November 9, 1875; application filed October 27, 1875.
[Term of Patent 14 years.]

B.

To all whom it may concern:

Be it known that I, FRANK H. SHEPHERD, of Boston, in the county of Suffolk and State of Massachusetts, have invented and produced a new and original Design for the Casing of a Soda-Water Apparatus, of which the following is a full, clear, and exact description, reference being had to the accompanying photograph making part of this specification.

In the photograph, A represents the casing of a soda-water apparatus, which is of rectangular form, with a flat top or cover, *a*. The front and rear plates *b c* are each provided at the center of their length with ornamental projections, *d e*, which extend out beyond the planes of the sides *f*, while the latter are pro-

vided with ornamental projections *g h* at the top and bottom, which extend out beyond the planes of the front and rear plates *b c*, the design thus produced being unique and ornamental.

What I claim as my invention, and desire to secure by Letters Patent, is—

The design for the casing of a soda-water apparatus, substantially as herein shown and described.

Witness my hand this 23d day of October, A. D. 1875.

FRANK H. SHEPHERD.

In presence of—

P. E. TESCHEMACHER,
W. J. CAMBRIDGE.
