UNITED STATES PATENT OFFICE,

FRANCIS O. HANSON, OF PHILADELPHIA, PENNSYLVANIA.

DESIGN FOR GATES AND PANELS.

Specification forming part of Design No. **8,852**, dated December 21, 1875; application filed November 15, 1875.
[Term of Patent $3\frac{1}{2}$ years.]

To all whom it may concern:

Be it known that I, FRANCIS O. HANSON, of Philadelphia, in the county of Philadelphia and State of Pennsylvania, have invented certain new and useful Design for Ornamental Harp for Cemetery-Lot Railings and Gates; and I do hereby declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it pertains to make and use it, reference being had to the accompanying illustration, which forms part of this specification, and which is a photograph of my design.

My design for a harp for iron railings and gates is shown in the accompanying photograph; and consists in the particular config-

uration of the various parts constituting the same—namely, the body A, the arch or top B, resting on the circles *b b*, and the pendant C, hanging from the circles *c c*, said parts being united as shown.

I claim—

The design for a gate or panel, consisting mainly of a harp surmounted by an arch, and having a pendent wreath, as shown and described.

In testimony that I claim the foregoing I have hereunto set my hand this 29th day of October, 1875.

FRANCIS O. HANSON.
