# UNITED STATES PATENT OFFICE.

EDWIN L. BRITTIN, OF DERBY, CONNECTICUT, AND EDWARD SCHOTT, OF  
BROOKLYN, NEW YORK.

## DESIGN FOR TABLE-CUTLERY.

Specification forming part of Design No. **8,911**, dated January 18, 1876; application filed January 11, 1876.  
[Term of Patent 7 years.]

### CASE C.

*To all whom it may concern:*

Be it known that we, EDWIN L. BRITTIN, of Derby, county of New Haven and State of Connecticut, and EDWARD SCHOTT, of the city of Brooklyn, county of Kings and State of New York, have originated and designed a Pattern for Table-Cutlery, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing, in which—

Figure 1 represents a face view of a fish-knife containing our design. Fig. 2 is a rear view thereof.

Similar letters indicate corresponding parts.

Our invention consists in ornamenting one side of the handle of articles of table-cutlery with a bunch of fish and a water-lily, the other side of the handle being embellished with an ear of corn; further, in ornamenting the blade of such articles with the figure of nereid and sea-horse and a dolphin, whereby a very handsome and distinguishing appearance is imparted to the article.

In the drawing, the letter A designates the handle of a fish-knife, and B is its blade. The front side of the handle A contains a bunch or group of fish, C, which are suspended from a medallion, *a*, situated at the upper extremity of the handle. This front side of the handle has further a water-lily, D, and one or more transverse beads, H. The rear side of the handle is ornamented with the medallion *a*, an ear of corn, E, and the transverse beads

H, which extend entirely round the handle. The blade B contains the figure of nereid and sea-horse, marked F, and a dolphin, G. This blade, moreover, is ornamented with lines *b* parallel with the edges of the blade.

What we claim as new, and desire to secure by Letters Patent, is—

1. The design for the handles of table-cutlery, consisting of a group of fish, C, as shown and described.
2. The design for a fish-knife, consisting of a medallion, *a*, in combination with a bunch of fish, C, as shown and described.
3. The design for a fish-knife, consisting of a group of fish, C, and a water-lily, D, as shown and described.
4. The design for the blade B, consisting of the figure of nereid and sea-horse F, as shown and described.
5. The design for the blade B, consisting of a dolphin, G, as shown and described.
6. The design for the blade B, consisting of the combination of the figure of nereid and sea-horse F and a dolphin, G, as shown and described.

In testimony that we claim the foregoing, we have hereunto set our hands and seals this 23d day of December, 1875.

EDWIN L. BRITTIN. [L. s.]  
EDWARD SCHOTT. [L. s.]
