UNITED STATES PATENT OFFICE.

MIRUM SULZBACHER, OF NEW YORK, N. Y.

DESIGN FOR ARM-CHAIRS.

Specification forming part of Design No. **8,949**, dated February 1, 1876; application filed January 14, 1876.
[Term of Patent 14 years.]

To all whom it may concern:

Be it known that I, MIRUM SULZBACHER, of the city, county, and State of New York, have originated and designed a new Pattern for Arm-Chairs, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing or photographic illustration, making part of this specification.

The drawing represents a perspective view.

The characteristic features of my design are the peculiar beads of the front legs, hind legs, cross-braces, and arm-pieces, which impart to these parts a bamboo-like appearance; also, the peculiar shape and ornamentation of the arm-pieces, as hereinafter more fully described.

In the drawing, the letter *A* designates the seat of my arm-chair, which is supported by the front legs *B* and the hind legs *C*, said legs being connected to each other by the cross-braces *D*. From the side pieces *E* of the back-frame extend the arm-pieces *F*. All these parts are ornamented by beads *a*, which

are so shaped and distributed that they impart to the wood a bamboo-like appearance. The arm-pieces *F* are ornamented by an outward curve, *b*, near their rear ends, and the front portions of said arm-pieces are curved downward, and ornamented by flutings *c*.

What I claim as my invention, and desire to secure by Letters Patent, is—

1. The design of the beads *a* in the front legs, the hind legs, the cross-braces, and the arm-pieces of a chair, whereby a bamboo-like appearance is imparted to said parts, as shown and described.

2. The design of arm-pieces *F* with the outward curve *b* and fluted curve *c*, as shown and described.

In testimony that I claim the foregoing I have hereunto set my hand and seal this 30th day of December, 1875.

M. SULZBACHER. [L. S.]
