UNITED STATES PATENT OFFICE.

EDWARD C. CLARK, OF ROCKVILLE, CONNECTICUT.

DESIGN FOR CASSIMERES.

Specification forming part of Design No. 8,996, dated February 15, 1876; application filed January 3, 1876.
[Term of Patent 3½ years.]

To all whom it may concern :

Be it known that I, EDWARD C. CLARK, of Rockville, in the county of Tolland and State of Connecticut, have originated and designed a Pattern for Cassimeres, or other fabrics for wearing-apparel, of which the following is a full, clear, and exact description :

The nature of my design is fully represented in the accompanying photographic illustration, to which reference is made.

The fabric represented in the drawing has a ground composed of stripes *a b*, of contrasting shades, each stripe being, preferably, mottled or striped—one longitudinally and the other adjacent one transversely—and on this ground, and in the stripes, I weave the word "CENTENNIAL," the letters of the word

running longitudinally and forming parallel stripes.

I have shown a plain letter; but it is evident I could change the style of the letter, and so, too, I can add transverse bars between the letters, forming the ground into squares.

The design consists in the letters "CENTENNIAL," inwrought into the face of a striped fabric, with a contrasting color.

I claim—

The design for cassimeres, substantially as described.

EDWARD C. CLARK.
