UNITED STATES PATENT OFFICE.

CONRAD HARRIS AND EDWARD KUMMER, OF CINCINNATI, OHIO,
ASSIGNORS TO C. HARRIS & SON, OF SAME PLACE.

DESIGN FOR HEATING-STOVE.

Specification forming part of Design No. **9,166**, dated March 28, 1876; application filed March 19, 1874.

[Term of Patent 7 years.]

To all whom it may concern:

Be it known that we, CONRAD HARRIS and EDWARD KUMMER, both of Cincinnati, in the county of Hamilton and State of Ohio, have invented a new and useful Design for a Wood Heating-Stove, of which the following is a full, clear, and exact description, reference being had to the accompanying photographic illustration, making part of this specification.

The nature of our design is fully represented in the accompanying photographic illustration, to which reference is made.

The body of the stove is a shell, oval or elliptical in cross-section, and arranged horizontally. Its heads, back, and front carry on top an ornament, A, of scroll-work, and are pro-

vided with a bevel-molding, B. The front head of the stove is provided with a door, upon which is formed a shield-like ornament, C. The rear head is formed like the front head; but a panel is substituted for the door. The base D, upon which the urn rests, has upon each side an ornament, E.

What we claim as our invention is—

The herein-described design for a wood heating-stove, ornamented as at A, B, C, and E, substantially as illustrated.

CONRAD HARRIS.
EDWARD KUMMER.
