UNITED STATES PATENT OFFICE.

EDWIN R. WARRINGTON, OF PHILADELPHIA, PA., ASSIGNOR TO HIMSELF,
ANDREAS HARTEL, AND JOSEPH HARTEL, OF SAME PLACE.

DESIGN FOR FABRICS.

Specification forming part of Design No. **9,181**, dated April 4, 1876; application filed March 20, 1876.
[Term of Patent $3\frac{1}{2}$ years.]

To all whom it may concern:

Be it known that I, EDWIN R. WARRINGTON, of Philadelphia, Pennsylvania, have produced or invented a Design for a Fabric, of which the following is a specification:

My design for a fabric is fully shown in the accompanying drawing.

The central feature of the design is a medallion containing a bust of Lafayette, and having at each side groups of leaves *b*, and beneath it sprays *d*, with blossoms. Below this is an eagle, which carries in its beak the stem from which the sprays *d* project, the eagle standing upon a group of leaves and flowers, on either side of which are leaves and branches *e*.

This pattern is repeated over the whole of the fabric.

Irrespective of the colors employed, I claim—

The design for a fabric, substantially as described, and as illustrated in and by the accompanying drawing.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

EDWIN R. WARRINGTON.

Witnesses:

HARRY HOWSON, Jr.,
HARRY SMITH.
