UNITED STATES PATENT OFFICE

HENRY BREHMER, OF STAPLETON, ASSIGNOR TO DAVID WOLFE BI
NEW YORK, N. Y.

DESIGN FOR A FONT OF PRINTING-TYPES.

Specification forming part of Design No. 9,183, dated April 4, 1876; application filed March
[Term of Patent 14 years.]

To all whom it may concern :

Be it known that I, HENRY BREHMER, of Stapleton, county of Richmond and State of New York, have originated and designed a new Design for a Font of Printing-Types, of which the following is a specification :

The nature of my design is clearly shown in the accompanying typographic impression to which reference is made; and consists of capitals, points, and figures of a grotesque Roman form, with the body marks very light, expanding at the cap and base into very heavy serifs or cross-lines, a few of the letters being correspondingly enlarged in other portions. Some of the letters have a portion which usually ends in a point or in abrupt connection with some other portion, carried forward

into a curling flourish ending in a few of these being so carried of the top or below the line of the character in general.

The letter or character has a semi-shade line of uniform weight or thickness the right and below, following the the body.

What I claim as my invention, a to secure by Letters Patent, is—

The design or pattern for a font of types, as shown and described.

HENRY BREHMER
