# UNITED STATES PATENT OFFICE

JULIUS HERRIET, OF NEW YORK, N. Y., ASSIGNOR TO DAVID WOLFE BRUCE,  
OF SAME PLACE.

## DESIGN FOR A FONT OF PRINTING-TYPES.

Specification forming part of Design No. **9,196**, dated April 4, 1876; application filed March 20, 1876.  
[Term of Patent 14 years.]

*To all whom it may concern :*

Be it known that I, JULIUS HERRIET, of the city and county of New York and State of New York, have originated and designed a new Design for a Font of Printing-Types, of which the following is a specification:

The nature of my design is clearly shown in the accompanying typographic impression, to which reference is made; and consists of lower-case, capitals, figures, and points, in style a sort of Roman, with the body-marks tapering off into very heavy ceriph, or top and bottom pieces, and with the curves of the rounded

letters, such as the C, D, O, &c., also very heavy, and approaching on the outside a peaked form. Each letter is shaded on the right side and bottom by a detached line of uniform thickness or width.

What I claim as my invention, and desire to secure by Letters Patent, is—

The design or pattern for a font of printing-types, as shown and described.

JULIUS HERRIET.
