# UNITED STATES PATENT OFFICE.

WILLIAM C. KING, OF PITTSBURG, PENNSYLVANIA.

## DESIGN FOR BEER-MUG.

Specification forming part of Design No. **9,199**, dated April 4, 1876; application filed February 29, 1876.  
[Term of Patent 3½ years.]

*To all whom it may concern:*

Be it known that I, WILLIAM C. KING, of Pittsburg, county of Allegheny, State of Pennsylvania, have invented or discovered a new and useful Design for Beer-Mugs; and I do hereby declare the following to be a full, clear, concise, and exact description thereof, reference being had to the accompanying drawing, making a part of this specification, in which, like letters indicating like parts—

Figure 1 is a side elevation of the mug, and Fig. 2 is a sectional view in the line *x x*, Fig. 1.

My improved design for beer-mugs consists of vertical flutings *a* on the outer periphery of the mug made convex in cross-section. These

flutings extend up the sides of the mug to a point a little below the upper end, where they terminate in a plain or smoothly-finished mouth, *c*. The beer-mug handle is represented at *d*.

I claim—

The design for beer-mugs, of convex flutes *a*, smooth mouth *c*, and handle *d*, substantially as shown and described.

In testimony whereof I have hereunto set my hand.

WM. C. KING.
