

9,226

Apr. 18, 1876.

Geo D Harris.
1. 3. 1876

Conrad Harris
Eduard Hummer

UNITED STATES PATENT OFFICE.

CONRAD HARRIS AND EDWARD KUMMER, OF CINCINNATI, OHIO, ASSIGNORS
TO C. HARRIS & SON, OF SAME PLACE.

DESIGN FOR COOKING-STOVES.

Specification forming part of Design No. **9,226**, dated April 18, 1876; application filed March 19, 1874.
[Term of Patent 7 years.]

To all whom it may concern :

Be it known that we, CONRAD HARRIS and EDWARD KUMMER, both of Cincinnati, in the county of Hamilton and State of Ohio, have invented a new and useful Design for a Wood Cooking-Stove, of which the following is a full, clear, and exact description, reference being had to the accompanying photographic illustration, making a part of this specification.

The nature of our design is fully represented in the accompanying photographic illustration, to which reference is made.

The body of the stove, in general contour, is like that of any ordinary cooking-stove. The doors have formed upon them festoon-like ornaments, as at A A, and near the edges of the body

of the stove run peculiarly-formed moldings B. The middle section C of the feet has an angular front surface, and has a central ornament at c.

What we claim as our invention, and desire to secure by Letters Patent, is—

1. The festoon-like ornaments A, as a design for the doors of cooking-stoves, substantially as shown and described.
2. The design for the feet of stoves, substantially as shown and described.

CONRAD HARRIS.
EDWARD KUMMER.
