UNITED STATES PATENT OFFICE.

JUSTINIEN REVEL, OF PHILADELPHIA, PENNSYLVANIA.

DESIGN FOR A MEDALLION CAST.

Specification forming part of Design No. 9,245, dated April 25, 1876; application filed April 1, 1876.
[Term of Patent 3½ years.]

To all whom it may concern:

Be it known that I, JUSTINIEN REVEL, of Philadelphia, in the county of Philadelphia and State of Pennsylvania, have originated and designed a Pattern for Medallions or Casts; and I do hereby declare that the following is a full, clear, and exact description of the construction and operation of the same, reference being had to the annexed photograph, making a part of this specification.

The nature of my design is fully represented in the accompanying photographic illustration, to which reference is made.

The object of my design is to produce in plaster a medallion or cast commemorative of the Centennial Anniversary of the Declaration of Independence. It consists of a body or ground preferably of oval or elliptical form, having upon its upper field a scroll bearing the word "Centennial" at its central portion, and the dates 1776 upon one of its floating ends, and 1876 upon the other. Below this scroll is a bust of George Washington, flanked by two American flags, the staffs of which are provided with liberty-caps and floating tassels. Below the bust is a representation of the American eagle with outstretched wings, bearing in its talons the thunderbolts of Jove and branch of laurel, and a floating scroll or pennon bearing the inscription,

"Glory to Washington." The eagle is surmounted by a halo having in its rays the "Star of Empire," and is standing upon the crank of the liberty bell, which announced to the citizens of Philadelphia the passage and adoption of the Declaration of Independence. This bell shows the line of fracture and bears the usual inscriptions, being, in fact, a facsimile in miniature of the historical bell.

The various figures and emblematic devices will be in alto-relievo, but I may make them in bass-relief if I so elect.

What I claim as new, and desire to secure by Letters Patent, is—

The design for a medallion cast composed of the scroll bearing the words "Centennial" and the dates 1876 and 1776, the bust of Washington, the flanking standards, the eagle with outspread wings surmounted by a halo, the liberty bell and the floating pennon or scroll bearing the words, "Glory to Washington," substantially as described, and shown in the accompanying drawing.

In testimony that I claim the above I have hereunto subscribed my name in the presence of two witnesses.

JUSTINIEN REVEL.
