UNITED STATES PATENT OFFICE.

WILLIAM A. WALTON, OF PROVIDENCE, RHODE ISLAND, ASSIGNOR TO THE WEYBOSSET MILLS, OF SAME PLACE.

DESIGN FOR FANCY CASSIMERE FABRICS.

Specification forming part of Design No. **9,287**, dated May 16, 1876; application filed May 6, 1876.
[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, WM. A. WALTON, of the city and county of Providence, and State of Rhode Island, have invented a new Design for Fancy Cassimere Fabrics; and I do hereby declare that the following specification, taken in connection with the drawings making a part of the same, is a full, clear, and exact description thereof.

The design which is the subject of this patent consists in the combination of broad stripes, composed of shade-lines running lengthwise of the fabric, with alternate stripes of a checkered pattern upon a plain ground.

A A represent broad stripes, which are composed of a number of lines, *a a*, which are parallel to each other, and are placed at varying distances apart, so as to give a shaded effect to the stripe. B B represent stripes, which alternate with the stripes A A, and run length-

wise of the fabric. These stripes B B consist of a plain ground relieved by consecutive checkered figures C, as shown, the effect of which latter is to give a shaded effect to the stripes B B.

The fabric may be woven in any preferred variety or combination of colors, for giving the best effect to the design above described, the characteristic feature of which is the shade-line stripes A A, in combination with the checker-pattern stripes B B.

What I claim is—

The design for fancy cassimere fabrics, substantially as herein described, and represented in the drawings.

WILLIAM A. WALTON.
