UNITED STATES PATENT OFFICE.

WILLIAM C. KING, OF UNION TOWNSHIP, ALLEGHENY COUNTY, ASSIGNOR
TO KING, SON & CO., OF PITTSBURG, PENNSYLVANIA.

DESIGN FOR BEER-MUGS.

Specification forming part of Design No. 9,304, dated May 23, 1876; application filed May 8, 1876.

[Term of Patent 7 years.]

To all whom it may concern:

Be it known that I, WILLIAM C. KING, of Union township, county of Allegheny, State of Pennsylvania, have invented or discovered a new and useful Design for Beer-Mugs; and I do hereby declare the following to be a full, clear, concise, and exact description thereof, reference being had to the accompanying drawing making a part of this specification, in which—like letters indicating like parts—

Figure 1 is a side elevation of a beer-mug, illustrative of my improved design; and Fig. 2 shows a sectional view thereof in the line *x*, Fig. 1.

My improved design for beer-mug consists of a series of vertical flutings, *a*, convex on their outer face in horizontal section, extending from a little below the plain finished mouth *b* of the mug to or nearly to the lower end *c* of its continuous unbroken surface, the upper

end of the mug tapering in somewhat like the end of a barrel, and the mug having the ordinary stuck handle *d*. The mug has also a slight taper towards its lower end, at least so much as is necessarily given to it in the operation of pressing.

I claim herein—

The design of a beer-mug, consisting of a taper at each end of the mug, a plain finished mouth, *b*, vertical convex flutings *a* extending uninterruptedly to or nearly to the lower end of its continuous unbroken surface, and stuck handle, *d*, substantially as shown and described.

In testimony whereof I have hereunto set my hand.

WILLIAM C. KING.
