UNITED STATES PATENT OFFICE.

DANIEL M. CUMMINGS, OF ENFIELD, NEW HAMPSHIRE.

DESIGN FOR AN EAVES-TROUGH.

Specification forming part of Design No. **9,363**, dated July 4, 1876; application filed June 22, 1876.
[Term of Patent 14 years.]

To all whom it may concern:

Be it known that I, DANIEL M. CUMMINGS, of Enfield, Grafton county, New Hampshire, have invented a Design of an Eaves-Trough, of which the following is the description:

The nature of my design is fully represented in the accompanying drawing, which shows a section of an eaves-trough.

The trough consists of two inclined sides, *a* *a'*, the outer side being ornamented (instead of being plain, as usual) by means of flat faces *e e'* and rounded face *c*, and curved recess *d*, extending the entire length of the trough and forming an ogee.

I claim—

The design for an eaves-trough, having the front ornamented by plain faces *e e'* and intermediate curved faces *c d*, as set forth.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

DANIEL M. CUMMINGS.

Witnesses:

F. H. WELLS,
C. G. MORGAN.
