EX  
9,369

# UNITED STATES PATENT OFFICE.

SAMUEL KELLETT, OF SAN FRANCISCO, CALIFORNIA.

## DESIGN FOR CENTER-PIECE.

Specification forming part of Design No. **9,369**, dated July 4, 1876; application filed March 13, 1876.  
[Term of Patent 14 years.]

*To all whom it may concern:*

Be it known that I, **SAMUEL KELLETT**, of the city and county of San Francisco, State of California, have invented a new and original Design for a Center-Piece, reference being had to the accompanying photograph and to letters marked thereon.

On a plain circle beaded, a drop, A, is placed between plain molding and outer border. Two forms, repeating, make inner portion of center-piece. B designates the leading figure, the ground of which is scrolled on end touching bead molding.

On flat of ground extending to outer point, small round forms are placed, as shown. The

raised leaf, which is the distinguishing part of figure, is antique in style. A stem and leaves, C, form secondary figure of design, and are placed between and touching base of first-described figures. The outer border D is of simple design, making a pleasing contrast to inner figure of center-piece.

What I claim as new, and desire to secure by Letters Patent, is—

The design and combination, as shown.

SAML. KELLETT.
