

# UNITED STATES PATENT OFFICE.

FREDERICK R. SEIDENSTICKER, OF WEST MERIDEN, CONN., ASSIGNOR TO THE BRADLEY & HUBBARD MANUFACTURING COMPANY, OF SAME PLACE.

## DESIGN FOR INKSTANDS.

Specification forming part of Design No. 9,383, dated July 4, 1876; application filed June 22, 1876.  
[Term of Patent 3½ years.]

*To all whom it may concern:*

Be it known that I, FREDERICK R. SEIDENSTICKER, of West Meriden, in the county of New Haven and State of Connecticut, have invented a new Design for Inkstands; and I do hereby declare the following, when taken in connection with the accompanying drawings, to be a full, clear, and exact description of the same, and which said drawings constitute part of this specification, and represent a perspective view.

This invention relates to a design for inkstand-base and pen-rack; and consists in the peculiar configuration and ornamentation of the base, as hereinafter described.

The base is in the form of a parallelogram, resting on a foot at each angle. The edge of the base, in transverse section, is in vertical outline of inverted ogee form, with an inverted-egg ornamentation, surmounted by a smaller

inverted ogee molding, reeded, and a fillet flush with the upper surface of the base, all as shown in the accompanying illustration.

On the base the ink stand or stands are arranged, and from this the pen-rack rises in the rear. The base may be made of varying size, according to the size or number of inkstands desired.

I claim—

The design for inkstands herein described, consisting of the base, the edges of which, in transverse section, are molded in inverted ogee form, with the egg and reeded ornamentation, as shown in the accompanying illustration.

FREDERICK R. SEIDENSTICKER.
