# UNITED STATES PATENT OFFICE.

LUDWIG SUTRO, OF NEW YORK, N. Y.

## DESIGN FOR TRIMMING.

Specification forming part of Design No. **9,410**, dated July 25, 1876; application filed June 8, 1876.  
[Term of Patent  $3\frac{1}{2}$  years.]

*To all whom it may concern :*

Be it known that I, LUDWIG SUTRO, of the city, county, and State of New York, have originated and designed an Ornamental Trimming, of which the following is a clear and exact description, reference being had to the accompanying photographic illustration, making part of this specification.

The nature of my design is fully represented in the accompanying photographic illustration, to which reference is made.

A represents an ornament, composed of a hollow mold, of any material, formed in the shape of a bell, and covered with threads of silk, worsted, linen, cotton, or other material. A pendant, B, is fastened inside the bell-shaped ornament, and represents the hammer of a bell. The whole is attached to a cord, C, of any material, and representing the hanger of a bell. D represents an ornament formed in the shape of a steeple or tower, and composed of woven or knitted threads of silk, worsted, linen, cotton, or other material.

The bell-shaped ornament A may be hung

inside the tower-shaped ornament D, and, being a representation of the Old Liberty Bell, the whole forms a beautiful ornament appropriate to the centennial year of the independence of the United States of America.

To the bottom of the trimming may be attached a skirt of bullion-cords, or threads and tapes formed into bunches, E, and to the top may be fastened a cord and knot, F, the whole combination then forming a strong and beautiful tassel.

What I claim as my invention is—

The design for a trimming, consisting of an ornament in the shape of a bell hung within an ornament in the shape of a steeple or tower, with an attachment of a skirt of bullion cords or threads and tapes formed into bunches, substantially as above described, and shown in the accompanying illustration.

LUDWIG SUTRO.
