# UNITED STATES PATENT OFFICE.

JOHN J. LYNCH, OF WASHINGTON, DISTRICT OF COLUMBIA, ASSIGNOR TO  
MARY LOUISA LYNCH, OF SAME PLACE.

## DESIGN FOR BELLS.

Specification forming part of Design No. 9,589, dated October 10, 1876; application filed October 14, 1875.  
[Term of Patent 3½ years.]

*To all whom it may concern:*

Be it known that I, JOHN J. LYNCH, of Washington, in the county of Washington, and in the District of Columbia, have invented a certain new and original Design for Hand-Bells; and do hereby declare that the following is a full, clear, and exact description thereof, reference being had to the accompanying drawing, making a part of this specification.

The distinctive feature of my design consists in a bell, A, which has the form and configuration of the old "Independence Bell," and is surmounted by a figure, B, which rep-

resents the Goddess of Liberty, and has such relative size and proportion as to render it suitable for a handle.

Having thus described my invention, what I claim as new is—

The design for a bell, substantially as shown.

In testimony that I claim the foregoing I have hereunto set my hand this 13th day of October, 1875.

JOHN J. LYNCH
