UNITED STATES PATENT OFFICE.

HENRY BERGER, OF NEW YORK, N. Y.

DESIGN FOR CENTER-PIECES.

Specification forming part of Design No. 9,640, dated November 21, 1876; application filed November 10, 1876.
[Term of Patent 14 years.]

To all whom it may concern:

Be it known that I, HENRY BERGER, of the city, county, and State of New York, have originated and designed a Pattern for Center-Pieces, of which the following is a full, clear, and exact description, reference being had to the accompanying photographic illustration, which shows a face view of my design.

This design consists of a central circular panel bearing an ornamental rosette, and of an exterior wreath of leaves and pine cones, the panel being formed by a circular molding, which has angular projections, alternating with stems, which appertain to the leaves and pine cones of the exterior wreath.

The letter A designates the central panel of my center-piece, which has a circular outline, and B is an ornamental rosette situated in the center of the panel. This rosette B consists of a bud fringed with leaves, which are surrounded with alternate leaves and scrolls, as clearly shown. C is a circular molding that forms the central panel A, ornamented with recesses and shields, and D are angular projections formed on the molding. E are stems which alternate with the projections D, and

emerge from the ornamental recesses of the molding. F are leaves, and G pine cones composing an exterior wreath, and the outer figure of my design, the leaves F being of a species of acanthus. The stems E belong to the leaves and pine cones F G, and they intertwine with each other between the leaves F, as at H, by which several characteristic features I obtain a novel and distinguishable design.

What I claim as new, and desire to secure by Letters Patent, is—

1. The design for a center-piece of the central panel A, rosette B, and exterior wreath F G, as shown and described.

2. The design for a center-piece of the central panel A, rosette B, circular or molding C, and exterior wreath F G, as shown and described.

In testimony that I claim the foregoing I have hereunto set my hand and seal this 6th day of July, 1875.

HENRY BERGER. [L. S.]
