UNITED STATES PATENT OFFICE

LORENZO P. HEATH, OF SPRINGFIELD, MASSACHUSETTS, ASSIGNOR TO THE
POWERS PAPER COMPANY, OF SAME PLACE.

DESIGN FOR PAPER BOXES.

Specification forming part of Design No. **9,733**, dated February 6, 1877; application filed December 14, 1876.
[Term of Patent $3\frac{1}{2}$ years.]

To all whom it may concern :

Be it known that I, LORENZO P. HEATH, of Springfield, in the county of Hampden, State of Massachusetts, have originated a new design for a Paper Box, of which the following is a full, clear, and exact description, reference being had to the accompanying wood-cut, making part of this specification.

The top of this box, being highest in the middle through so much of its length as covers the rectangular portion of the box, has sloping faces toward each side, and those portions covering the pointed ends of the box slope from the highest point toward each side and the point at the end, and the six divided portions of the top (represented by the spaces inclosed within the ornamental border and cross-strips) are ornamented by affixing thereto ornamental flower pictures. Ornamental borders are affixed to the cover around its edge

on the top face, and through its whole length on the center line, and crossing from side to side at the lines of deflection from the highest point toward the ends, all of which is clearly shown in the cut illustrating this box.

What I claim as my invention is—

A design for a paper box in which the top is the highest through a portion of its length, with the top faces sloping toward the sides of the box, and toward the sides and extreme points on the ends, and in which the sloping faces of the top are divided by fancy border-strips, and have ornamental flower pictures affixed on the spaces so divided, all of which is shown clearly in the illustrating cut.

LORENZO PRESCOTT HEATH.
